Unit description

In this unit students will consider the central topics of jurisprudence. This involves a rigorous and critical analysis of the nature of law, legal reasoning and judicial decision-making. Debates about the legitimate purpose of the state in redressing socio-economic inequality and whether there is a need for 'rights' are provoked by this analysis. Written and verbal reasoning skills are a focus of development.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

Analyse the issues at stake in debates about the nature of law, legal reasoning and adjudication.

Assess the strengths and weaknesses of different theories about the nature of law, legal reasoning and adjudication.

Critique legal arrangements and institutions from the normative perspective.

Apply knowledge of theoretical debates in jurisprudence in assessing the reasoning in legal cases and answering hypothetical problems.

Communicate using clear and cogent arguments both orally and in writing.

Participate constructively in discussion and other classroom activities in order to understand, analyse and critique central debate in jurisprudence and law from a normative perspective.

General Assessment Information

In the absence of a successful application for special consideration due to a disruption to studies, any assessment task submitted after its published deadline will not be graded and will receive a mark of zero. Applications for a Disruption to Studies are made electronically via ask.mq.edu.au and should be accompanied by supporting documentation. Students should refer to the Disruption to Studies policy for complete details of the policy and a description of the supporting documentation required. Word limits will be strictly applied and work above the word limit will not be marked. All assessments in the unit are to be submitted electronically. Plagiarism detection software is used in this unit.

Detailed marking rubrics will be made available on iLearn. All Fail assignments are double marked.

Assessment Tasks

Name	Weighting	Hurdle	Due

Students should have read all the required readings for each week and be prepared to discuss the seminar questions for that week. Class participation marks will be based on frequency and quality of contribution to discussion; evidence of preparation for the seminars; and performance in specific tasks assigned by the tutor. Mere attendance at tutorials is not sufficient to attract marks.

Internal students are required to attend at least 10 of the seminars. External students are required to attend both days of the on-campus session.

An internal student who attends fewer than 10 seminars or an external student who fails to attend all/part of the on-campus session without a successful application for disruption will have

marks deducted for class participation at the discretion of their convenor.

Applications for disruption should be made through AskMQ (ask.mq.edu.au). They should comply with the disruption to studies policy and procedure, to be found at:
http://students.mq.edu.au/student_admin/manage_your_study_program/disruption_to_studies/
