Unit description

This unit is for students who have completed SPN101 or can demonstrate equivalent knowledge. The course follows a communicative approach and is designed to further develop skills in listening comprehension and speaking, and continues to cultivate proficiency in reading and writing in order to promote the competencies and guidelines established by the Common European Framework of Reference for Languages. The unit aims to prepare students to, among others: communicate in simple and routine tasks that involve the exchange of familiar information, describe (in simple terms) their background and environment, and understand sentences related to themselves, their family, and immediate surroundings (i.e. geography, work setting) when interacting with Spanish speakers.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Reading: understand short, simple texts on familiar matters of a concrete type which consist of high frequency everyday or job-related language; understand short, simple texts containing the highest frequency vocabulary, including a proportion of shared international vocabulary items.

Listening: understand enough to be able to meet needs of a concrete type provided speech is clearly and slowly articulated; understand phrases and expressions related to areas of most immediate priority (e.g. very basic personal and family information, shopping, local geography, employment) provided speech is clearly and slowly articulated; identify the main point of TV news items reporting events, accidents etc. where the visual supports the commentary; follow changes of topic of factual TV news items, and form an idea of the main content.

Writing: write short, simple formulaic notes relating to matters in areas of immediate need; write a series of simple phrases and sentences linked with simple connectors like “and”, “but” and “because”.

Spoken Interaction: interact with reasonable ease in structured situations and short conversations, provided the other person helps if necessary; manage simple, routine exchanges without undue effort; ask and answer questions and exchange ideas and information on familiar topics in predictable everyday situations; communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar matters to do with work and free time; handle very short social exchanges but is rarely

able to understand enough to keep conversation going on his/her own accord.

Spoken Production: give a simple presentation of people, living or working conditions, daily routines, likes/dislikes etc. as a short series of simple phrases and sentences linked into a list.

General Assessment Information

Assessment tasks are accepted past the due date in cases of documented Special Consideration. There is no resubmission of individual assessment tasks during the teaching session, however students can seek clarification of their marks and additional feedback from their tutor, and if not satisfied with the result of that discussion can consult with the convenor and request moderation if their submission has not already been part of the moderation sample. Indicative samples/exemplars and/or selections of content/genre type and/or activity patterns are provided in iLearn to further guide students on standards and approach to assessment tasks, along with marking criteria/rubrics.

Late Assessment Penalty

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

Delivery and Resources

Delivery:

Day, External, Online

This unit will use:

iLearn, Echo360.

Students must have regular access to a reliable internet connection, and intermediate computer skills including audio recording, file upload, and online communication etiquette.

Mobile devices alone are not sufficient as you will require a desktop or laptop computer for some tasks, ideally with a browser that supports Flash and npapi (Java) (now not supported by CHROME).

For students attending classes on campus we encourage that you bring along your own laptop computer, ready to work with activities in your ebook and online unit when required. The preferred operating system is Windows 10.

Students are required to access the online unit in iLearn by the end of Week 1 and follow any relevant instructions and links for downloads/language set up that may be required. If applicable, students are required to download the relevant language package prior to Week 2.

Please contact your course convenor before the end of Week 1 if you do not have a suitable laptop (or tablet) for in-class use.

- For technical support go to: http://mq.edu.au/about_us/offices_and_units/information_technology/help
- For student quick guides on the use of iLearn and iLearn tools (e.g. assignment submission and feedback, accessing results) go to: http://mq.edu.au/iLearn/student_info/guides.htm

Required resources:

E-book: Explorando, accessed through the Top Hat online platform. Price of the e-book varies depending on length of access purchased. A link and instructions to buy the e-book will be available on iLearn. Similarly, students who enrol early may receive an email invitation directly from Top Hat to buy Explorando. Explorando can be accessed for free while at the Macquarie University library. Note that the website will ask to access your location in order to verify it, and you must allow it to in order to access the ebook free of charge.

Students MUST bring an electronic device to class (laptop, tablet), allowing them to view the eBook.

Recommended:

We also expect you to develop good dictionary skills using websites like wordreference.com and rae.es. Google Translate and similar machine translation tools are not adequate dictionaries for language study as they omit context, don't give functional examples of language in use, and often provide the wrong word if the student doesn't know what they are looking for (e.g. nouns instead of verbs).

For students who do not have a sound foundation of basic grammatical knowledge we recommend, in addition to consulting MQ Learning Skills Advisers or completing MQ grammar workshops, the following text:

E. Spinelli, *English Grammar for Students of Spanish*.

Times and Locations for Practicals and Seminars: Please consult the MQ Timetables Website: <http://www.timetables.mq.edu.au>

You should be enrolled in a stream with a matching class number for the Practical and Seminar.
