Unit description

Students will integrate and apply their knowledge and skills to issues and cases that simulate professional practice in finance. Students will reflect on their roles as practitioners in the finance industry and further develop their professional identity. Critical analysis skills will be utilised to evaluate, synthesise and provide reasoned responses to issues arising in financial practice. Students will undertake research in applied finance and will be challenged to critically reflect on current issues via the preparation and presentation of a major research report. Personal communication, negotiation and collaborative skills will be further developed. This unit will be undertaken towards the end of the program of study.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Apply research principles and methods as used in contemporary professional practice in applied finance

Conduct independent research, with personal autonomy and accountability, to specialised issues in applied finance.

Evaluate and synthesise established knowledge and apply professional judgement to

current issues in applied finance practice.

Demonstrate advanced critical, analytical and integrative thinking as applied to contemporary issues in applied finance.

Communicate effectively to diverse audiences.

Address and analyse contemporary industry challenges and ethical issues in a global financial context.

Collaborate effectively with colleagues in order to address contemporary issues in applied finance.

General Assessment Information

To pass this unit (requires a Mark of 50 or better) the student must pass the Research Project.

Assessment Tasks

Proposal for Research Project

Due: **Refer to iLearn**

Weighting: **5%**

Summary of Assessment Task

Individual / Group: Individual.

Due Date: Sunday following Block 1.

Grading Method: Refer to 'Standards Required to Complete the Unit Satisfactorily' section.

Submission Method: Online via Turnitin on iLearn site.

Duration: Refer to Assignment Coversheet.

Extension Requests:

- No extensions will be granted unless an application for Special Consideration is made and approved. If you have extenuating circumstances that prevent you from submitting your assignment by the due date, you must apply for Special Consideration as soon as reasonably possible. Refer to MAFC Program Rules at www.mafc.mq.edu.au for

information on the University's Special Consideration Policy.

- Unless such prior arrangements have been made, any late submission of assignments will automatically be penalised. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty).
- No submissions will be accepted after solutions have been posted.

On successful completion you will be able to:

- Apply research principles and methods as used in contemporary professional practice in applied finance
- Conduct independent research, with personal autonomy and accountability, to specialised issues in applied finance.
- Evaluate and synthesise established knowledge and apply professional judgement to current issues in applied finance practice.

Delivery and Resources

CLASSES

Face-to-Face Teaching: Approximately 30 hours.

Timetable: Detailed timetable for classes are on the Centre's website www.maqc.mq.edu.au

Consultation Times:

Students who wish to contact any of the teaching staff may do so through:

- The unit's iLearn site, in relation to general queries (so that all students may benefit); or
- Individual consultation with the lecturer by email in the first instance, if necessary.

REQUIRED AND RECOMMENDED TEXTS AND/OR MATERIALS

This unit introduces students to a type, and range, of literature different to that covered in the balance of the degree. There are no textbooks which cover the scope of this course, however the course notes and supplementary material will provide a broad overview of the literature, which you will need to explore as part of the various assessment tasks. Some useful books which cover some aspects of the professional skills domain are listed below, and are considered useful material.

- David Maister, Charles H. Green and Robert M. Galford, **The Trusted Advisor**, Simon and Schuster, 2004 [available as ebook]
- John S. Hammond, Ralph L. Keeney and Howard Raiffa, **Smart Choices**, Broadway Books, 2015 (Reprint) [available as kindle version via Amazon]
- Barbara Minto, **The Pyramid Principle**, Financial Times – Pitman Publishing, 1987

For the design and preparation of assessment tasks the following are considered helpful:

- *Chapter 1, “Framing the Problem” and Chapter 2, “Designing the Analysis”*, in Ethan M. Rasiel and Paul N. Friga, **The McKinsey Mind**, McGrath Hill, 2002 [ebook available via library]
- Uma Sekaran and Roger Bougie, **Research Methods for Business: A Skill-Building Approach**, 6th ed, Wiley, 2013 [available as e-text]
- Alana Bryman & Emma Bell, **Business Research Methods**, 4th ed, Oxford, 2015 [available as e-text]

Additional Material:

- The iLearn site contains additional material for students interested in following up particular aspects in greater detail. This will be particularly relevant for some of the assessment tasks. This material is not included in the printed notes.

Lecture Notes:

- Available in printed form and electronically via iLearn.

Assumed Knowledge:

- This unit is designed to be undertaken towards the end of a student's program of study. Familiarity with the broad range of applied finance is therefore assumed.

Assumed Access:

- Access to a computer with word processing, PowerPoint and internet capability is assumed, as is general computer literacy.

TECHNOLOGY USED AND REQUIRED

Unit iLearn Site:

- Found by logging on to iLearn ilearn.mq.edu.au, then clicking on **Professional Practice**.
- This is where you will find links to forums, downloadable resources and other important pages.
- The forum allows you to communicate with other students and lecturer(s) and may provide supplementary material.
- You are requested to post your questions to the forum at least 24 hours prior to the assignment submission date. Questions posted after that time may not be answered.
Please try to not leave your questions to the last few days.

Important Notice:

- It is important that you familiarise yourself with the unit's iLearn site.
- Students should check the unit's iLearn site regularly (including prior to all lectures) and

look for updates and distribution of materials (including case studies) related to the unit or assessments and, if relevant, participate in forum discussions.

Learning and Teaching Activities

Strategy

The Master of Applied Finance degree adopts a deep teaching and learning strategy, in which students acquire and retain knowledge and also are able to make sense of the issues and concepts and apply them in the “real world”. The degree relies heavily on student engagement and participation by: (a) Continuous learning throughout the term. This is encouraged through a combination of students undertaking prescribed reading throughout the units and / or completion of practice problems, case studies, assignments, class presentations etc and interaction via forums in the unit's iLearn site; and (b) Assessments, which enable the student to demonstrate his / her understanding of the learning objectives achieved through the continuous learning.

Student Participation

Students participate in this unit by: (a) Attending lectures and participating in class discussion; (b) Before each class, completing the recommended readings of notes and text, and working systematically through suggested problem sets; (c) Interacting on the unit's iLearn site; and (d) Completing all assessment tasks and exams. On average the unit will require students to complete, for every hour of class time, approximately 3 - 4 hours private study. In this unit, the research project is the major assessment task, and there is no final exam.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central) (<https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central>). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Graduate Capabilities

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

- Apply research principles and methods as used in contemporary professional practice in applied finance
- Conduct independent research, with personal autonomy and accountability, to specialised issues in applied finance.

- Evaluate and synthesise established knowledge and apply professional judgement to current issues in applied finance practice.
- Demonstrate advanced critical, analytical and integrative thinking as applied to contemporary issues in applied finance.
- Communicate effectively to diverse audiences.
- Address and analyse contemporary industry challenges and ethical issues in a global financial context.
- Collaborate effectively with colleagues in order to address contemporary issues in applied finance.

Assessment tasks

- Proposal for Research Project
- Developing Professional Skills
- Research Project
- In-Class Activities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Apply research principles and methods as used in contemporary professional practice in applied finance
- Conduct independent research, with personal autonomy and accountability, to specialised issues in applied finance.
- Evaluate and synthesise established knowledge and apply professional judgement to current issues in applied finance practice.
- Demonstrate advanced critical, analytical and integrative thinking as applied to contemporary issues in applied finance.
- Communicate effectively to diverse audiences.
- Address and analyse contemporary industry challenges and ethical issues in a global financial context.
- Collaborate effectively with colleagues in order to address contemporary issues in applied finance.

Assessment tasks

- Proposal for Research Project
- Developing Professional Skills
- Research Project
- In-Class Activities

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Apply research principles and methods as used in contemporary professional practice in applied finance
- Conduct independent research, with personal autonomy and accountability, to specialised issues in applied finance.
- Evaluate and synthesise established knowledge and apply professional judgement to current issues in applied finance practice.
- Demonstrate advanced critical, analytical and integrative thinking as applied to contemporary issues in applied finance.

- Collaborate effectively with colleagues in order to address contemporary issues in applied finance.

Assessment tasks

- Proposal for Research Project
- Developing Professional Skills
- Research Project
- In-Class Activities

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or

practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

- Apply research principles and methods as used in contemporary professional practice in applied finance
- Conduct independent research, with personal autonomy and accountability, to specialised issues in applied finance.
- Evaluate and synthesise established knowledge and apply professional judgement to current issues in applied finance practice.
- Demonstrate advanced critical, analytical and integrative thinking as applied to contemporary issues in applied finance.
- Address and analyse contemporary industry challenges and ethical issues in a global financial context.

- In-Class Activities

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcomes

- Apply research principles and methods as used in contemporary professional practice in applied finance
- Conduct independent research, with personal autonomy and accountability, to specialised issues in applied finance.
- Evaluate and synthesise established knowledge and apply professional judgement to current issues in applied finance practice.
- Demonstrate advanced critical, analytical and integrative thinking as applied to contemporary issues in applied finance.

Important Notice

Pre-reading: Please read the preliminary material provided prior to the first class.

This Unit Guide may be subject to change. The latest version is on the Centre's website at www.mq.edu.au.

Students should read the Unit Guide carefully at the start of the term. It contains important information about the unit. If anything is unclear, please consult one of the unit lecturers.

Standards Required to Complete the Unit Satisfactorily

University Policy on Grading:

- Macquarie University's Academic Senate has established a Grading Policy available at <http://www.mq.edu.au/policy/docs/grading/policy.html>. Your final result will include:
 - A Grade ranging from Fail Hurdle to High Distinction; and
 - A numerical Mark which is a summation of the individual assessment components, providing the Research Project is passed.
- It is important to note:
 - The Policy does not require that a minimum or maximum number of students are to be failed in any unit;
 - Grades will not be allocated to fit a predetermined distribution; and
 - Grades for all individual assessment items will be released to students, but Marks may not necessarily be released.

Specific Unit Grading:

- To pass this unit (i.e. requires a Mark of 50 or better) the student must pass the Research Project.
 - Students who have attained a total raw mark of 50% or greater in a unit, but have failed the unit's Research Project requirement and who have demonstrated "sufficient effort" in the Research Project, will be granted a single opportunity to submit a Research Project which will be graded on a Pass/Fail basis. The unit Mark and Grade for students who pass this Research Project will be those corresponding to the original total raw mark of all their assessment tasks, including the original Research Project. That is, the Supplementary Hurdle Research Project only determines the meeting of the hurdle requirement. Students who have attained a raw mark of 50% or greater in a unit, yet failed all attempts at the requirement, will be awarded an Fail Hurdle grade with a final Mark of 49.

- All final Marks and Grades in the Applied Finance Centre are determined by a grading committee and are not the sole responsibility of the unit convenor.
- The core criteria used to assess student work in this unit are:
 - Knowledge and understanding: Understanding key ideas, knowledge and use of concepts.
 - Application: Ability to apply theoretical ideas and frameworks in practice and in a critically reflective way.
 - Reasoning and analysis: Ability to analyse, use critical reasoning and principles to formulate a position, balancing theory and personal reflection.
 - Professional literacy and research: Understanding of professional factors (language and landscape) and ability to undertake appropriate research.
 - Communication and presentation: Ability to communicate and present effectively (written and oral, as relevant).
 - Use of mathematical and statistical ideas: Ability to use mathematical and statistical ideas, methods and formulae appropriately.
- Performance in relation to each of these criteria are assessed against the University's grading descriptors:

| Grade | Expectation |
|------------------|--|
| High Distinction | Provides consistent evidence of deep and critical understanding in relation to the learning outcomes. There is substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem solving approaches; critical evaluation of problems, their solutions and their implications; creativity in application as appropriate to the discipline. |
| Distinction | Provides evidence of integration and evaluation of critical ideas, principles and theories, distinctive insight and ability in applying relevant skills and concepts in relation to learning outcomes. There is demonstration of frequent originality in defining and analysing issues or problems and providing solutions; and the use of means of communication appropriate to the discipline and the audience. |
| Credit | Provides evidence of learning that goes beyond replication of content knowledge or skills relevant to the learning outcomes. There is demonstration of substantial understanding of fundamental concepts in the field of study and the ability to apply these concepts in a variety of contexts; convincing argumentation with appropriate coherent justification; communication of ideas fluently and clearly in terms of the conventions of the discipline. |
| Pass | Provides sufficient evidence of the achievement of learning outcomes. There is demonstration of understanding and application of fundamental concepts of the field of study; routine argumentation with acceptable justification; communication of information and ideas adequately in terms of the conventions of the discipline. The learning attainment is considered satisfactory or adequate or competent or capable in relation to the specified outcomes. |
| Fail | Does not provide evidence of attainment of learning outcomes. There is missing or partial or superficial or faulty understanding and application of the fundamental concepts in the field of study; missing, undeveloped, inappropriate or confusing argumentation; incomplete, confusing or lacking communication of ideas in ways that give little attention to the conventions of the discipline. |
| Fail Hurdle | Student has obtained a raw mark over 50, yet failed all available attempts of at least one hurdle assessment. |

Review of Grade and final examination Script viewing:

- A student who has been awarded a final grade for a unit and who does not believe it is an accurate reflection of their performance, and has grounds for such a claim and can demonstrate those grounds, may apply to have their grade reviewed.
- For information on requesting a review of grade and/or viewing your final exam script, please refer to the University's Grade Appeal Policy at <http://www.mq.edu.au/policy/documents/gradeappeal/policy.html> and MAFC Program Rules at <http://www.mafc.mq.edu.au>.
