Unit description

To produce a good translation needs more than language proficiency. This unit aligns translation theories and skills with translation practice, where students will identify the meaning of the text by examining its function and structure, and exploring how the same function can be achieved in the English translation. Students will learn how to conduct English translation which meets the needs of English readers and they will develop an awareness of the cultural and social factors that contribute to effective translation. Students will also become familiar with translation procedure and be able to identify and solve problems when translating from Chinese into English.

Day, Internal,

Class work: one 2-hour seminar per week

Times and Locations for seminars: Please consult the MQ Timetables Website:

<http://www.timetables.mq.edu.au>

Independent work: Apart from attending the class each week, you are expected to spend 11-12 hours on your assignments and reflection on your translation.

TECHNOLOGY USED AND REQUIRED

This unit will use:

iLearn

Online Unit

Login is via: <https://ilearn.mq.edu.au/>

Is my unit in iLearn?: <http://help.ilearn.mq.edu.au/unitsonline/> to check when your online unit will become available.

Technology

Students are required to have regular access to a computer and the internet. Mobile devices alone are not sufficient.

For students attending classes on campus we strongly encourage that you bring along your own laptop computer, ready to work with activities in your online unit. The preferred operating system is Windows 10.

Students are required to access the online unit in iLearn by the end of Week 1 and follow any relevant instructions and links for downloads that may be required. If applicable, students are required to download the relevant language package prior to Week 2.

Please contact your course convenor **before** the end of **Week 1** if you do not have a suitable laptop (or tablet) for in-class use.

- For central technical support go to: http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/
- For student quick guides on the use of iLearn go to: http://mq.edu.au/iLearn/student_info/guides.htm

Required resources:

You will need to prepare your own paper-based dictionary(es) and a laptop for the final test. Any paper-based dictionary you find helpful in doing your translation assignments can be brought to the final test.

Recommended:

We also expect you to develop good dictionary skills using websites like dictionary.com and rae.es. Google Translate and similar machine translation tools are not adequate dictionaries for translation as they omit context, don't give functional examples of language in use, and often provide the wrong word if the student doesn't know what they are looking for (e.g. nouns instead of verbs).

For students who do not have a sound foundation of basic grammatical knowledge we recommend, in addition to consulting MQ Learning Skills Advisers or completing MQ grammar

workshops, the following text:

Swan, M, 2005. *Practical English Usage*, Oxford: Oxford University Press.

Here are also recommended readings if you wish to know more about translation theories:

Baker, M & Malmkjar (ed.), 1998. *Routledge Encyclopaedia of Translation Studies*, Routledge.

Bassnett, S, 2002. *Translation Studies*, New York :Routledge.

Munday, J. 2008. *Introducing Translation Studies: Theories and Applications*, Routledge

Paltridge, B., 2006. *Discourse Analysis: An Introduction*. Continuum, London.
