### Unit description

This unit focuses on special topics concerned with issues in both financial and management accounting in international contexts. Topics range from ethical behaviour in accounting, external and corporate reporting, organising, managing and evaluating global operations focusing on the impact of national culture and how an understanding of cultural differences provides insights into cross-national differences in accounting behaviour and practice. Topics are chosen to encourage students to explore issues in international accounting, and to develop skills in analysis and investigation that are necessary and that are required to undertake more advanced research. A sound understanding of cultural influences on international accounting practices is a requirement for any advanced study of accounting theory. This unit provides students with essential internationally contextualised accounting experiences that develop the concepts and skills necessary for advanced research in accounting and corporate governance.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

Recognise the cultural, economic, political and historical factors that help explain differences and similarities in patterns of accounting and regulation across nations, and how these factors may influence the move towards international harmonization.

Identify why ethical behaviour is fundamental to the practice of accounting and critically apply moral theories and ethical frameworks to resolve real-world ethical issues confronting accountants.

Demonstrate research skills to articulate well-reasoned solutions to problems facing international companies in organizing, managing, planning, controlling and evaluating, their global operations.

Apply commonly used statistical techniques for data collection and analysis, including hypothesis testing and interpreting the results of data analysis.

Critically explore and evaluate the state of contemporary and professional research in the area of International Accounting.

## General Assessment Information

### Turnitin

All text based assessments must be submitted through Turnitin as per instructions provided in the unit guide. It is the student's responsibility to ensure that work is submitted correctly prior to the due date.

Multiple submissions may be possible prior to the final due date and time of an assessment task and originality reports may be made available to students to view and check their work. All identified matching text will be reconsidered carefully. Students should note that the system will not immediately produce the similarity score on a second or subsequent submission - it approximately takes 24 hours for the report to be generated. This may be after the due date so students should plan any resubmissions carefully. Please refer to these instructions on how to submit your assignment through Turnitin and access similarity reports and feedback provided by teaching staff. Should you have questions about Turnitin or experience issues submitting through the system, you must inform your unit coordinator immediately. If the issue is technical in nature may also lodge OneHelp Ticket, refer to the IT help page.

It is the responsibility of the student to retain a copy of any work submitted. Students must produce these documents upon request. Copies should be retained until the end of the grade appeal period each term. In the event that a student is asked to produce another copy of work

submitted and is unable to do so, they may be awarded zero (0) for that particular assessment task.

## Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Class Test</u>	15%	No	Week 7
<u>Research Report</u>	25%	No	Weeks 9-12
<u>Final Examination</u>	60%	No	University Examination Period

### Class Test

Due: **Week 7**

Weighting: **15%**

During Week 7 (covering Weeks 1-6) a short test will be conducted during class time and handed up on paper copies. The test will account for 15% of your overall assessment. The test will gauge students ability to critically evaluate the issues covered in the relevant topics, case studies and associated readings.

**Submission:** Attendance is compulsory.

**Extension:** No extension will be granted unless an application is approved under the Disruption to Studies Policy in accordance with the University rules.

**Penalties:** Zero mark for non-submission.

On successful completion you will be able to:

- Recognise the cultural, economic, political and historical factors that help explain differences and similarities in patterns of accounting and regulation across nations, and how these factors may influence the move towards international harmonization.
- Identify why ethical behaviour is fundamental to the practice of accounting and critically apply moral theories and ethical frameworks to resolve real-world ethical issues confronting accountants.
- Demonstrate research skills to articulate well-reasoned solutions to problems facing international companies in organizing, managing, planning, controlling and evaluating, their global operations.
- Apply commonly used statistical techniques for data collection and analysis, including hypothesis testing and interpreting the results of data analysis.
- Critically explore and evaluate the state of contemporary and professional research in the area of International Accounting.

## Research Report

Due: **Weeks 9-12**

Weighting: **25%**

Students will present an individual Research report. Each student presents a different research topic (there are 12 topics). The research topics are designed to effectively enhance research skills and help students learn to synthesize, analyse and interpret information using appropriate disciplinary content and methodology. Further details are provided on iLearn.

**Submission:** Soft copy of the report to be submitted on iLearn (Turnitin) and hard copy of the report to be submitted in class during the respective week.

**Extension:** No extensions will be granted.

**Penalties:** There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for disruption of studies is made and approved. See iLearn for further penalties regarding plagiarism.

On successful completion you will be able to:

- Recognise the cultural, economic, political and historical factors that help explain differences and similarities in patterns of accounting and regulation across nations, and how these factors may influence the move towards international harmonization.
- Demonstrate research skills to articulate well-reasoned solutions to problems facing international companies in organizing, managing, planning, controlling and evaluating, their global operations.
- Apply commonly used statistical techniques for data collection and analysis, including hypothesis testing and interpreting the results of data analysis.
- Critically explore and evaluate the state of contemporary and professional research in the area of International Accounting.

## Final Examination

Due: **University Examination Period**

Weighting: **60%**

The final exam is of three hours and ten minutes duration. The final exam is designed to test you against the learning objectives of the unit. Students in ACCG735 for 2018 will be required to do a final exam that tests them on all the material covered during the session. The University Examination period in the First Half Year 2018 is from 12 June to 29 June.

**Submission:** Attendance is compulsory

**Extension:** The only exception to not sitting an examination at the designated time is because of

documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Disruption to Studies in accordance with the University rules.

**Penalties:** Students who miss this exam will score zero marks. If a Supplementary Examination is granted as a result of the Disruption to Studies Policy the examination will be scheduled after the conclusion of the official examination period.

To pass the unit students must achieve an **overall passing grade** in their overall assessment as per the University policy.

If a Supplementary Examination is granted as a result of the Disruption to Studies Policy the examination will be scheduled as per the Supplementary Examination timetable of the Faculty. Please note that the supplementary examination will be of the similar format as the final examination.

On successful completion you will be able to:

- Recognise the cultural, economic, political and historical factors that help explain differences and similarities in patterns of accounting and regulation across nations, and how these factors may influence the move towards international harmonization.
- Identify why ethical behaviour is fundamental to the practice of accounting and critically apply moral theories and ethical frameworks to resolve real-world ethical issues confronting accountants.
- Demonstrate research skills to articulate well-reasoned solutions to problems facing international companies in organizing, managing, planning, controlling and evaluating, their global operations.
- Apply commonly used statistical techniques for data collection and analysis, including hypothesis testing and interpreting the results of data analysis.
- Critically explore and evaluate the state of contemporary and professional research in the area of International Accounting.

## Graduate Capabilities

### PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

### Learning outcomes

- Identify why ethical behaviour is fundamental to the practice of accounting and critically apply moral theories and ethical frameworks to resolve real-world ethical issues confronting accountants.
- Demonstrate research skills to articulate well-reasoned solutions to problems facing international companies in organizing, managing, planning, controlling and evaluating,

their global operations.

- Critically explore and evaluate the state of contemporary and professional research in the area of International Accounting.

## **Assessment tasks**

- Class Test
- Research Report
- Final Examination

## **PG - Critical, Analytical and Integrative Thinking**

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

## **Learning outcomes**

- Recognise the cultural, economic, political and historical factors that help explain differences and similarities in patterns of accounting and regulation across nations, and how these factors may influence the move towards international harmonization.
- Identify why ethical behaviour is fundamental to the practice of accounting and critically apply moral theories and ethical frameworks to resolve real-world ethical issues confronting accountants.
- Demonstrate research skills to articulate well-reasoned solutions to problems facing international companies in organizing, managing, planning, controlling and evaluating, their global operations.
- Apply commonly used statistical techniques for data collection and analysis, including hypothesis testing and interpreting the results of data analysis.
- Critically explore and evaluate the state of contemporary and professional research in the area of International Accounting.

## **Assessment tasks**

- Class Test
- Research Report
- Final Examination

## PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

### Learning outcomes

- Recognise the cultural, economic, political and historical factors that help explain differences and similarities in patterns of accounting and regulation across nations, and how these factors may influence the move towards international harmonization.

### Assessment task

- Research Report

## Research and Practice, Global and Sustainability

This unit gives you opportunities to conduct research both individually and in groups. Further information on the required academic readings and research-based assessments are provided in the Assessment guide.

This unit addresses global and sustainability issues as direct areas of study and as necessary implications arising from the materials, assessment and academic discussion and debate in classes. We promote sustainability by developing ability in students to research and locate information within accounting discipline. We aim to provide students with an opportunity to obtain skills which will benefit them throughout their career.

The unit materials have a reference list at the end of each chapter/module/text containing all references cited by the author. These provide some guidance to references that could be used to research particular issues.
