Unit description This unit is intended as an introduction to the field of educational psychology. The field of inquiry combines major theories from the disciplines of Psychology and Education, and applies these to the context of teaching and learning. The central focus is on human development. Development and learning are influenced by a large range of factors, such as the cognitive, personal, social (including language), emotional, and physical developments. In addition, social and cultural influences and the education setting play a role in learning.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- To develop an insight into factors within the learner and the environment that plays a role in human development.
- To develop basic academic literacy skills in implementing a sustained and written argument.
- To have an understanding of the basic theoretical concepts in the field of educational psychology.
- To improve the understanding of some applications of educational psychology in

classroom contexts.

The opportunity to develop the ability to explore educational ideas and issues through research and critical analysis

Graduate Capabilities

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Assessment task

- Major essay

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcome

- To develop an insight into factors within the learner and the environment that plays a role in human development.

Assessment tasks

- Quiz During On Campus Day 1
- Final Exam

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- To develop an insight into factors within the learner and the environment that plays a role

in human development.

- To develop basic academic literacy skills in implementing a sustained and written argument.

Changes from Previous Offering

There is a new policy for late extensions. See below.

LATE PENALTIES and EXTENSIONS

Applications for extensions must be made via Ask MQ at <https://ask.mq.edu.au> as a "Disruption to Studies" request before the submission date. Students who experience a disruption to their studies through ill-health or misadventure are able to apply for this request. Extensions can only be granted if they meet the Disruption to Studies policy and are submitted via ask.mq.edu.au. This will ensure consistency in the consideration of such requests is maintained.

In general, there should be no need for extensions except through illness or misadventure that would be categorized as unavoidable disruption according to the University definition of same, and currently available at:

http://students.mq.edu.au/student_admin/exams/disruption_to_studies/

Late submissions without extension will receive a penalty of 5% reduction of the total possible mark (not assessed given mark) for each day late (including weekends and public holidays). You are reminded that submitting even just 1 day late could be the difference between passing and failing a unit. Late penalties are applied by unit conveners or their delegates after tasks are assessed.

No assessable work will be accepted after the return/release of marked work on the same topic. If a student is still permitted to submit on the basis of unavoidable disruption, an alternative topic may be set.

Students should keep an electronic file of all assessments. Claims regarding "lost" assessments cannot be made if the file cannot be produced. It is also advisable to keep an electronic file of all drafts and the final submission on a USB untouched/unopened after submission. This can be used to demonstrate easily that the assessment has not been amended after the submission date.
