Unit description

The objective of this unit is to explore the theory and application of corporate finance issues at an advanced level, and to equip students with the required depth of knowledge and skill expected of a professional. Following a brief revision of basic financial concepts covered in earlier finance courses, the unit investigates the more complicated theoretical issues and analytical techniques in corporate finance. In particular, a critical approach is adopted which involves identifying the assumptions and limitations of these techniques when applied to the real world. Students are encouraged to understand that often the best method is a matter of debate, and that they must choose a method from a group of methods all of which have various limitations. This critical approach is reinforced by examining a number of real life corporate finance projects.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- To apply investment and financing concepts to business decisions
- To evaluate cost of capital, project risks and the financial viability of projects
- To evaluate the effect of capital structure on value of firms and projects.
- To apply options methodology to value business opportunities and firms.
- To apply teamwork skills to attain effective and professional group outcomes

General Assessment Information

Grading Policy: assessment in this unit is informed by the MQ Grading Policy.

Feedback Prior Census Date: A self-assessment online quiz will be released in Week 3 for feedback prior to the census date. The quiz outcome does not form part of the course marks but is as an indicator of whether you are progressing satisfactorily in the unit. If you are having difficulties, please see the Unit Convenor and consider withdrawing before the census date.

Assessment Criteria: Assessment criteria for all assessment tasks will be provided on the unit iLearn site.

Rubric: the *Presentations* will be assessed against criterion and performance standards set out in a marking *Rubric*, which will be provided to students on the iLearn..

Disruption to Study: if your disruption to study is deemed 'Serious and Unavoidable', and thus meets the criteria for Special Consideration set out in the Disruption to Studies Policy, you will receive an additional opportunity to demonstrate that you have met the learning outcomes for this assessment task. Otherwise, there will be no provision of an additional assessment task. For information, including results of disruption e.g. preparation affected' or 'examination performance affected', please refer to the Disruption to Studies Policy Outcomes and Supporting Evidence.

Viewing Within Session Assessment Task Marks: it is the responsibility of students to view their marks for each within session assessment on iLearn within 20 working days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment marks (not including the final exam mark) will not be addressed.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Assessed Coursework</u>	5%	No	Random weeks
<u>Presentation</u>	15%	No	Allocated week

Name	Weighting	Hurdle	Due
<u>Class Test</u>	20%	No	Week 7
<u>Final Exam</u>	60%	No	See Exam Timetable

Assessed Coursework

Due: **Random weeks**

Weighting: **5%**

Each collection is worth a maximum of 2.5%. There will be two random collections during the semester. To get full marks students need to add some insight to the standard solution. Students who copy the text-book solution word for word will receive 0 marks.

No extensions will be granted. Students who have not submitted the task prior to the deadline will be awarded a mark of 0 for the task, except for cases in which an application for Disruption to Studies is made and approved

On successful completion you will be able to:

- To apply investment and financing concepts to business decisions
- To evaluate cost of capital, project risks and the financial viability of projects
- To evaluate the effect of capital structure on value of firms and projects.
- To apply options methodology to value business opportunities and firms.

Presentation

Due: **Allocated week**

Weighting: **15%**

Students will be formed into groups. Each group will be allocated a topic on a key concept or an application of finance. The group will research the topic, prepare a report and present it to the class in 20 minutes (including 5 minutes for discussions) in their allocated week. The report will be a combination of notes and presentation slides. It will be submitted through Turnitin and a hard-copy will be handed-in to the lecturer in the allocated week. The presentation will be graded based on content and delivery: depth of research, relevance of contents to the topic, organisation of ideas and students' ability to give the audience insights - to engage, inspire, persuade, and energise the audience. Every student must participate in the group presentations and report so that individual student contribution to the group presentations and report can be identified. Each member of a group will be required to complete an assessment of the contributions of individual members.

No extensions will be granted. Students who have not submitted the task prior to the deadline will be awarded a mark of 0 for the task, except for cases in which an application for Disruption to Studies is made and approved.

On successful completion you will be able to:

- To apply investment and financing concepts to business decisions
- To evaluate cost of capital, project risks and the financial viability of projects
- To evaluate the effect of capital structure on value of firms and projects.
- To apply options methodology to value business opportunities and firms.
- To apply teamwork skills to attain effective and professional group outcomes

Class Test

Due: **Week 7**

Weighting: **20%**

The 65-minute "closed book" in-class test will be conducted in the week 7 class. Please present yourself at the enrolled time and place of your lecture. The test will contain both theoretical and calculation questions. A formula sheet will be provided with the test paper. If you are unable to attend the test and your Disruption to Studies request is approved, a supplementary assessment task will be offered. The supplementary assessment task may involve a verbal or written component, or both.

On successful completion you will be able to:

- To apply investment and financing concepts to business decisions
- To evaluate cost of capital, project risks and the financial viability of projects

Final Exam

Due: **See Exam Timetable**

Weighting: **60%**

The content of the "closed book" final exam will give greater weight to topics covered later in the course (that is, topics not covered by the class test). Total time available will be 120 minutes plus 10 minutes of 'reading' time. Students will be permitted one '*Reference Sheet*' in the examination room comprising ONE A4 page of paper containing reference material printed on both sides. The material may be handwritten and/or typed. The page will not be returned to students at the end of the final examination. No separate formula sheet will be provided.

Students who are unable to attend the exam and who have a Disruption to Studies application approved, will be granted the opportunity to sit a Supplementary Exam.

In addition, make sure to read the current Final Examination Policy and Final Examination Procedure.

On successful completion you will be able to:

- To apply investment and financing concepts to business decisions
- To evaluate cost of capital, project risks and the financial viability of projects
- To evaluate the effect of capital structure on value of firms and projects.
- To apply options methodology to value business opportunities and firms.

Delivery and Resources

CLASSES

The Unit involves 3 hours face-to-face teaching per week consisting of a 3 hour seminar. There will be thirteen lectures. The timetable for classes can be found on the University website at:

LEARNING AND TEACHING ACTIVITIES

This is meant to be a 2nd unit in corporate finance. Most students will have completed an introductory financial management / corporate finance unit. As a more advanced unit, some of the topics covered will be familiar to students but we will be covering them at a more in - depth level. Some other topics will be completely new. As in the introductory unit, students need to work through the quantitative and other problems which are selected each week from the text. However, an important objective of this unit is to make the student aware of the limitations of financial theory and of the assumptions made in making finance and investment decisions.

TECHNOLOGY USED AND REQUIRED

The Text book provides access to various on-line resources. Further, a number of the class exercises are designed to be completed using excel. Students are encouraged to use excel when attempting these exercises.

CHANGES TO THE UNIT SINCE LAST SEMESTER

There are no major changes to the topics or text.

Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- To apply investment and financing concepts to business decisions
- To evaluate cost of capital, project risks and the financial viability of projects
- To evaluate the effect of capital structure on value of firms and projects.
- To apply options methodology to value business opportunities and firms.
- To apply teamwork skills to attain effective and professional group outcomes

Assessment tasks

- Assessed Coursework
- Presentation

- Class Test
- Final Exam

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- To apply investment and financing concepts to business decisions
- To evaluate cost of capital, project risks and the financial viability of projects
- To evaluate the effect of capital structure on value of firms and projects.
- To apply options methodology to value business opportunities and firms.
- To apply teamwork skills to attain effective and professional group outcomes

Assessment tasks

- Assessed Coursework
- Presentation
- Class Test
- Final Exam

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcome

- To apply teamwork skills to attain effective and professional group outcomes

Assessment task

- Presentation

Research and Practice

Research and Practice

- This unit uses research from external sources (references)
- This unit gives you practice in applying research findings in your assessments.

There is a close relationship between theory and practice in corporate finance. Every day the media is filled with events relevant to corporate finance. Students should constantly be looking for examples of the theory from a topic, as reflected in a media story.
