Unit description

This unit provides students with a graduate-level understanding of accounting as a business process of recording, measuring, classifying and reporting relevant economic, financial and other related information and transactions for use by a variety of stakeholders. Students completing the unit are expected to be able to prepare, analyse and discuss financial reports in various business contexts. Seminars cover the core aspects of the preparation and basic analysis of financial statements and the underlying policies and principles.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Explain the purpose of accounting and accounting processes and appreciate the role of

accounting in business sustainability and ethical decision making.

Identify, record and process business transactions in the accounting system and report their effect by preparing appropriately structured financial statements.

Undertake basic analysis of the financial statements of organisations.

Explain the importance of budgeting and costing in an organisation and use such information to make business decisions.

Participate in group work activity and communicate the results of group work in appropriate reports.

General Assessment Information

What is required to pass the Unit?

To achieve a passing grade for the unit students MUST obtain an overall mark greater than 50%.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Assessed coursework</u>	25%	No	Weeks 2, 3, 7, 9, 12
<u>Class Tests</u>	20%	No	Weeks 4 and 10
<u>Final examination</u>	55%	No	University examination period

Assessed coursework

Due: **Weeks 2, 3, 7, 9, 12**

Weighting: **25%**

Participation in Discussion Forum (25%)

Students will form respond to a discussion forum in Weeks 2, 3, 7, 9 & 12. The discussion question(s) will be based on assigned homework. Each response will be marked out of five.

Submission

Submission is only possible online.

Extensions and penalties

No extensions will be granted. Students who do participate in the discussion forum will be awarded a mark of 0 for the task. This penalty does not apply in cases for which an application for Disruption to Studies is made and approved.

On successful completion you will be able to:

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing appropriately structured financial statements.
- Undertake basic analysis of the financial statements of organisations.
- Explain the importance of budgeting and costing in an organisation and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work in appropriate reports.

Class Tests

Due: **Weeks 4 and 10**

Weighting: **20%**

Students are required to attempt two class tests.

The first test will be a 30 minute online multiple choice test at the end of Week 4. The test is weighted 10% and will serve as a diagnostic indicator of student performance.

The second class test will be an online test at the end of Week 10. The test will be weighted 10% and be of one hour duration.

Detailed information about the class tests will be released on iLearn.

Submission

Both tests will be online thus must be completed online.

Extensions and penalties

No extensions will be granted. Students who have not attempted the class tests will be awarded a mark of 0 for the test. This penalty does not apply for cases in which an application for Disruption to Studies is made and approved. Note that there will be no supplementary tests. Students who are absent from the first class test will increase the weighting on the second or third test and vice versa if an application for Disruption to Studies is made and approved. Students who miss all tests will shift the assessment percentage to the Assignment if an application for Disruption to Studies is made and approved.

On successful completion you will be able to:

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.

- Participate in group work activity and communicate the results of group work in appropriate reports.

Final examination

Due: **University examination period**

Weighting: **55%**

Submission

A 2 hour final examination for this unit will be held during the University Examination period. Detailed information will be available on ilearn prior to the Week 13 seminar.

The University Examination period in Session 1 2017 is Monday 12 June through Friday 30 June.

You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examination: http://students.mq.edu.au/student_admin/exams/

Grade

Grade descriptors and other information concerning grading are contained in the Macquarie University Grading Policy which is available at: <http://www.mq.edu.au/policy/docs/grading/policy.html>.

Students will be awarded one of these grades. All final grades in the Department of Accounting and Corporate Governance are determined by a grading committee and are not the sole responsibility of the Unit Coordinator. The final grade awarded reflects the corresponding grade descriptor in the Grading Policy.

Extensions and penalties

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Disruption to Studies. If a Supplementary Examination is granted as a result of the Disruption to Studies process the examination will be scheduled after the conclusion of the official examination period. Please note that the supplementary examination will be of similar format as the final examination. The Macquarie University examination policy details the principles and conduct of examinations at the University, The policy is available at: <http://www.mq.edu.au/policy/docs/examination/policy.html>

On successful completion you will be able to:

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing appropriately structured financial statements.
- Undertake basic analysis of the financial statements of organisations.
- Explain the importance of budgeting and costing in an organisation and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work in appropriate reports.

Graduate Capabilities

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcomes

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing appropriately structured financial statements.
- Undertake basic analysis of the financial statements of organisations.
- Explain the importance of budgeting and costing in an organisation and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work in appropriate reports.

Assessment tasks

- Assessed coursework
- Class Tests
- Final examination

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing appropriately structured financial statements.
- Undertake basic analysis of the financial statements of organisations.
- Explain the importance of budgeting and costing in an organisation and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work in appropriate reports.

Assessment tasks

- Assessed coursework
- Class Tests
- Final examination

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing appropriately structured financial statements.
- Undertake basic analysis of the financial statements of organisations.
- Explain the importance of budgeting and costing in an organisation and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work in appropriate reports.

Assessment tasks

- Assessed coursework
- Class Tests
- Final examination

Research and Practice, Global and Sustainability

This unit addresses global and sustainability issues as direct areas of study and as necessary implications arising from the materials, assessment and academic discussion and debate in classes/seminars. We promote sustainability by developing the ability of students to research and locate information within the accounting discipline. We aim to provide students with an opportunity to obtain skills which will benefit them throughout their career.

The unit materials have a reference list at the end of each chapter/module/text containing all references cited by the author. These provide some guidance to references that could be used to research particular issues.
