Unit description

This unit requires students to draw on theoretical and discipline knowledge and use these to engage actively in a current and topical policy problem. The students will have opportunities to consult experts and stakeholders in a given policy area and identify relevant evidence, expert opinion and stakeholder views. Students will explore a range of problem definitions and scenarios, and consider alternative policy solutions. Working collaboratively in teams, students will develop and present a comprehensive and constructive policy proposal which demonstrates an awareness of ethical, political, social, economic and cultural factors which are significant in the specific policy context.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Critically consider a range of factors affecting problem definition and the development of appropriate policy solutions

Identify and respond to ethical, political, social, economic and cultural factors which are significant in a specific policy context

General Assessment Information

Assignment Submission for Short Essay and Policy Analysis

These two written assignments must be submitted using the “Turnitin Assignments” facility on the iLearn website. This facility includes software which scans the uploaded assignments for plagiarism. Follow the instructions on the screen carefully. Your assignment should be uploaded before midnight on the due date.

In all cases, you should ensure that you keep a copy of the assignment.

Return of marked work

Marked assignments will be returned via the same facility on iLearn. When marks are released, you will need to go back in to the assignment submission box, and open your uploaded assignment. When you click on the “GradeMark” button, you will be able to see the marker’s comments on your work. You can save or print the essay with the comments.

Marks and comments for the Short Reflections and Participation components of the assessment will be provided by email.

Extensions

Extensions will only be granted in exceptional circumstances, and will require documentary evidence such as a medical certificate to support the request for an extension. You should contact the convenor as early as possible if you think you may need an extension. While we do understand that most students are engaged in paid employment, extensions cannot be granted on this basis alone.

Penalties for late submission

Assignments which are submitted after the due date, without having an extension granted by the convenor, will be penalised, at a rate of 3% of the mark for each week day after the due date. Any paper submitted more than 3 weeks after the due date will not be marked, and the student

will be failed for the assignment.
