Prerequisites

(8cp from BIOL861 or BIOL873 or BIOL874 or BIOL875 or BIOL877 or BIOL887) and permission by special approval

Corequisites

Co-badged status

Unit description

This unit provides an opportunity to gain valuable and relevant professional experience either as an intern with a private or public organisation or through a professional project investigating the conservation sector. Students intending to undertake an independent internship in this unit should source a placement prior to the start of session. Please contact the convenor for a list of potential placements and projects. This unit can be combined with BIOL860 Biology Research Experience for a more extended experience.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
2. Develop a thorough understanding of the scientific, social, and legal dimensions of an issue of particular relevance to the conservation sector.
3. Collaborate effectively as part of a team working on an ongoing conservation project by contributing to the development and implementation of a scientifically rigorous plan of

action.

4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861, BIOL887) to conservation problems.

## General Assessment Information

BIOL870 is a four credit point unit and requires a workload commitment of 150 hours. We expect that this time will be divided into

1) 118 hours of laboratory experience and

2) 30 hours for assessments. You will therefore be in the lab/field for 8-10 hours a week over the semester.

All requests for extensions must go via ask.mq as per Disruption policy:

[http://students.mq.edu.au/student\\_admin/manage\\_your\\_study\\_program/disruption\\_to\\_studies/](http://students.mq.edu.au/student_admin/manage_your_study_program/disruption_to_studies/)

There is a late penalty of 10% per day for each assignment

## Assessment Tasks

Name	Weighting	Hurdle	Due
<a href="#"><u>Internship Proposal</u></a>	10%	No	10 August 2018
<a href="#"><u>Risk assessment</u></a>	10%	No	10 August 2018
<a href="#"><u>Daily Diary</u></a>	20%	No	2 November 2018
<a href="#"><u>Internship Report</u></a>	40%	No	9 November 2018
<a href="#"><u>Supervisor Report</u></a>	20%	No	9 November 2018

### Internship Proposal

Due: **10 August 2018**

Weighting: **10%**

**You will write a short proposal explaining the work that you will undertake in your placement (internship) and skills to be learnt**

On successful completion you will be able to:

- 1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
- 2. Develop a thorough understanding of the scientific, social, and legal dimensions of an issue of particular relevance to the conservation sector.

## Risk assessment

Due: **10 August 2018**

Weighting: **10%**

### **Undertake a risk assessment for the placement**

On successful completion you will be able to:

- 1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
- 4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861, BIOL887) to conservation problems.

## Daily Diary

Due: **2 November 2018**

Weighting: **20%**

### **Complete a daily diary recording work undertaken and skills learnt**

On successful completion you will be able to:

- 1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
- 3. Collaborate effectively as part of a team working on an ongoing conservation project by contributing to the development and implementation of a scientifically rigorous plan of action.

## Internship Report

Due: **9 November 2018**

Weighting: **40%**

You will write a report (literature review and methods protocols for internship) describing what is currently known in the area of your project and how your work will contribute to further understanding in this area

On successful completion you will be able to:

- 1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
- 2. Develop a thorough understanding of the scientific, social, and legal dimensions of an issue of particular relevance to the conservation sector.
- 4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861,

BIOL887) to conservation problems.

## Supervisor Report

Due: **9 November 2018**

Weighting: **20%**

**Supervisors will provide a report on student performance, progress, abilities acquired and attendance throughout placement.**

On successful completion you will be able to:

- 2. Develop a thorough understanding of the scientific, social, and legal dimensions of an issue of particular relevance to the conservation sector.
- 3. Collaborate effectively as part of a team working on an ongoing conservation project by contributing to the development and implementation of a scientifically rigorous plan of action.
- 4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861, BIOL887) to conservation problems.

## Delivery and Resources

### Technology Used and Required

Students are required to have access to a computer and the internet to access the teaching website and unit materials. Students will also be required to have access to a word processor, spreadsheet manager and database programs to be able to complete set assessment tasks.

For field work students will require access to some field equipment, a complete list of which will be supplied within the teaching website on activation.

### Unit Web Page

To access the unit and associated resources, please login to iLearn (<http://ilearn.mq.edu.au/>)

Guides for assist students with on-line websites and resources can be found at

Student iLearn guides: [https://www.mq.edu.au/iLearn/student\\_info/guides.htm](https://www.mq.edu.au/iLearn/student_info/guides.htm)

Student Echo guides: [https://www.mq.edu.au/iLearn/student\\_info/lecture\\_recordings.htm](https://www.mq.edu.au/iLearn/student_info/lecture_recordings.htm)

## Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central) (<https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central>). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#) (**Note:** *The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.*)

Undergraduate students seeking more policy resources can visit the [Student Policy Gateway](https://students.mq.edu.au/support/study/student-policy-gateway) (<https://students.mq.edu.au/support/study/student-policy-gateway>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central](http://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central) (<http://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central>).

## Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/study/getting-started/student-conduct>

## Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit [ask.mq.edu.au](http://ask.mq.edu.au).

## Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

## Learning Skills

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

## Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide

appropriate help with any issues that arise during their studies.

## Student Enquiries

For all student enquiries, visit Student Connect at [ask.mq.edu.au](http://ask.mq.edu.au)

## IT Help

For help with University computer systems and technology, visit [http://www.mq.edu.au/about\\_us/offices\\_and\\_units/information\\_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

## Graduate Capabilities

### PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

#### Learning outcomes

- 1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
- 3. Collaborate effectively as part of a team working on an ongoing conservation project by contributing to the development and implementation of a scientifically rigorous plan of action.
- 4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861, BIOL887) to conservation problems.

#### Assessment tasks

- Internship Proposal
- Risk assessment
- Daily Diary
- Internship Report
- Supervisor Report

### PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

## **Learning outcomes**

- 1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
- 2. Develop a thorough understanding of the scientific, social, and legal dimensions of an issue of particular relevance to the conservation sector.
- 4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861, BIOL887) to conservation problems.

## **Assessment tasks**

- Internship Proposal
- Risk assessment
- Daily Diary
- Internship Report
- Supervisor Report

## **PG - Critical, Analytical and Integrative Thinking**

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

## **Learning outcomes**

- 1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
- 2. Develop a thorough understanding of the scientific, social, and legal dimensions of an issue of particular relevance to the conservation sector.
- 4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861, BIOL887) to conservation problems.

## **Assessment tasks**

- Internship Proposal
- Risk assessment
- Daily Diary
- Internship Report
- Supervisor Report

## PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

### Learning outcomes

- 1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
- 2. Develop a thorough understanding of the scientific, social, and legal dimensions of an issue of particular relevance to the conservation sector.
- 4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861, BIOL887) to conservation problems.

### Assessment tasks

- Internship Proposal
- Risk assessment
- Daily Diary
- Internship Report
- Supervisor Report

## PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

### Learning outcomes

- 3. Collaborate effectively as part of a team working on an ongoing conservation project by contributing to the development and implementation of a scientifically rigorous plan of action.
- 4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861, BIOL887) to conservation problems.

### Assessment tasks

- Risk assessment

- Daily Diary
- Internship Report
- Supervisor Report

## PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues

This graduate capability is supported by:

### Learning outcomes

- 1. Demonstrate professionalism by adhering to all workplace standards, particularly with regard to ethics, occupational health and safety, and legal requirements.
- 2. Develop a thorough understanding of the scientific, social, and legal dimensions of an issue of particular relevance to the conservation sector.
- 3. Collaborate effectively as part of a team working on an ongoing conservation project by contributing to the development and implementation of a scientifically rigorous plan of action.
- 4. Apply knowledge and professional skills acquired in previous units (e.g. BIOL861, BIOL887) to conservation problems.

### Assessment tasks

- Internship Proposal
- Risk assessment
- Daily Diary
- Internship Report
- Supervisor Report
