Unit description

By working on a business-based group project, this capstone unit is designed to provide students with the opportunity to extend, but most importantly to apply, the knowledge and skills that they have gained throughout their Bachelor of Business Leadership and Commerce degree. The aim of the project is to provide a solution to a problem set by an industry partner, such as a not-for-profit organisation, government agency or for-profit organisation, and to present the solution to an organisation representative at the end of the session. It is expected that students will liaise with the industry partner throughout the session to ensure they are working effectively towards the end goal. Students will gain an insight into organisations and be able to contextualise their graduate capabilities in the final business project. Students will be assessed on a reflective journal, and on both the written and oral components of their reports.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>
