Unit description

This is a student-initiated project-based unit. Students propose a feasible performance project, which can take any form they wish, including: dance, music, theatre, film, interactive technology, mixed media, producing, writing, research. Students write a proposal and progress reports as well as an analysis of an industry case study. A final written report accompanies the project artefact. The completed work can be a performance, a showing, a verbal demonstration, a reading from a written project, an installation, an interactive experience, a film, a video, a game, an exhibition – the format possibilities are endless and decided by the student. Assessment is based in realisation of the goals stated in the proposal. Regular seminars and consultation are structured into the unit to assist and support students. This is the student's chance to determine what they want to produce.
