General Information

Unit convenor and teaching staff

Unit Convenor
Matthew Mansour
matthew.mansour@mq.edu.au

Post Lecture

Lecturer (Week 7-12)
Jason Lee
jason.lee@mq.edu.au

Post Lecture

Credit points
4

Prerequisites
ITEC602 or ITEC660

Corequisites

Co-badged status

Unit description
This unit builds upon the foundations laid by introductory units such as ISYS302 and ISYS360 to provide students with a more thorough understanding of the strategic, infrastructural and socio-technical aspects of project management. At one level, this unit is intended as a training ground for participants who wish to extend their existing ICT project planning and management skills in the more technical aspects of disciplines such as strategic planning, capital budgeting, risk analysis and post-implementation review. At another, we examine the political and organisational context into which this discipline fits, with a view to equipping candidates with the background required to make the transition into a project-sponsorship role.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes

1. Analyse and Develop and an effective business case for IT and business related projects
2. Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects

4. Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

**Project Management Assignment**

Due: **Week 7 (Mon 10th April)**
Weighting: **20%**

**Submission**

The assessment task is to write 2000 word report regarding the importance of strategically managing multiple projects for one organisation. You will use scholarly references that will address the issue(s) Refer to ilearn for the details of the assessment

**Extension**

No extensions will be granted. Late tasks will be accepted up to 72* hours after the submission deadline. There will be a deduction of 20%* of the available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission - 40% penalty). *This penalty does not apply for cases in which a disruption of studies is made and approved.

**What is required to complete the unit satisfactorily**

Satisfactory completion of all assessment tasks.

This Assessment Task relates to the following Learning Outcomes:

- Analyse and Develop and an effective business case for IT and business related projects
Big Data & Project Management

Due: **Week 11 (Tues 23rd May)**
Weighting: **22%**

**Submission**

We live in a world where companies are seeing value in data that we may of in the past not considered to be important. You will explore the notion of how do companies tap into the use of Big Data and more importantly how is this strategically project managed. NB. This assessment has an option to do this in groups of 3. Consult your lecturer about this. (Refer to ilearn for the details of the assessment)

**Extension**

No extensions will be granted. Late tasks will be accepted up to 72* hours after the submission deadline. There will be a deduction of 20%* of the available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission - 40% penalty). *This penalty does not apply for cases in which a disruption of studies is made and approved.

**What is required to complete the unit satisfactorily**

Satisfactory completion of all assessment tasks.

This Assessment Task relates to the following Learning Outcomes:
- Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
- Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

**Quizzes**

Due: **Varies: Wk 5 & 8 & 11**
Weighting: **18%**
Quizzes
In weeks 5, 8 and 11 there will be a short quiz in the lecture time. Each quiz is worth 6% towards your final grade (i.e. 18% in total). These quizzes will cover important parts of the unit material and, as well as assessing your current level of mastery of it, give you and your lecturer an opportunity to address any problem areas before the final exam. The quizzes will normally not take the whole class and will be followed by that week’s lecture. Please be on time to these classes, as the quiz will be the first thing in the class.

Extension
No extensions will be granted. Students will need to apply for disruption of studies and await the universities decision on what the student will do.

What is required to complete the unit satisfactorily
Satisfactory completion of all quizzes

This Assessment Task relates to the following Learning Outcomes:
- Analyse and Develop and an effective business case for IT and business related projects

Final Written Exam
Due: Examination Period
Weighting: 40%

Examination conditions
Three (3) hour exam plus 10 minutes reading time.

What is required to complete the unit satisfactorily
Satisfactory performance in all assessment components including the final exam.

Supplementary Exams
If you apply for Disruption to Study for your final examination, you must make yourself available for the week of July 24 – 28, 2017. If you are not available at that time, there is no guarantee an additional examination time will be offered. Specific examination dates and times will be determined at a later date.

This Assessment Task relates to the following Learning Outcomes:
- Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
• Apply Portfolio Management concepts in the context of IT strategic management a. Selecting an IT portfolio b. Managing portfolio risk c. Managing the IT portfolio d. Identifying and managing benefits and financial metrics of business value

Delivery and Resources

Classes

Each week you should attend a two-hour seminar/lecture. In addition to this we have non compulsory practical labs booked for you to use for research for individual and group assessments. For details of days, times and rooms consult the timetables webpage.

Technology to be used and required

We will be using the Computing Lab to give you access to Project Management Software. You will also be able to download your own copy for your PC, Laptop or Mac. It won’t run on an Ipad. Details of the software will be available in lectures.

Students will need to be able to access ilearn and to download materials from it for class. Students are required to ensure that they either bring hardcopies of all specified materials to class or ensure that they can access and use electronic copies of documents and readings in class. For this an iPad, tablet or laptop (Mac or PC) is highly recommended.

The textbook is available as an ebook and also a hard copy text. (Details are below):

Resources to assist your learning

Textbook

The textbook(s) for ITEC844 used this semester is:

**Project Management: Achieving Competitive Advantage, Global Edition (4e)**

**ISBN: 9781292094793 Publisher: Pearson**

Unit material

Material for the unit can be found on ilearn.

News Forum

Your lecturers will post regular reminders in regards to assessments and/or anything that is happening in the week. It is your responsibility to keep up to date with everything with the unit.

Semester Break
### Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](http://mq.edu.au/policy/docs). Students should be aware of the following policies in particular with regard to Learning and Teaching:

In addition, a number of other policies can be found in the [Learning and Teaching Category](http://policy.mq.edu.au) of Policy Central.

### Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct:  [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)
Results

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

Assessment policy (Including Extensions and Re-submissions)

If you cannot complete a piece of work please see the convenor before the due date.

Late assignments (without prior consent), will attract a 10% per day (24 hours) penalty. Students who anticipate that they will not be able to submit an assignment on time due to illness or other life issue, such as work commitments or family crisis, must request an extension at least 24 hours prior to the due date for the assignment and provide substantiating evidence of the reason for the delay. No extensions will be granted without these conditions being met. Check also the special consideration policy.

Students who fail to grasp the point of an assignment but have demonstrated significant effort and genuine willingness to learn, may in special circumstances be granted the opportunity to resubmit an assignment in order to obtain a pass mark. Students resubmitting will not be able to score higher than a pass for the resubmitted assignment. This is entirely at the discretion of the Convenor and will only be granted in exceptional circumstances.

Conditions for Passing the Subject

Participation and attendance, including peer review, are key elements of assessment and students must perform satisfactorily in all assessment items including in participation, attendance and peer review to pass the subject.

Submission Method for Assessment Tasks

All assignments should be handed in via the online system at https://ilearn.mq.edu.au/login/MQ/ by the time specified in the assignment description.

All work submitted should be readable and well presented.

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

**Learning outcomes**

- Analyse and Develop an effective business case for IT and business related projects
- Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
- Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

**Assessment tasks**

- Project Management Assignment
- Big Data & Project Management
- Quizzes
- Final Written Exam
PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

**Learning outcomes**

- Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
- Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

**Assessment tasks**

- Project Management Assignment
- Big Data & Project Management
- Quizzes
- Final Written Exam

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

**Learning outcomes**

- Analyse and Develop and an effective business case for IT and business related projects
- Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
• Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

Assessment tasks

• Project Management Assignment
• Big Data & Project Management
• Final Written Exam

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcomes

• Analyse and Develop and an effective business case for IT and business related projects
• Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
• Apply Portfolio Management concepts in the context of IT strategic management a. Selecting an IT portfolio b. Managing portfolio risk c. Managing the IT portfolio d. Identifying and managing benefits and financial metrics of business value
• Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues

This graduate capability is supported by:

Learning outcome

• Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics
PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

**Learning outcomes**

- Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
- Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

**Assessment tasks**

- Big Data & Project Management
- Quizzes
- Final Written Exam

**Changes from Previous Offering**

The unit had an overhaul in 2016 and this was thanks to the feedback of students pre 2016. The unit has had great success with its current format.

**Standards and Grading**

Grading Standards

Unlike many units, ITEC844 covers a wide range of areas, but at limited depth. Therefore it is not appropriate to identify core knowledge and assess the students' mastery of that at increasing levels of complexity. Instead, the assessment of learning outcomes is based in large part on the amount of knowledge the student gains across the range of the unit, as assessed by performance in the (Individual and Group) assignments, quizzes and final examination.

IT Project Leadership

Able to understand the principles of IT leadership in the evaluation of all aspects of IT portfolio of projects.

Apply the principles of IT leadership in the evaluation of all aspects of IT portfolio of projects.

Demonstrate IT analytical skills in evaluation of all aspects of IT portfolio of projects in real world scenarios.

Demonstrate IT leadership and creative thinking in the analysis and evaluation of all aspects of IT portfolio of projects in real world scenarios.

Your final grade will depend on your performance in each part of the assessment of the unit. In particular, to obtain a grade of Pass (P) or higher in this unit you will of satisfied the following:

- obtain an overall mark of at least 50% (calculated according to the weightings given above).

Obtaining a higher grade than a Pass (P) in this unit will require a student to obtain (in addition to the above):

- the required total number of marks (Credit - 65, Distinction - 75, High Distinction - 85).

- The following minimal results in both the practical and final exam for grades higher than a pass:
  - 60% in the quizzes overall.
  - 60% in the final exam
