This unit aims to help history students consolidate advanced skills in ancient and medieval Latin. It completes the systematic analysis of grammar begun in units AHIS118, AHIS219 and AHIS318 and further investigates the concepts of historical development and linguistic diversity. The unit also aims to help students consolidate their skills in reading original Latin literary and documentary texts, and analysing the significance of Latin for the study of relevant ancient cultures.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

<u>Comprehension Tests</u>	20%	No	See Unit Schedule
<u>Prose Compositions</u>	35%	No	See Unit Schedule
<u>Examination</u>	35%	No	TBA (Nov. examination period)

Participation

Due: **Fortnightly**

Weighting: **10%**

The purpose of this low-risk assessment is to test your engagement with unit content and developing knowledge and skills.

You will be required to participate in class exercises where we work together to practise translation from English to Latin.

There will be **six of these exercises** conducted during the course of the unit and **each student is expected to participate in at least four**.

External students and others unable (for an acceptable reason) to participate in class will participate via the iLearn Discussion Forum. Two sentences will be set for translation and analysis in each session.

In this assessment marks are awarded for engaged and effective participation in discussions, not for correctness of translation.

On successful completion you will be able to:

- Identify and recall Latin grammatical structures at advanced level.
- Recognise and memorise advanced Latin vocabulary.
- Assess the grammar required for the translation of Latin texts appropriate to level of study.
- Explore and appraise relevant grammatical and lexical reference tools.
- Employ linguistic metalanguage.
- Integrate knowledge of grammar and vocabulary in reading and writing advanced Latin

texts.

- Analyse the significance of Latin for the study of relevant ancient cultures.

Comprehension Tests

Due: **See Unit Schedule**

Weighting: **20%**

The purpose of this assessment task is to develop analytical skills and independent thinking and to help you prepare your technique for addressing Question 2 in the final examination. You will be required to complete two comprehension tests. In each test you need to read five short extracts drawn from the unit readings and comment on specific directions concerning the meaning, form, and function of specific words and expressions (two words or expressions for each passage, so a total of ten words or expressions in each test).

The criteria against which this task will be assessed are accuracy, thoroughness, and clarity of presentation; 50% of the weighting is for the description of meaning and form, 50% for the description of function.

On successful completion you will be able to:

- Identify and recall Latin grammatical structures at advanced level.
- Recognise and memorise advanced Latin vocabulary.
- Assess the grammar required for the translation of Latin texts appropriate to level of study.
- Explore and appraise relevant grammatical and lexical reference tools.
- Employ linguistic metalanguage.
- Integrate knowledge of grammar and vocabulary in reading and writing advanced Latin texts.
- Analyse the significance of Latin for the study of relevant ancient cultures.

Prose Compositions

Due: **See Unit Schedule**

Weighting: **35%**

The purpose of this assessment task is to facilitate understanding of Latin grammatical structures. You will be required to translate a series of sentences from English into Latin (five sentences in each of the **six prose compositions**). The sentences are designed to test your control over concepts discussed in the lectures and (often) illustrated in the unit readings.

The assessment criteria against which this task will be assessed are accuracy, completeness, and technical and stylistic control over the material. A rubric is used for marking this task and its

application will be explained in the lectures.

On successful completion you will be able to:

- Identify and recall Latin grammatical structures at advanced level.
- Recognise and memorise advanced Latin vocabulary.
- Explore and appraise relevant grammatical and lexical reference tools.
- Integrate knowledge of grammar and vocabulary in reading and writing advanced Latin texts.

Examination

Due: **TBA (Nov. examination period)**

Weighting: **35%**

The purpose of this assessment task is to test general control over unit content. The examination is arranged as four questions.

- In **Question 1** you will be required to translate into English three Latin passages drawn from the unit readings (45% of exam. weighting).
- In **Question 2** you will be required to read four short extracts drawn from the unit readings and comment on specific directions concerning morphology and/or function of specific words and expressions (two questions for each passage, so a total of eight questions; 20% of exam. weighting).
- In **Question 3** you will be required to reproduce four grammatical paradigms from a designated list provided in the unit materials (10% of exam. weighting).
- In **Question 4** you will be required to translate five English sentences into Latin, using constructions studied and vocabulary used in the prose compositions for this unit (25% of exam. weighting).

The criteria against which this task will be assessed are accuracy and completeness of translations in Question 1, comments in Question 2, and paradigms in Question 3, and accuracy, completeness, and technical and stylistic control of translations in Question 4.

On successful completion you will be able to:

- Identify and recall Latin grammatical structures at advanced level.
- Recognise and memorise advanced Latin vocabulary.
- Assess the grammar required for the translation of Latin texts appropriate to level of study.
- Explore and appraise relevant grammatical and lexical reference tools.
- Employ linguistic metalanguage.

- Integrate knowledge of grammar and vocabulary in reading and writing advanced Latin texts.
