Students will complete a 12 day clinical placement—one day per week for 12 weeks—in either a paediatric or an adult setting. Students will observe and then gain hands-on clinical experience with speech pathology caseloads. They will be required to identify various aspects of the CBOS (2011) that they observe throughout their placement, and actively participate in clinical assessment and intervention, whilst adopting an ethical and professional attitude to clinical practice. Students will be assessed using the COMPASS competency-based assessment tool.

On successful completion you will be able to:
