Unit description

This unit addresses recruitment and selection in organisations. It examines measurement and decision making in HR selection, job analysis techniques, performance prediction, interviewing and psychometric assessment. Students will be able to explain the role of HR measurement and evaluate selection programs in a variety of organisational settings. The unit takes a technical approach and both the scholarly literature and applied practices of specialist topics are examined. Students will develop graduate capabilities in a range of areas including critical analytical thinking, research capability and problem solving.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Understand the role of HR measurement, reliability and validity of selection data in selection decision making.

Demonstrate critical and integrative thinking about processes and decision making in the

design of a recruitment and selection program.

Describe and evaluate appropriate, best practice, sustainable and ethical recruitment and selection processes and decision making.

Demonstrate effective communication in scholarly and applied research about recruitment and selection issues and processes.

Delivery and Resources

Classes

The subject consists of a weekly two hour lecture and a one hour tutorial. The timetable is at: <http://www.timetables.mq.edu.au/> Note: to pass the unit satisfactorily students must attend 80% of all tutorials and achieve at least a 50% combined score on completed assessment tasks. Students must not miss more than two tutorials to meet the attendance requirement for the unit. A log will be taken to record attendance. Medical certificates are required for medical absences and should be given to your tutor.

You must stay in the tutorial to which you were enrolled as a cap is applied on the number of students to each tutorial in order to maximise your learning experience. However, you may change a tutorial, providing the tutorial you wish to change to has a vacancy. The only way you can do this is via e-student within two weeks of the start of semester. Changes cannot be made after

week two.

Students are expected to arrive on time, certainly before five minutes past the hour and not to leave until the class ends.

Mobiles should be turned off during classes, not simply set to silent. Texting or other mobile phone activity during class is distracting to the student, the lecturer and other students and is strictly forbidden. Students violating this requirement will be asked to leave the class.

Required and Recommended Texts and/or Materials

The textbook required for this unit is available for purchase at the University Co-op Bookshop and a limited number are available in the Macquarie University library:

Gatewood, Field, and Barrick (2016). Human Resource Selection. (8th ed.). Boston: Cengage Learning. This is an American textbook selected for the thorough manner in which the technical aspects of selection have been addressed. The text is available at the University Co-Op Bookshop and is also available online. The previous (7th) edition of the text is also useable in this unit, and students will not be penalised for using that edition of the text. Students using the 7th edition are advised to use the lecture name rather than the chapter number when mapping the chapters against the weekly schedule.

E-text information: Students can access the Gatewood & Barrick text via CengageBrain.com which is a single destination for print textbooks, eBook, single eChapters, and study tools. <http://www.cengagebrain.com.au/shop/FAQ.html> has some extra links if students are experiencing compatibility issues. On the left hand panel is a link "Requirement and Capabilities". For technical help with eBooks or your purchase go to <http://www.cengagebrain.com.au/shop/Support.html>. CengageBrain eBooks provide two years of access. While the pricing is below that of the print book, the eBook cannot be on-sold at the end of your studies. The eBook is not able to be copied to another student.

Recommended reading for those interested in less technical side of recruitment:

Technology Used and Required

Unit Web Page

- The online resource (iLearn: <https://ilearn.mq.edu.au>) to accompany this unit is used for student announcements and electronic distribution of materials.
- Students should check the unit website regularly and a minimum of once a week. The slides for each week's lectures will be loaded to the iLearn site.
- Note that the slides presented in the lecture may have been recently updated and not be identical to the slides on iLearn.
- Lectures are recorded for student use through the Echo system and may be accessed through iLearn.

Learning and Teaching Activities

The lecture will generally involve presentation of theoretical material as a basis for more general discussion in the tutorials. Tutorials will focus on practical application of the material, and will emphasize students' own future careers and job searches. Students are expected to have read prescribed reading prior to class and engage in tutorial group discussions.

Unit Schedule

The following schedule is provided as a guide to the semester's lectures and activities, however changes may be made to accommodate guests or for other reasons. Any relevant changes will be advised in lectures and/or on the unit's iLearn page.

Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in *eStudent*. For more information visit ask.mq.edu.au.

Academic Honesty

The nature of scholarly endeavour, dependent as it is on the work of others, binds all members of the University community to abide by the principles of academic honesty. Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- all academic work claimed as original is the work of the author making the claim
- all academic collaborations are acknowledged
- academic work is not falsified in any way
- when the ideas of others are used, these ideas are acknowledged appropriately.

Further information on the academic honesty can be found in the Macquarie University Academic Honesty Policy at http://www.mq.edu.au/policy/docs/academic_honesty/policy.html

Grades

Macquarie University uses the following grades in coursework units of study:

Graduate Capabilities

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcomes

- Understand the role of HR measurement, reliability and validity of selection data in selection decision making.
- Demonstrate critical and integrative thinking about processes and decision making in the design of a recruitment and selection program.
- Describe and evaluate appropriate, best practice, sustainable and ethical recruitment and selection processes and decision making.
- Demonstrate effective communication in scholarly and applied research about recruitment and selection issues and processes.

Assessment tasks

- Recruitment & Selection Report
- Final Examination

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Understand the role of HR measurement, reliability and validity of selection data in selection decision making.
- Demonstrate critical and integrative thinking about processes and decision making in the design of a recruitment and selection program.
- Demonstrate effective communication in scholarly and applied research about recruitment and selection issues and processes.

Assessment tasks

- Individual Essay
- Recruitment & Selection Report
- Final Examination

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and

they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Understand the role of HR measurement, reliability and validity of selection data in selection decision making.
- Demonstrate critical and integrative thinking about processes and decision making in the design of a recruitment and selection program.
- Demonstrate effective communication in scholarly and applied research about recruitment and selection issues and processes.

Assessment tasks

- Individual Essay
- Recruitment & Selection Report
- Final Examination

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcomes

- Describe and evaluate appropriate, best practice, sustainable and ethical recruitment and selection processes and decision making.
- Demonstrate effective communication in scholarly and applied research about recruitment and selection issues and processes.

Assessment tasks

- Recruitment & Selection Report
- Final Examination

Changes from Previous Offering

What has changed from previous offerings of this unit?

Unit changes since last semester have been based on student feedback, pedagogy and movements in the recruitment industry. Specific changes to the unit include the inclusion of the

recruitment and selection report assessment. Guest speakers are changed to reflect updated or current practices.

Teaching delivery has also been adjusted for Good Friday public holiday which falls on a lecture day for this unit this semester. There will be no lectures or tutorials in this week but relevant lecture and/or tutorial content for those weeks will be available online and students will be directed in that self-study.

Global Contexts & Sustainability

The Australian context is used as the base case to illustrate human resources functions in global contexts, and international organisations are used as case studies in many instances. Students are encouraged to share their knowledge of international experiences that may demonstrate consistency or contrast with local practice. Sustainability and sustainable practices are specifically addressed in one lecture on that topic and the convenor's journal paper on sustainable practices in recruitment and selection is used in the unit.

Research and Practice

- This unit includes sustainable recruitment & selection practices as a core element.
- This unit uses research by Macquarie University researcher:
 - Jepsen, D. M., & Grob, S. (2015). Sustainability in Recruitment and Selection: Building a Framework of Practices. *Journal of Education for Sustainable Development*, 9(2), 160-178.
