Unit description

This is research-based unit requires the completion of a dissertation of approximately 15,000 words in one semester on a topic within the scope of International Relations. The research topic is chosen by the student but must be approved by the convenor as suitable for an MIR dissertation and for which supervision is available within the Department. The unit is not normally undertaken until at least four units in the MIR program have been completed, and entry is conditional on the achievement of a High Credit or Distinction average in these four units. Applications for enrolment in the unit should be made through the MIR office and are assessed individually.

General Assessment Information

Plagiarism

Plagiarism has become an increasing problem in universities. The convenor of this course finds plagiarism in all its forms offensive and will pursue any plagiarism committed by students in this course and will apply appropriate penalties. Plagiarism is essentially a form of cheating, which provides those students with an unfair advantage to the rest of the student body, and devalues the MIR degree. The Department and the Faculty take plagiarism very seriously, with penalties escalating from mark deductions, zero grades for particular assignments, zero grades for the course as a whole, and in serious cases, expulsion from the degree and the university.

All theses will be automatically screened through Turnitin (anti-plagiarism software).

Extensions

Any student seeking an extension of time to submit their research paper must, except in extraordinary circumstances, submit to the Convenor (or have submitted on their behalf) a request in writing and supportive documentary evidence prior to the due date. Extensions will not be given other than in exceptional cases of illness. In such cases, a certificate signed by a medical practitioner must be submitted as supportive documentary evidence.

In extraordinary circumstances where a written request for an extension cannot be submitted, an application for an extension can be sought verbally. However, in such cases, any extension granted will be subject to the student subsequently submitting such documentary evidence as is deemed appropriate by the Convenor. If an extension is sought due to the death of a family member, proof must be provided in the form of a death certificate.

Extensions beyond one week are subject to special consideration. The policy for this is detailed under Policy and Procedures under 'Disruption to Studies Policy'.

Whilst we do understand that many or most students support themselves through paid employment, extensions cannot be granted on this basis alone. Students must manage their time and workloads accordingly. Meeting deadlines for assignments is an important skill, and is expected in most jobs. Accordingly, the penalties for late submission are high.

Penalties for Late Submission

Any research paper that is submitted after the due date and without having obtained an extension will be penalized at a rate of 2% per day. For example:

- a 6% penalty will be applied to an assignment that is 3 days late. If the paper receives an original mark of 70/100, after a 6% penalty is applied, the final mark for the essay would be 66/100

Any thesis that is submitted 10 days after the due date will not be marked and the student submitting such a thesis will be deemed not to have completed and submitted it.

MIR Grade Criteria and Rubric

All theses will be marked using the MIR Grade Criteria and Rubric.
