Due: **Week 11**

Students will pick an international industry that affects Australia and analyse the key actors, elements and implications for the relevant business sector in a 1500 word report. You must identify two major companies in the industry and discuss the issues facing their prosperity. Your job is to decide for your investment reader what are the positive aspects and how to assess the negatives. You need to take a decision of what companies are overcoming problems and capitalizing on opportunities. The report will be based on independent research drawn from a variety of primary and secondary sources including interviews (no more than six months old). The report is a business analysis. The report should contain a source list. Only four Internet sources are allowed and must be accompanied by a printout of the relevant research.

Assessment criteria: demonstrate correct business report structure; correct use of visual aids such as graphs and statistics; clarity of analysis; adherence to language rules. Reports must be submitted through Turnitin.
