Unit description

This unit provides students with an opportunity to develop and demonstrate advanced research skills through a series of seminar presentations and supervised research, leading to the submission of an 8,000-word thesis. Students formulate their own research question or argument in any area of legal scholarship or regulation. The thesis must be presented and defended within the broader conditions of its relevance, for example: social, historical, philosophical, economic or environmental contexts. Applications to undertake LAWS561 in Session 1 or Session 2 will close in the last week of January. No late applications can be accepted. As part of the application process students are required to submit an Expression of Interest Form and have confirmation that a member of staff in the Macquarie Law School is willing to act as their supervisor. The Form will be sent to students in December.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Choose a research question appropriate for undergraduate legal research and identify the aims of the research.

Come up with an appropriate title for your research.

Demonstrate understanding of the background of the research topic; the existing research on the topic and the significance of your research to the existing research.

Identify appropriate legal research methodologies for the research and be able to give reasons why that methodology/ies have been used.

Work with a supervisor to establish a research plan and time frame for completion.

Summarise the main aspects of the research in a written research proposal in language that is accessible to a non-expert reader.

Be able to articulate aspects of the research to the unit convenor and students in class using speech that is easy to understand.

Work independently to produce a research essay that is sophisticated and original and is written in language that is accessible to a non-expert reader.

Use the AGLC style guide correctly (adapting it where appropriate).

General Assessment Information

Special Consideration

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

Submission

All written assessments in the unit are to be submitted electronically by way of Turnitin on the iLearn page. Plagiarism detection software is used in this unit.

Word Limits

Word limits will be strictly applied and work above the word limit will not be assessed.

Moderation

Marking for each final research paper is shared between the convenor and supervisor. Detailed marking rubrics will be made available on iLearn. If there are other markers assisting the convenor then a process of 'blind marking' to establish a common marking standard will be

adopted and all Fail papers will be double marked.

Style

All written assessments should use the latest edition of the AGLC.
