Unit description

Cemeteries are arguably the most ubiquitous site-types in the archaeological record, providing the greatest portion of artefacts, ecofacts, features, texts and artistic representations from which archaeologists and historians have based their reconstructions of the past.

Notwithstanding these facts, cemeteries are also arguably the most challenging site-type to interpret due to the profound complexity and variability of mortuary behaviour – both within and across cultures. This unit embraces ‘complexity’ and ‘variability’ as opportunities to consider how different societies and cultures dealt with the biological imperative of death. By encompassing the fields of archaeology, history, theory, biology, social and cultural studies, politics, and economics, this interdisciplinary unit will invite students to consider the enduring tendency of death to provide individuals and groups with a stage to articulate the complexity, variability and meaning of life.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Acquire knowledge and skills pertaining to the archaeology of death and burial across time, geographical regions and cultures

Demonstrate critical thinking in the interpretation of the archaeological data
Solve problems and develop research skills
Think creatively and in an innovative way
Communicate effectively in both written and spoken modalities
Digest ambiguous, complex and contrasting data
Reflect on how knowledge gained in the unit can be applied in modern (ethnographic) contexts
Commit to continuous learning

General Assessment Information

SUCCESSFUL COMPLETION OF THE UNIT

There is no final examination for this unit but a class test (closed book).

To complete the unit successfully you need a minimum mark of 50% overall. You must attempt every piece of assessment or university policy requires that a zero grade be given.

You must attend all lectures and tutorials. Failure to do so will result in a deduction of 2% per lecture/tutorial from the overall mark for the unit unless a reasonable written explanation for each absence is provided within two days.

GRADES:

F: 0-49% **P:** 50-64% **CR:** 65-74% **D:** 75-84% **HD:** 85-100%

Grade descriptors may be found in a separate document on the unit's website.

LATE SUBMISSION OF ASSESSMENT TASKS - PENALTY

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (including weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

RESEARCH ESSAY

The Research Essay (2,000 words) is due in Week 7. It is worth 30% of the total marks. Your answer to the essay question (available on iLearn) should demonstrate extensive use of primary and secondary sources. Your essay should be based on an analysis and discussion of primary (ancient) sources. Secondary literature should be used to aid you in your analysis and interpretation of the ancient sources and to place your interpretation within the context of previous scholarship. All opinions included in the essay, whether quoted directly or paraphrased, should be referenced according to the guidelines, within the *Macquarie University Ancient History Department Assignment Presentation: Style Guide*. Do not footnote lectures or include anything in footnotes except citations, and remember to include every reference you have actually used in your bibliography. You must include a word count. Anything beyond the prescribed word limit will not be marked.

Marking criteria:

1. Knowledge of relevant subject matter
2. The range of primary sources used and their analysis
3. The range of secondary works consulted and the depth of engagement with them.
4. Correct citation of sources
5. Structure of argument
6. Skill in presenting the argument
7. Formal presentation including correct referencing, English language grammar, spelling and punctuation

CLASS TEST

The closed-book one-hour class test will test your knowledge of the material offered during the whole unit in both lectures and tutorials. It is worth 30% of the total marks.

Marking criteria:

1. knowledge of and depth of understanding of relevant subject matter
2. structure of argument
3. skill in presenting the argument
4. presentation (including spelling and grammar). Illegible writing will not be marked

IMPORTANT NOTE ON FINAL MARKS

Please note with respect to the marks you receive for work during the session: that the marks given are indicative only; final marks will be determined after moderation. See further the note on **Results** in the Policies and Procedures section below.

Delivery and Resources

CLASSES

For lecture times and classrooms please consult the MQ Timetable website: <http://www.timetables.mq.edu.au>. This website will display up-to-date information on your classes and classroom locations.

To complete the unit satisfactorily you will need to undertake all assessment tasks and achieve an overall mark worth 50% or above.

Assignments must be submitted **through the iLearn website**. Information about how to submit work online can be accessed through the iLearn unit.

Assignments will be returned via the 'Assignments' tool on iLearn Unit site, and will contain feedback from the marker within them. The convener will aim to return your assignments within two weeks.

There is no formal examination in this unit. A Class Test is set for the last week of classes.

EXTENSIONS AND PENALTIES

Extensions for assignments can only be granted for medical reasons or on compassionate grounds. If required, applications for extensions should be made to the convenor well before the assignment's due date.

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (including weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

REQUIRED AND RECOMMENDED TEXTS AND/OR MATERIALS

The following textbooks are required:

- Mike Parker Pearson, *The Archaeology of Death and Burial* (Stroud, 2013).

DELIVERY AND RESOURCES

Graduate Capabilities

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Learning outcomes

- Acquire knowledge and skills pertaining to the archaeology of death and burial across time, geographical regions and cultures
- Demonstrate critical thinking in the interpretation of the archaeological data
- Solve problems and develop research skills
- Think creatively and in an innovative way
- Communicate effectively in both written and spoken modalities
- Digest ambiguous, complex and contrasting data
- Reflect on how knowledge gained in the unit can be applied in modern (ethnographic) contexts
- Commit to continuous learning

Assessment tasks

- Online Quiz 1
- Research Essay
- Online Quiz 2
- Class Test
- Preparation and Participation

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to

demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcomes

- Demonstrate critical thinking in the interpretation of the archaeological data
- Think creatively and in an innovative way
- Communicate effectively in both written and spoken modalities
- Digest ambiguous, complex and contrasting data
- Reflect on how knowledge gained in the unit can be applied in modern (ethnographic) contexts
- Commit to continuous learning

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcomes

- Acquire knowledge and skills pertaining to the archaeology of death and burial across time, geographical regions and cultures
- Solve problems and develop research skills
- Communicate effectively in both written and spoken modalities
- Reflect on how knowledge gained in the unit can be applied in modern (ethnographic) contexts
- Commit to continuous learning

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Acquire knowledge and skills pertaining to the archaeology of death and burial across time, geographical regions and cultures
- Demonstrate critical thinking in the interpretation of the archaeological data
- Solve problems and develop research skills
- Communicate effectively in both written and spoken modalities
- Digest ambiguous, complex and contrasting data

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to

have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Acquire knowledge and skills pertaining to the archaeology of death and burial across time, geographical regions and cultures
- Demonstrate critical thinking in the interpretation of the archaeological data
- Solve problems and develop research skills
- Think creatively and in an innovative way
- Communicate effectively in both written and spoken modalities

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Acquire knowledge and skills pertaining to the archaeology of death and burial across time, geographical regions and cultures
- Demonstrate critical thinking in the interpretation of the archaeological data
- Solve problems and develop research skills
- Think creatively and in an innovative way
- Communicate effectively in both written and spoken modalities

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- Acquire knowledge and skills pertaining to the archaeology of death and burial across time, geographical regions and cultures
- Demonstrate critical thinking in the interpretation of the archaeological data
- Solve problems and develop research skills
- Think creatively and in an innovative way
- Communicate effectively in both written and spoken modalities

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes

- Acquire knowledge and skills pertaining to the archaeology of death and burial across time, geographical regions and cultures
- Demonstrate critical thinking in the interpretation of the archaeological data
- Think creatively and in an innovative way
- Digest ambiguous, complex and contrasting data
