Unit description
<p>This unit surveys the evolution of Western thought from major philosophical perspectives (from Homer to Sartre) and their relevance for management. What is important about a philosophical perspective is not what it explains, but what it assumes. Three assumptions ground the unit: a) managing is essentially a philosophical activity because human existence is interpreted through diverse perspectives; b) management training needs to be combined with management education. To train is to drill and subordinate individuals to routines, standards and practices. To educate is to liberate a person's intellectual, moral and aesthetic powers. c) managers and leaders need to have the critical skills to debate, reflect, and engage in dialogue across different functional disciplines, stakeholders and cultures in organisational contexts.</p>

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- apply philosophical perspectives to the task of leading, motivating and communicating effectively across diverse teams in an organisation;
- apply various forms of critical reflection to management decision-making;
- use different philosophical perspectives to respond appropriately to a wide range of different cultures and perspectives;

evaluate their own attitudes to ethical, social and environmental factors which affect an organisation, through a comparative analysis of Western ethical systems.

General Assessment Information

Extensions and penalties

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for disruption of studies is made and approved. No submission will be accepted after solutions have been posted.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Individual in-class quiz</u>	20%	No	Sunday, 13 May 2018
<u>Group presentation</u>	30%	No	Sunday, 20 May 2018
<u>Final examination</u>	50%	No	Saturday, 16 June 2018

Individual in-class quiz

Due: **Sunday, 13 May 2018**

Weighting: **20%**

It will be a specific form of a multiple-choice test based on the philosophy of David Hume. It is called “Hume’s Fork” and is an exercise in the use of logic. Hume’s Fork challenges students to be able to identify the difference between logical, empirical and non-nonsensical propositions. Students are not expected at this stage to be able to tell the difference between the three types of propositions. Students will be introduced to the difference between them in session 3 of the unit. They will also gain practice in using the different kinds of propositions. The importance of Hume’s Fork for management will also be discussed.

On successful completion you will be able to:

- apply philosophical perspectives to the task of leading, motivating and communicating effectively across diverse teams in an organisation;
- apply various forms of critical reflection to management decision-making;
- use different philosophical perspectives to respond appropriately to a wide range of different cultures and perspectives;
- evaluate their own attitudes to ethical, social and environmental factors which affect an organisation, through a comparative analysis of Western ethical systems.

Group presentation

Due: **Sunday, 20 May 2018**

Weighting: **30%**

Based on two philosophers of your choice, discuss the relationship between thinking and experience in your work place/s. One of the philosophers you choose must be a "theoretical" or rational philosopher and the other must be an experiential or "practice" philosopher. Please refer to the session titles to see which philosophers are "theoretical" and which are "practice" philosophers.

Groups must email a copy of their PowerPoint (.pptx file) presentation files to the lecturer on the day of presentations. All presentations should clearly state the following details on the front page.

- Presentation title
- Full names and student number of all group members
- Unit Code (MGSM880)
- Unit Name (Foundations of Management Thought)
- Lecturer (Dr Steven Segal)
- At the very end of the group's presentation file (after the final ending slide), please include a member contribution statement slide indicating which group members contributed to specific sections of the presentation/dialogue structure.

Part of this group assessment contains an assessment of individual performance in the group work, which will be based on the member contribution statement, which is subject to the final decision of the lecturer.

The marking criteria for the group presentation assessment will be made available on iLearn.

No extensions will be granted.

On successful completion you will be able to:

- apply philosophical perspectives to the task of leading, motivating and communicating effectively across diverse teams in an organisation;
- apply various forms of critical reflection to management decision-making;
- use different philosophical perspectives to respond appropriately to a wide range of different cultures and perspectives;
- evaluate their own attitudes to ethical, social and environmental factors which affect an organisation, through a comparative analysis of Western ethical systems.

Final examination

Due: **Saturday, 16 June 2018**

Weighting: **50%**

Duration: 3 hours plus 10 minutes reading time

Format: Closed book final examination

Date: Saturday, 16 June 2018

You are expected to present yourself for examination at the time and place designated by HKMA.

The final examination will be **closed book** and concern all the material from the entire unit. The specific format of the exam will be explained in the last class of the term.

On successful completion you will be able to:

- apply various forms of critical reflection to management decision-making;
- use different philosophical perspectives to respond appropriately to a wide range of different cultures and perspectives;
- evaluate their own attitudes to ethical, social and environmental factors which affect an organisation, through a comparative analysis of Western ethical systems.

Alignment of this unit with MGSM's mission-driven attributes

- **Leadership:** The unit explores philosophical approaches to leadership
- **Global mindset:** The unit emphasises cross-cultural differences in management practices and values
- **Citizenship:** The unit allows learners to evaluate their attitude to citizenship through a comparative analysis of Western ethical systems
- **Creating sustainable value:** The unit assists the understanding of the philosophical status of Western values.

Attendance Policy (MGSM)

The interactive environment of the classroom is central to the MGSM experience. Students are required to attend the full duration of all classes for the units in which they are enrolled. We recognise that exceptional circumstances may occur, such as unavoidable travel on behalf of your organization or the serious illness or injury of you or a close family member.

Special consideration may be given for a maximum of 20% non-attendance for such circumstances as long as lecturers are contacted in advance, and supporting documentation provided, to request exemption from attendance. Failure to abide by these conditions may result in automatic withdrawal, with academic and/or financial penalty. The full Student Attendance Policy is published in the MGSM Student Handbook at <https://students.mgsm.edu.au/handbook>.
