Unit description

This unit will examine the factors that influence marketing strategy in an international setting. Students undertake comprehensive research and analysis of academic articles and apply concepts such as globalisation and anti-globalisation; international economic environments; social and cultural elements of market environments; political-legal environments; international marketing intelligence; market entry; and international product, distribution, pricing and promotional strategies and tactics, to a comprehensive international marketing plan.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Evaluate macro and micro environmental factors in the development of a professional international marketing plan

Critically formulate and evaluate international marketing strategies and tactics incorporating sustainability considerations

Identify contemporary challenges facing international business and analyse the need for ethical behaviour

Collaborate with others effectively, including in teams and in culturally or linguistically diverse contexts

General Assessment Information

Please refer regularly (at least once or twice every week) to the relevant Weekly Schedule on iLearn for a detailed description of assessments tasks.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>International Marketing Plan</u>	30%	No	Week 12
<u>IMP and Reflective Tasks</u>	30%	No	Weeks 2 - 11 inclusive
<u>Lecture Topic Summary</u>	40%	No	Weeks 2 - 11 inclusive

International Marketing Plan

Due: **Week 12**

Weighting: **30%**

Beginning at Week 2, students will start work on various components of their international marketing plan throughout session. Weekly topics will be handed out in class. Please note that this is an individually assessed assignment and that each student is responsible for developing their own, independent International Marketing Plan (IMP). Under no circumstances should Team members share the same information when developing their individual IMP as Turnitin will pick up any shared information and as a consequence, marks will be deducted from all reports sharing the same information.

The final **individually** researched, analysed and written product (i.e. international marketing plan) is due no later than 5 pm Thursday 1 June 2017. All marketing plans must be submitted to the Turnitin link on iLearn.

Penalties:

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for disruption of studies is made and approved. No submission will be accepted after solutions have been posted.

On successful completion you will be able to:

- Evaluate macro and micro environmental factors in the development of a professional international marketing plan
- Critically formulate and evaluate international marketing strategies and tactics

incorporating sustainability considerations

- Identify contemporary challenges facing international business and analyse the need for ethical behaviour

IMP and Reflective Tasks

Due: **Weeks 2 - 11 inclusive**

Weighting: **30%**

The Team work component of the IMP will involve the development of weekly Reflective documents which need to be submitted each week to the appropriate Assessment link on Turnitin within 4 days of the end of class on Thursdays (i.e. they must be submitted no later than 9 am Monday of the following week).

During class time in Weeks 2 - 11, students will work in Teams of four (4) to five (5) to brainstorm, discuss, analyse and make recommendations on the weekly component of the marketing plan. Each student will then utilise the outcomes of this group time to work on that section of their individual marketing plan, outside of class (please refer to details of the individual IMP above).

During class, each Team will be given 30 - 40 minutes to discuss and write a couple of pages about their collective reflections of working in Teams based on the four components of the marking rubric (guidance will be provided by the lecturer at the start of session). The reflections must be based on the dynamics involved when working in Teams. Each of the four components based on Team Learning Outcomes in the rubric, must be addressed and supported by the academic literature, in your written submission.

Penalties

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for disruption of studies is made and approved. No submission will be accepted after solutions have been posted.

On successful completion you will be able to:

- Evaluate macro and micro environmental factors in the development of a professional international marketing plan
- Critically formulate and evaluate international marketing strategies and tactics incorporating sustainability considerations
- Identify contemporary challenges facing international business and analyse the need for ethical behaviour
- Collaborate with others effectively, including in teams and in culturally or linguistically diverse contexts

Lecture Topic Summary

Due: **Weeks 2 - 11 inclusive**

Weighting: **40%**

Students will be allocated to one lecture topic at the beginning of session and will be required to work in Teams (size of Teams dependant on the number of students) on that topic. Each team is to conduct in-depth research on the designated lecture topic and team-teach and present to the rest of the class during the week when that lecture topic is due. Each lecture topic presentation is expected to be interactive with the rest of the class and should be of 20 - 30 minutes duration. The lecture topic must be supported by at least five academic journal articles per student.

Each team will be required to submit a written document to the appropriate link under the Assessments on iLearn the week of the presentation. The report should include an in-depth summary of the lecture topic, an explanation about the sources you used to learn about this topic and an evaluation of those sources.

Please note that this assessment has two parts:

Individually assessed 'team teach' class presentation: 20%

Team written and submitted document: 20%

Although the written component is a team assessment, each team member must include their name next to the heading of the section they have developed. In addition, each team member must list all sources they have referenced in the body of the Lecture Topic report, in the References list in alphabetical order, under each student's name and SID. DO NOT merely include the student name and SID at the end of each reference. The References section must clearly display each student's name and SID with all references obtained by that student, underneath. Then the next student's name and SID, etc.

Please note that where there is disparity in the number and quality of academic articles in terms of research and analysis between students in the team, different marks will be allocated. To that end, whilst the team should ensure that the Lecture Topic Summary flows logically, NO team member is expected to carry any of the other team members by doing any of their work for them.

Please refer to the marking rubric for this assessment on iLearn, for guidance.

Penalties

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for disruption of studies is made and approved. No submission will be accepted after solutions have been posted.

On successful completion you will be able to:

- Evaluate macro and micro environmental factors in the development of a professional international marketing plan

- Critically formulate and evaluate international marketing strategies and tactics incorporating sustainability considerations
- Identify contemporary challenges facing international business and analyse the need for ethical behaviour
- Collaborate with others effectively, including in teams and in culturally or linguistically diverse contexts

Delivery and Resources

TEXTBOOK

Below is the link where students can purchase the required **Kotabe et al International Marketing 4th Asia Pacific Edition** textbook directly from the Wiley Direct website. The e-text is \$55 and the print text is available for 20% discount off the RRP and free delivery to anywhere in Australia.

You can also purchase this textbook from the Co-op bookshop on campus.

CLASSES

This unit is run as a seminar. There will be weekly short lectures on each week's topic/s summaries delivered by the Unit Convenor. Team work in class is an important focus. This Unit will also incorporate interactive learning activities.

The timetable for classes can be found on the University web site at: <http://www.timetables.mq.edu.au/>

ABSENCE IN LECTURES AND TUTORIALS

Attendance will be taken in the seminar. You should strive to attend each class. You must submit a Disruption to Studies if you are unable to attend a class, without incurring a penalty.

If you have a recurring problem that makes you late, or forces you to leave early, have the courtesy to discuss this with your lecturer, as this will not normally be allowed as it interrupts the class.

Mobile phones must be turned OFF and not simply set to SILENT during class. To satisfactorily complete this unit students must participate in class discussions and complete all assessment tasks.

TECHNOLOGY USED AND REQUIRED

No recording devices are to be used by students to record lecture notes without the permission of the lecturer.

The web page for this unit can be found at: iLearn <http://ilearn.mq.edu.au>

REQUIRED UNIT MATERIALS AND/OR RECOMMENDED READING

In addition to the prescribed textbook, the unit is developed on current research and practice in

International marketing.

Changes from Previous Offering

Same structure as previous session, with the only minor change being the Lecture Topic Summary, in which the written component is now submitted as a Team assessment and the presentation component is assessed on an individual basis.

Global issues, Sustainability and Social Responsibility

Lectures and assessments will incorporate global issues, sustainability and social responsibility.

Research and Practice; Global and Sustainability

This unit draws on extensive research. Conducting research independently both individually and as a team, is essential in order to successfully pass this Unit.

Issues of sustainability are integrated in the lectures and in the marketing plan.

International marketing creates students' awareness of marketing in an international context. This includes the many diversified aspects, including contemporary challenges facing businesses, that need to be considered when marketing internationally.
