| Unit description This unit examines the use of and reliance upon research and expert opinion in policy making, in the context of the pressure for 'evidence-based' policy and contestability of advice. It explores issues around reliability and validity of research and develops skills in assessing quality and relevance of evidence related to specific policy problems. The unit considers theoretical debates around participation, engagement and knowledge politics with respect to policy making, and it critically examines a range of contemporary case studies demonstrating the use of evidence in policy formulation and evaluation. |

General Assessment Information

Assignment Submission All written assignments must be submitted using the “Turnitin Assignments” facility on the iLearn website. This facility includes software which scans the uploaded assignments for plagiarism. Follow the instructions on the screen carefully. Your assignment should be uploaded before midnight on the due date. **In all cases**, you should ensure that you keep a copy of the assignment.

Return of marked work Marked assignments will be returned via the same facility on iLearn. When marks are released, you will need to go back in to the assignment submission box, and open your uploaded assignment. When you click on the “GradeMark” button, you will be able to see the marker’s comments on your work. You can save or print the essay with the comments.

Extensions Extensions will only be granted in exceptional circumstances, and will require documentary evidence such as a medical certificate to support the request for an extension. You should contact the convenor as early as possible if you think you may need an extension. While we do understand that most students are engaged in paid employment, extensions cannot be granted on this basis alone.

Penalties for late submission

Assignments which are submitted after the due date, without having an extension granted by the convenor, will be penalised, at a rate of 3% of the mark for each week day after the due date. Any paper submitted more than 3 weeks after the due date will not be marked, and the student will be failed for the assignment.
