Unit description
This unit focusses on non-traditional security threats and challenges. It introduces students to
the concepts of securitization and human security. It then assesses a range of non-traditional
security threats, addressing the risks and dangers associated with them, as well as discussing
ways to manage them. Students will examine areas such as global terrorism, insurgencies,
transnational organized crime, the international arms trade, environmental security, population
and refugees, poverty and development, global health, energy security and the challenges for
Australia. In combination with PICT110, the unit forms the basis for training in security studies.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are
available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

Gain a clear understanding of the breadth and depth of non-traditional security issues
that the world is facing world today.

Develop a critical and empirical awareness of the complexity and diversity of security
threats and risks of a non-traditional nature that the world faces.

Critically evaluate the scholarship on key non-traditional security issues.

Develop information literacy – the skills to appropriately locate, evaluate and use

relevant information on non-traditional security issues.

Demonstrate independent research skills, critical reasoning, and persuasive scholarly writing skills.

General Assessment Information

SUBMITTING ASSESSMENT TASKS

- All text-based assessment tasks are to be submitted, marked and returned electronically. This will only happen through the unit iLearn site.
- Assessment tasks must be submitted by the due date.
- Most assessment tasks will be subject to a 'TurnitIn' review as an automatic part of the submission process.
- The granting of extensions is subject to the university's Special Consideration Policy. Extensions will not in normal circumstances be granted by unit conveners or tutors, but must be lodged through Special Consideration: https://students.mq.edu.au/study/my-study-program/special-consideration

LATE SUBMISSION OF ASSESSMENT TASKS

- Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

WORD LIMITS FOR ASSESSMENT TASKS

- Stated word limits include footnotes and footnoted references, but not bibliography, or title page.
- Word limits can generally deviate by 10% either over or under the stated figure.
- If the number of words exceeds the limit by more than 10%, then penalties will apply. These penalties are 5% of the awarded mark for every 100 words over the word limit. If a paper is 300 words over, for instance, it will lose 3 x 5% = 15% of the total mark awarded for the assignment. This percentage is taken off the total mark, i.e. if a paper was graded at a credit (65%) and was 300 words over, it would be reduced by 15 marks to a pass (50%).

- The application of this penalty is at the discretion of the course convener.

REASSESSMENT OF ASSIGNMENTS DURING THE SEMESTER

- Macquarie University operates a Grade Appeal Policy in cases where students feel their work was graded inappropriately: http://www.mq.edu.au/policy/docs/gradeappeal/policy.html
- In accordance with the Grade Appeal Policy, individual works are not subject to regrading.

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcomes

- Gain a clear understanding of the breadth and depth of non-traditional security issues that the world is facing world today.
- Develop a critical and empirical awareness of the complexity and diversity of security threats and risks of a non-traditional nature that the world faces.

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Gain a clear understanding of the breadth and depth of non-traditional security issues that the world is facing world today.
- Develop a critical and empirical awareness of the complexity and diversity of security threats and risks of a non-traditional nature that the world faces.
- Critically evaluate the scholarship on key non-traditional security issues.

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Gain a clear understanding of the breadth and depth of non-traditional security issues that the world is facing world today.

- Develop a critical and empirical awareness of the complexity and diversity of security threats and risks of a non-traditional nature that the world faces.

- Critically evaluate the scholarship on key non-traditional security issues.

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Develop a critical and empirical awareness of the complexity and diversity of security threats and risks of a non-traditional nature that the world faces.

- Critically evaluate the scholarship on key non-traditional security issues.

- Develop information literacy – the skills to appropriately locate, evaluate and use relevant information on non-traditional security issues.

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- Critically evaluate the scholarship on key non-traditional security issues.

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes

- Gain a clear understanding of the breadth and depth of non-traditional security issues that the world is facing world today.
- Develop a critical and empirical awareness of the complexity and diversity of security threats and risks of a non-traditional nature that the world faces.

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcomes

- Gain a clear understanding of the breadth and depth of non-traditional security issues that the world is facing world today.
- Develop a critical and empirical awareness of the complexity and diversity of security threats and risks of a non-traditional nature that the world faces.
