Unit description

This unit provides extended formal academic support to students concurrently enrolled in the Assurance Services and Auditing unit of the CPA program. The overall objective of this segment is to provide a body of knowledge to help students appreciate the nature and diversity of auditing and assurance services. It presents an overview of the auditing process and examines the objectives of the audit and the environment within which an auditor operates.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Apply the assurance framework in financial report audit, review and assurance engagements

Describe the professional, legislative and regulatory requirements for audit, review and assurance engagements

Analyse and illustrate the complete audit process

Apply relevant standards to the assessment of fraud and going concern in financial statement audits

Understand the implications of new assurance services for professional competencies and independence.

General Assessment Information

Students are expected to spend 150 hours working on this unit. As a guide a student should spend these approximate amounts of time on each of the following activities:

	Activities	Hours
1	Weekly Seminars	39
2	Class Test 1	10
3	Class Test 2	30
5	Reflection Journal	11
6	Readings and Self Study	60
	Total	150

Turnitin

All applicable text based assessments (Reflection Journal) must be submitted through Turnitin as per instructions provided in the unit guide and unit assessment guide. It is the student's responsibility to ensure that work is submitted correctly prior to the due date. No hard copies of assessments will be accepted and only Turnitin records will be taken as records of submission.

Multiple submissions are possible via Turnitin prior to the final due date and time of an assessment task and originality reports may be made available to students to view and check their work. All identified matching text will be reconsidered carefully. Students should note that the system will not immediately produce the similarity score on a second or subsequent submission - it takes approximately 24 hours for the report to be generated. This may be after the due date so students should plan any resubmissions carefully. Please refer to instructions on how to submit your assignment through Turnitin and access similarity reports and feedback provided by teaching staff and available [here](#). Should you have questions about Turnitin or experience issues submitting through the system, you must inform the unit convenor by email. If the issue is technical in nature may also lodge OneHelp Ticket, refer to the [IT help page](#).

It is the responsibility of the student to retain a copy of any work submitted. Students must produce these documents upon request. Copies should be retained until the end of the grade appeal period each term. In the event that a student is asked to produce another copy of work submitted and is unable to do so, they may be awarded zero (0) for that particular assessment task.

Assessment Tasks

Name	Weighting	Hurdle	Due
1. Class Test 1	10%	No	Thursday 16 August
2. Class Test 2	40%	No	Thursday 20 September

Delivery and Resources

Classes

Classes meet weekly for a 3 hour seminar on **Thursdays 3pm-6pm, 14 Sir Christopher Ondaatje Ave (14SCO/E7B) room 263.**

Plus two additional seminars from 10am to 1pm on Saturday 11 August in 14 Sir Christopher Ondaatje Ave (14SCO/E7B) room 163 (Learning Space) and 15 September from 10am to 1pm in 14 Sir Christopher Ondaatje Ave (14SCO/E7B) room 264 as per Unit Schedule.

Class attendance is mandatory.

Note: There is no mid-semester break for this unit.

The timetable for classes can be found on the University web site at:
<http://www.timetables.mq.edu.au/>

Required and Recommended Texts and/or Materials

All students should have the following:

CPA Program: *CPA 101 Assurance Services and Auditing*, 2018.

All auditing standards can be accessed via the website www.auasb.gov.au

Other References

Students will be required to use library resources to research beyond these materials in undertaking research necessary to complete their tasks. The CPA 101 course materials have a reference list at the end of each module containing all references cited by the author. These provide some guidance to references that could be used to research particular issues.

Technology Used and Required

Students are expected to have:

Proficiency in Word, Excel and PowerPoint

Knowledge of Macquarie University's on line system –for downloading lecture materials, etc

Knowledge of the library research databases – for accessing additional research material.

Unit Web Page

Course material is available on the learning management system

The web page for this unit can be found at:

<http://mq.edu.au/iLearn/index.htm>

Teaching and Learning Activities

The normal format for each 3 hour seminar class will be as follows:

(a) non-assessable revision quiz

(b) brief lecture / interactive discussion

(c) review of pre-assigned practice questions

a) Non assessable quiz - each week you will be given approximately 5 multiple choice questions covering the module material from the prior week. Students will be expected to justify their answers to the questions.

b) Brief lecture / interactive discussion – each week, the lecturer will lead discussion covering the key points of the relevant module. The format and approach for this session will vary but may include a question and answer session where students will be asked to participate. This will require students to have **pre-read** the module material.

c) Preparation and review of practice questions – in most weeks, students will be expected to complete, and contribute to discussion concerning, various practice questions. The amount of time spent on these questions and the seminar in which they are completed will be at the discretion of the lecturer and will depend upon the time available each week after reviewing the CPA module material.

It should be noted that, as evidenced by the format outlined above, the purpose of the 3-hour seminar is **NOT** solely to review the CPA module material. In fact, a portion of each seminar will be on the application of the material to case studies and practice questions. Students will be significantly disadvantaged if they expect to use the seminar to examine the CPA module material for the first time. It is expected that students **read and comprehend** the module material **before the seminar**.

Graduate Capabilities

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

- Analyse and illustrate the complete audit process
- Apply relevant standards to the assessment of fraud and going concern in financial statement audits
- Understand the implications of new assurance services for professional competencies and independence.

Assessment tasks

- 1. Class Test 1
- 2. Class Test 2
- 3. Assessed Coursework
- 4. Final Examination

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Apply the assurance framework in financial report audit, review and assurance engagements
- Describe the professional, legislative and regulatory requirements for audit, review and assurance engagements
- Analyse and illustrate the complete audit process
- Apply relevant standards to the assessment of fraud and going concern in financial statement audits

Assessment tasks

- 1. Class Test 1
- 2. Class Test 2
- 3. Assessed Coursework
- 4. Final Examination

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Apply the assurance framework in financial report audit, review and assurance engagements
- Analyse and illustrate the complete audit process
- Apply relevant standards to the assessment of fraud and going concern in financial statement audits
- Understand the implications of new assurance services for professional competencies and independence.

Assessment tasks

- 1. Class Test 1
- 2. Class Test 2
- 3. Assessed Coursework
- 4. Final Examination

Changes from Previous Offering

Due to the CPA timetable, two lectures will be held on **Saturday 11 August and 15 September from 10am to 1pm in venues specified in the Unit Schedule.**

This will ensure all content is adequately covered before the CPA exam period.

Research and Practice, Global Perspectives and Sustainability

This unit gives you opportunities to conduct your own research and gives you practice in applying research findings in your assessment tasks. Students will be required to use library resources to research beyond these materials in undertaking research necessary to complete their tasks. The CPA 101 course materials have a reference list at the end of each module containing all references cited by the author. These provide some guidance to references that could be used to research particular issues.

The unit introduces students to international pronouncements including the international standards for audit, review and assurance engagements, the standard on quality control for audit firms and the code of ethics. Sustainability assurance has become a global issue, for example in the context of carbon emissions reporting. Consideration is given in the unit to the sustainability assurance engagements.
