Unit description

As the foundational core unit for the Master of Accessible Communication program, LING980 provides an overview of linguistic and other barriers to communication, as well as interventions to minimise or remove these barriers to full and equitable access to and participation in communication in society at large. The unit will provide an introduction to the concept of accessibility from a range of disciplinary perspectives including translation and interpreting, language learning, editing and publishing, intercultural communication, media studies, and disability studies. The unit focuses first on the nature of barriers to accessible communication before examining them in detail in specific contexts. Throughout the unit, students are encouraged to explore, research and reflect on language and communication barriers and how these can be overcome to facilitate equitable access to and participation in communication.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

All requests for special consideration, including extensions, must be submitted via [ASK.mq.edu.au](https://ask.mq.edu.au) and provide suitable supporting documentation

Late Assignment Submission

- Late submissions without an extension will receive a penalty of 5% of the total mark available for the assignment per day
- Late submission of an assignment without an extension will not be permitted after marks have been released to the rest of the class.
- Extensions will only be given in special circumstances, and can be requested by completing the Special Consideration request at ask.mq.edu.au and providing the requisite supporting documentation.
- For more information on Special Consideration, see the university website <https://student.s.mq.edu.au/study/my-study-program/special-consideration>

Extensions cannot continue beyond the start of the following semester, and students should be aware that long extensions may impact graduation dates.

Moderation of assessment

All assessment is marked by the convenor and is moderated using pre-marking forms of standardisation such as the use of marking rubrics, and post-marking moderation such as sample checking and statistical analysis of the spread of marks to ensure fairness and consistency across the unit. Final marks are subject to ratification at the Faculty of Human Sciences exam meeting at the end of semester.
