Co-badged status

Unit description

This unit takes the position that a manager's behaviour can have a significant impact on organisational performance and that the continuous development of one's management and leadership skills is essential in the contemporary work environment. This unit highlights a self-directed approach to develop and enhance one's intrapersonal and interpersonal skills and abilities. The unit presents a model of self-development, which takes the view that effective self-development, requires the enhancement of three meta-skills – self-reflection practice, management of self-awareness reactions, and the operation self-regulation processes.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Critically reflect on one's intrapersonal skills (values, personality, dealing with stress and pressure, managing emotions, organising and motivating oneself, adapting to change) in order to more effectively engage in the leadership of oneself in the workplace.

Critically reflect on one's interpersonal skills and abilities (communication, managing emotions) in managing and leading teams, in order to engage in effective leadership within one's organisation.

Apply self-development skills and processes to one's own leadership skill development

to enhance one's capacity and motivation to engage in adaptive and sustainable and ethical leadership practice.

Apply self-development skills and processes to one's own leadership skill development to respond to the diverse cultural and market mindsets operating within and outside contemporary organisations.

General Assessment Information

Pre-assessment student preparation task - Individual book summary

Length: 300 words (approx.)

Due: Submission in iLearn on or before 5pm (Sydney time) of Wednesday, 18 April 2018

Weighting: Not assessed except as 5% penalty for non-submission.

A preliminary one-page summary (about 300 words) from each participant that outlines initial insights about the book assigned to their group will be required to be submitted in iLearn on or before the due date as listed in the above box – before the start of the first class. It is not expected that students will have completed reading of the assigned book but that they will have reviewed the book and perhaps have read reviews and summaries of the book available on the web. The intention of this summary is to initiate engagement with the book in order to support early syndicate group interactions. While not formally assessed, this summary will constitute an assessment item of the course and will represent the first 5% of a participant's final mark. Thus, failure to submit the assessment will result in a deduction of 5% from the final course mark. Students will receive a submission confirmation receipt in their MQ student email account if their submission in iLearn is successful. You must keep this submission confirmation receipt as evidence of your submission.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Group presentation</u>	25%	No	Starting 5 May 2018
<u>Group written assignment</u>	15%	No	5pm of 21 May 2018
<u>Individual report</u>	60%	No	5pm of 28 May 2018

Group presentation

Due: **Starting 5 May 2018**

Weighting: 25%

Duration: 30 minutes (time will be strictly enforced)

Due: All presentations occur during **Session 8 & 9 of class during the weekend sessions.**

The order of presentations will be advised prior to the weekend.

TASK – Syndicate groups are required to provide an engaging overview of the group's reflections of the assigned book in the form of individual presentations by group members. The presentation is not a verbatim report of the group's written assignment – you are graded on getting information across but it must be done in an engaging way and show each member at his or her best in terms of presentation skills. Assessment is carried out by class members who are the audience for your group's presentation.

Role-plays and use of videos are strongly discouraged – if role-plays or videos are used they should be used for a very short time as one aim of the presentation includes the exposure of syndicate members to the “joys” of public speaking.

The aim is to “Share” your insights and understanding. Therefore, you should not “Preach” or “Teach” the content of the book in the presentation.

In addition to the focus on the content of the book and reactions to it, groups are also required to discuss (No more than about 5 minutes of the 30 minutes) the group dynamics observed within their syndicate groups. Also the group members should indicate what aspects of their interactions they would incorporate into future syndicate groups' activity and what would they do differently. At the completion of presentations there will be additional time for questions and answers with the audience (about 10 minutes is allocated in addition to the 30 minute presentation). It is the responsibility of the audience to generate questions.

While it is not essential, groups are requested to submit an electronic copy via email of their presentation to the lecturer on the day prior to their presentation (this need only be a draft, not a final version).

Presentations by syndicate groups

The order of these group presentations will be decided by the Lecturer and communicated prior to the weekend classes.

Group presentations will be visually recorded on video and will also be assessed by all the members of the audience. As well, 2 presentation “buddies” for each individual presenter will be assigned. The role of the “buddies” is to provide feedback on individual presentations. The feedback provided to individual presenters does not impact assessment of the group and is intended to provide a source of feedback to the presenter about his or her presentation performance from the perspective of two members of the audience.

The sessions will be concluded with syndicate teams reviewing the DVD of the team member's presentations, discussing each member's performance in the presentation and interactions among members of the team during the course. This information should be incorporated into one's MSD assignment.

On successful completion you will be able to:

- Apply self-development skills and processes to one's own leadership skill development to enhance one's capacity and motivation to engage in adaptive and sustainable and

ethical leadership practice.

- Apply self-development skills and processes to one's own leadership skill development to respond to the diverse cultural and market mindsets operating within and outside contemporary organisations.

Group written assignment

Due: **5pm of 21 May 2018**

Weighting: **15%**

Length: 2000 words max

Due: Submission in iLearn on or before 5pm (Sydney time) of Monday, 21 May 2018

TASK - The group assignment requires the group to read and reflect on the content of the book assigned and provide a written essay styled assignment on their insights and analysis. **This is not a book review exercise.** The book provides a stimulus for personal reflection of its content as well as allowing you to work collaboratively in a group and examine your personal leadership style and your approach to teamwork behaviour and its impact on others. The written assignment should outline your team's developed reflections on the book, and also highlight some of the insights members have about their team working behaviour.

The assignment should be written in an essay format with headings. That is, the assignment should make arguments and persuade and it should flow in the presentation of ideas. It should use headings to divide content but should not include dot points. The assignment must have fully developed arguments presented in prose format.

Assessment criteria: This assignment will be judged in terms of the content of discussion of reflections, argument and support for ideas discussed, clarity of expression, flow of ideas and discussion, use of references where appropriate, correctness of grammar and spelling, adherence to stylistic requirements (see below) and document length.

Stylistic requirements: The assignment should be written in 12 point Times New Roman font using 1½ line spacing with at least 3 cm margins. References if used should be in accordance with APA 6th Style. You must include the word usage of the assignment (not counting any references or appendices used) on the front cover sheet of the assignment. Pages should be numbered.

Information about using APA 6th style is given at <http://libguides.mq.edu.au/content.php?pid=459099&sid=3759394>

Submission details:

One student from each group will submit a softcopy of this assessment on behalf of their syndicate group in iLearn on or before the due date as listed in the box above. Further instructions on how to do this will be provided to students via the MGSM806 iLearn page.

Please ensure the following details such as each group member's full name, student number, the unit code and name (MGSM806 Managerial Self-development), and lecturer (Paul Nesbit), are all clearly visible on the assignment.

Please note: There is a file size upload limit of 40mb (40 megabytes) or 40,000kb in iLearn. Please ensure that your assignment file size is below this limit.

Extensions and penalties

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for disruption of studies is made and approved. No submission will be accepted after solutions have been posted.

On successful completion you will be able to:

- Apply self-development skills and processes to one's own leadership skill development to enhance one's capacity and motivation to engage in adaptive and sustainable and ethical leadership practice.
- Apply self-development skills and processes to one's own leadership skill development to respond to the diverse cultural and market mindsets operating within and outside contemporary organisations.

Individual report

Due: **5pm of 28 May 2018**

Weighting: **60%**

Length: Part A - 2000 words max; Part B - 1500 words max

Date: Submission in iLearn on or before 5pm (Sydney time) of Monday, 28 May 2018

Weighting: Total 60% (Part A - 36% + Part B - 24%)

The individual assignment is made up of two parts but is to be submitted in the one document. Both parts of the assignment are to be written in essay prose format. Thus, you must not use dot points or write your assignment in the form of a table (except for the summary list of key managerial strengths and deficits – see below for details). For both Part A and Part B you need to write in the first person – that is, you need to use “I”, “me”, and “my” in writing your assignment.

TASK- The individual assignment requires you to submit a two-part assignment. Both parts should be submitted together. They will be read as a single assignment.

Part ‘A’ – Self-analysis - Part ‘A’ is worth 60% of the individual component (36 course marks) and requires you to outline and discuss self-awareness insights gained about your managerial/ leadership style and your managerial performance skills and deficits reflected on during the course. It is critical that you show the thinking process (reflection) that lead to your self-awareness insights. In other words, you need to demonstrate how your leadership skill and deficits insights were arrived at by discussing the results of various psychological assessments and reflection activities associated with the course as well as analysis and reflection on specific examples of your managerial and/or professional behaviour.

To aid your self-analysis you are expected to keep a reflection journal. You may include excerpts of the journal in the essay. These excerpts should be clearly indicated in the essay in *italic* font and by placing them separately in their own paragraph. These excerpts do not contribute to the word count of the assignment, although they should be restricted to brief extracts.

Other significant life and work issues that have shaped your leadership style and provided insight into your managerial/leadership behaviour can also be discussed in the assignment, although your main goal is to discuss and reflect on the experiences associated with the course.

The report also requires you to present a summary of your key insights – which can be presented as a table or in dot points – about your leadership strengths and deficits at the end of part 'A'. This table is not included in the word length.

Length: Part A up to a maximum of 2000 words (word count for this assignment does not include excerpts included from your journal, summary of leadership strengths and deficits, references, or appendices).

Assessment criteria part 'A': This part of the assignment will be judged in terms of the depth and insights of reflections and the support and arguments presented in relation to those insights, clarity of expression, flow of ideas and discussion, correctness of grammar and spelling, appropriate use of journal excerpts, and adherence to stylistic requirements (see below) including word length (Word length is strictly observed).

Part 'B' – The managerial self-development action plan – Part 'B' of the assignment is worth 40% of the assignment (24 course marks) and requires you to outline a managerial self-development action plan for no more than ONE specific development goal area identified in part 'A'.

You should see this part of the assignment as a blue print or self-coaching document that helps you advance your own self-development. The plan is based upon the insights about your managerial/leadership strengths and deficits you have gained from the activities and assignments of the course as well as taking into account your future management and leadership roles and aspirations. The outline of the plan and its content must show an understanding of a social-cognitive theoretical perspective of behaviour in its design (to be discussed during the course).

The managerial self-development action plan should take account of the reality of your work and social life as well as insights into personal predispositions and leadership style. These aspects are likely to support and/or obstruct your endeavours and you will need to show understanding of these influences in how you will approach your development plan.

In the action plan, you should include -:

- A clear focus on which development goal you want to work on and the reasons why.
- A section on specific sub-goals where you outline the development of specific concrete goals and discuss their relationship to your broad development abstract goal.
- A plan of ongoing specific activities that details the strategies (what you intend to do) to address your development sub-goals highlighted. You also need to critically discuss your

strategies in relation to social cognitive theory.

- As part of the strategies of your plan you need to include at least a single specific implementation intention. You need to carry out the implementation intention and critically discuss whether it was successful or not. (Implementation intentions will be discussed in class).
- Discussion of personal and environmental obstacles to your change objectives and plans to deal with these obstacles.

Length: Part B up to a maximum of 1500 words (word count for this assignment does not include references and appendices).

Assessment criteria part 'B': This part of the assignment will be judged in terms of content of discussion pertaining to the requirements of the question, clarity of expression, flow of ideas and discussion, incorporation and discussion of an appropriate implementation intention, soundness of use of references where appropriate, correctness of grammar and spelling, and adherence to stylistic requirements (see below) and word length.

Stylistic requirements: The assignment (both parts 'A' and 'B' should be written in 12 point Times New Roman font using 1½ line spacing with at least 3 cm margins. References if used should be in accordance with APA 6th Style. You must include the word counts separately for part 'A' and part 'B' on the front cover sheet of the assignment (Remember that the word count does not include the journal excerpts, summary of leadership strengths and deficits, list of references or appendices). Pages should be numbered.

Submission details:

Each student will submit a softcopy (one file altogether) of this assessment in iLearn on or before the due date as listed in the box above. Further instructions on how to do this will be provided to students via the MGSM806 iLearn page.

Please ensure your full name, student number, the unit code and name (MGSM806 Managerial self-development), and lecturer (Paul Nesbit), are all clearly visible on the front page of your assignment.

Please note: There is a file size upload limit of 40mb (40 megabytes) or 40,000kb in iLearn. Please ensure that your assignment file size is below this limit.

Extensions and penalties

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for disruption of studies is made and approved. No submission will be accepted after solutions have been posted.

On successful completion you will be able to:

- Critically reflect on one's intrapersonal skills (values, personality, dealing with stress and

pressure, managing emotions, organising and motivating oneself, adapting to change) in order to more effectively engage in the leadership of oneself in the workplace.

- Critically reflect on one's interpersonal skills and abilities (communication, managing emotions) in managing and leading teams, in order to engage in effective leadership within one's organisation.

Delivery and Resources

Required text

There is no required text for this unit.

Syndicate group books

The books assigned for the group assignment are widely available from most bookshops. You will be advised via email near the start of class about the books that will be assigned. If you find it difficult to acquire a hard copy of the assigned book you are reminded that books may also be available in online formats, such as Kindle (available via Amazon.com).

Psychological inventories

During the course, students will be completing a number of psychological and behavioural inventories, including the MSCEIT, the MBTI, and the FIRO-B. Other non-commercial assessments will also be used in the course as well.

Feedback and discussion of the tests will occur during the course.

Lecture overheads

As indicated above, overheads of lectures will be provided during class. These overheads form a guide to the major issues of the course. Given the interactive nature of the class it is not always possible, nor desirable, to discuss every overhead during lectures. Thus, students should not assume that only overheads discussed in class are important when reviewing course material for assignments.

Reflective journal

As part of the assessment process you will be expected to engage in writing your reflections of your experiences and developmental insights associated with these reflections. Although the journal will not be formally assessed, you may wish to include excerpts in your Part A individual report. The reflective journal will be of assistance in documenting and keeping track of experiences and insights generated during the course which provide input into the self-reflection report and action plan assignment.

Reflective journals and their use are discussed in the topic 1 "Developing Oneself for Leadership" on the first day of the course. The use of a reflective journal is meant to be an aid for your reflections, not an onerous task. The specific method of keeping a reflective journal is up to you – you may choose to handwrite entries in an exercise book, or on loose sheets, or typed into a word document. Many students have found the use of Google Blogs <https://www.blogger.com/start?hl=en> to be a useful method of keeping a daily record that is accessible on the Internet but

which can be kept confidential and password protected.

Reflective workbook

Students will also receive a small reflective workbook package to record reflective insights arising from the activities of the course. This will allow students to review their results of the various tests and experiential activities of the course as an aid for the development of assignments.

Peer coaching

As part of the reflective process participants will be paired with other colleagues from the course to aid the process of reflection as well as gain experience with the role of coaching others. Further information about peer coaching will be provided in class.

MGSM iLearn

The web page for this unit can be found at: <https://ilearn.mq.edu.au/login/MGSM>

Pre-reading and advance preparation for group presentations and assignments

As part of the assessment for this course you will be assigned to a syndicate group which is required to write a group report that overviews the content and analyses the group's reflective insights on a popular book – the topics of the book are varied and could relate to leadership, entrepreneurship, life purpose, achievement and success, or personal change. Your group is also required to organise a presentation of your findings as well as discuss team interactions.

You will receive email information that details your syndicate team membership, the contact details of other team members, and the book assigned to your team near the start of term.

Additionally, you will need to purchase a book assigned to your syndicate group (or at least obtain a copy for personal use). You may wish to purchase this as an e-book (if available) rather than obtain a hard copy version.

Pre-class emotional intelligence online test

As part of the course you are required to complete an online assessment of your Emotional Intelligence ability. The test is called the MSCEIT (Mayer, Salovey, Caruso, Emotional Intelligence Test) and can only be completed online. Results of the test are confidential and will only be known by the facilitator of the course (Dr Nesbit) and the test participant. Feedback and discussion of the test will occur during session 4 of class.

Information about the test and access codes will be sent to each enrolled student via email.

Attendance and participation requirements

In this subject it is essential that students attend all classes. Attendance is particularly important for this course due to the assessment and feedback of psychological inventories, the use of peer coaching throughout the course, and the intensive syndicate group experience generated. **If you are aware of problems in attendance at any time throughout the course, including only missing part of a session, you are required to notify the lecturer Dr Paul Nesbit by email at paul.nesbit@mgsm.edu.au or call 98509908.**

During class, mobile phones are to be switched off (unless negotiated with lecturer) and lap top computers, eTablets, and smartphones are not to be operated unless part of the delivery design of the course or for recording of notes (In other words I don't want to be fighting for your attention while you surf the web and check your emails or respond to SMS messages in class). Students should self-monitor side conversations during lectures and group presentations and respect the learning environment of other students.

Everyone is required to complete and submit the assessment work by the due date. If you know you will be unable to do this, please contact the lecturer, otherwise penalties will apply. Marks will be deducted for lateness at the rate of 10% of the possible mark per working day, exhausting all possibility of any mark in two (2) weeks.

Unit Schedule

Students are required to attend all classes.

This unit will be presented over 10 sessions as follows:

Date of class:

BLOCK weekend 1: 20 April 2018 - 22 April 2018

BLOCK weekend 2: 5 May 2018 - 6 May 2018

Session	Topics and allocated readings/resources

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)

- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#) (**Note:** *The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.*)

Undergraduate students seeking more policy resources can visit the [Student Policy Gateway](https://students.mq.edu.au/support/study/student-policy-gateway) (<https://students.mq.edu.au/support/study/student-policy-gateway>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central](http://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central) (<http://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central>).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/study/getting-started/student-conduct>

Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au.

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

- Critically reflect on one's interpersonal skills and abilities (communication, managing emotions) in managing and leading teams, in order to engage in effective leadership within one's organisation.
- Apply self-development skills and processes to one's own leadership skill development to enhance one's capacity and motivation to engage in adaptive and sustainable and ethical leadership practice.

Assessment tasks

- Group presentation
- Group written assignment
- Individual report

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Assessment task

- Individual report

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Critically reflect on one's intrapersonal skills (values, personality, dealing with stress and pressure, managing emotions, organising and motivating oneself, adapting to change) in order to more effectively engage in the leadership of oneself in the workplace.
- Critically reflect on one's interpersonal skills and abilities (communication, managing emotions) in managing and leading teams, in order to engage in effective leadership within one's organisation.
- Apply self-development skills and processes to one's own leadership skill development to respond to the diverse cultural and market mindsets operating within and outside contemporary organisations.

Assessment tasks

- Group presentation
- Group written assignment
- Individual report

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcome

- Apply self-development skills and processes to one's own leadership skill development to respond to the diverse cultural and market mindsets operating within and outside contemporary organisations.

Assessment tasks

- Group presentation

- Group written assignment
- Individual report

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcomes

- Critically reflect on one's intrapersonal skills (values, personality, dealing with stress and pressure, managing emotions, organising and motivating oneself, adapting to change) in order to more effectively engage in the leadership of oneself in the workplace.
- Critically reflect on one's interpersonal skills and abilities (communication, managing emotions) in managing and leading teams, in order to engage in effective leadership within one's organisation.
- Apply self-development skills and processes to one's own leadership skill development to enhance one's capacity and motivation to engage in adaptive and sustainable and ethical leadership practice.

Assessment tasks

- Group presentation
- Group written assignment
- Individual report

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues

This graduate capability is supported by:

Learning outcome

- Apply self-development skills and processes to one's own leadership skill development to enhance one's capacity and motivation to engage in adaptive and sustainable and ethical leadership practice.

Assessment tasks

- Group presentation
- Group written assignment
- Individual report

Changes from Previous Offering

No changes from previous offering.

Alignment of this unit with MGSM's mission-driven attributes

Leadership: This unit addresses the issue of leadership by focusing on the intrapersonal and interpersonal skills associated with the management and leadership of others.

Global mindset: The unit addresses the issue of global mindset by enhancing skills for self-development and being able to manage with greater behavioural and cognitive complexity.

Citizenship: The unit enhances a self-reflective capacity enabling students to consider their role as a leader in the wider community.

Creating sustainable value: The unit develops managerial performance skills by seeking to enhance the empathetic understanding of others and considers the self-determination drivers of performance and long-term career aspirations embedded within a holistic understanding of life.

Attendance Policy (MGSM)

The interactive environment of the classroom is central to the MGSM experience. Students are required to attend the full duration of all classes for the units in which they are enrolled. We recognise that exceptional circumstances may occur, such as unavoidable travel on behalf of your organization or the serious illness or injury of you or a close family member.

Special consideration may be given for a maximum of 20% non-attendance for such circumstances as long as lecturers are contacted in advance, and supporting documentation provided, to request exemption from attendance. Failure to abide by these conditions may result in automatic withdrawal, with academic and/or financial penalty. The full Student Attendance Policy is published in the MGSM Student Handbook at <https://students.mgsm.edu.au/handbook>
