Unit description

Language, along with the night sky and the 'signs' of illness, has been one of the longest studied objects of human enquiry. This unit examines the contemporary theories produced in that sustained human effort. In particular, we investigate the claims that twentieth century linguistics makes to being a science; and we look closely at the current ways in which linguistic theories are extended by the techniques of twenty-first century sciences: genetics and evolutionary theory; language corpora; neurosciences and medicine; complexity and computational modelling; and electronic translation tools.

The unit gives prominence to scholars concerned with the special conditions that pertain to the study of sign systems, of syntax, and of meaning: for example, Saussure; Chomsky; and various theorists across disciplines who offer methodical accounts for the study of meaning. Students in the unit can choose a strand of specialisation in their readings and assignments: one can choose by the level of language (from phonetics up to context), by the orientation to theory (eg, functionalist, structuralist, generative, or other), and by era (1900-1950, 1950-2010, or classical and other). All students will be encouraged to place their own research interests in the context of historical developments in the subject.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- demonstrate an understanding of selected key linguistic theories in their historical context, and in relation to the motivations of the communities of scholars responsible for their development

- demonstrate an understanding of the distinguishing concepts of major theories and theorists

- demonstrate an understanding of the use of evidence in different kinds of theory

- demonstrate a capacity to adopt a coherent position with respect to the claims and assumptions of different theories

- demonstrate a capacity to explain in clear and logical terms the ramifications of linguistic theory for other forms of intellectual enquiry, in particular how linguistics plays a role in the direction of the human sciences

- demonstrate a capacity to present clear and cogent arguments about how linguistics may develop in the particular sub-discipline most relevant to his/her domain of future research

General Assessment Information

Assignment submission

All assignments must be submitted through Turnitin.

Late assignment submission

- Late submissions without an extension will receive a penalty of 3% of the total mark available for the assessment task per day including weekend days (i.e. this is 3% of the total marks possible for the task – NOT 3% of the marks the student received. For example, if the assessment task is worth 100 marks and the student is two days late their mark for the task is reduced by 6 marks.)
- Late submission of an assessment task without an extension will not be accepted at all after the date on which marked assessment tasks have been released to the rest of the class. Any student with unsubmitted work at this date will receive a mark of 0 for the assessment task.
- Extensions will only be given in special circumstances, and can be requested by completing the Special Consideration request at ask.mq.edu.au and providing the requisite supporting documentation.
- Extensions that will result in submissions after the assessment task has been returned to the class will require a separate assessment task to be completed at the unit convenor's discretion.
- For more information on Special Consideration, see the university website <https://student.s.mq.edu.au/study/my-study-program/special-consideration>
- If a student fails the unit due to non-submission of an assignment or non-attendance at an exam, an FA grade will be applied in accordance with the University's Assessment Policy.
- Unit convenors have the discretion to determine whether or not students should fail a unit on the basis of lateness penalties alone if other learning outcomes of the unit have been met.

Assessment Tasks

Name	Weighting	Hurdle	Due

Seminar participation	20%	No	Ongoing

Seminar presentation

Due: **To be selected by students**

Weighting: **20%**

Individual presentation on a key theory/school, its major conceptual contributions and its mode of argumentation

On successful completion you will be able to:

- demonstrate an understanding of selected key linguistic theories in their historical context, and in relation to the motivations of the communities of scholars responsible for their development
- demonstrate an understanding of the distinguishing concepts of major theories and theorists
- demonstrate an understanding of the use of evidence in different kinds of theory

Short profile

Due: **April 26th 11.59pm**

Weighting: **20%**

Written profile on a key theory/school, its major conceptual contributions and its mode of argumentation

On successful completion you will be able to:

- demonstrate an understanding of selected key linguistic theories in their historical context, and in relation to the motivations of the communities of scholars responsible for their development
- demonstrate an understanding of the distinguishing concepts of major theories and theorists
- demonstrate an understanding of the use of evidence in different kinds of theory
- demonstrate a capacity to adopt a coherent position with respect to the claims and assumptions of different theories

Major essay

Due: **May 31st 11.59pm**

Weighting: **40%**

Essay presentation on a key theory/theorists of 20th linguistics

On successful completion you will be able to:

- demonstrate an understanding of selected key linguistic theories in their historical context, and in relation to the motivations of the communities of scholars responsible for their development
- demonstrate an understanding of the distinguishing concepts of major theories and theorists
- demonstrate an understanding of the use of evidence in different kinds of theory

Seminar participation

Due: **Ongoing**

Weighting: **20%**

Weekly preparation for seminar and contributions to discussion

On successful completion you will be able to:

- demonstrate an understanding of selected key linguistic theories in their historical context, and in relation to the motivations of the communities of scholars responsible for their development
- demonstrate an understanding of the distinguishing concepts of major theories and theorists

Delivery and Resources

This unit is taught over 13 weeks in a 3 hour seminar. The seminar will involve a presentation on the weekly topic by staff, and will be followed by discussion with students.

Before attending each class, students are expected to have read the relevant readings, and made notes about issues they wish to discuss. As indicated in the assessments explained above, one or two students will be expected to explain their 'sense' of the reading, its problems

and importance. Students will be asked to nominate a topic for which they can lead off this tutorial debate. Students are not expected to read every listed reading in the outline, but the course is based on deep and wide reading, and seminar preparation and participation counts for 20% of the overall marks for this unit.

Graduate Capabilities

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

- demonstrate an understanding of selected key linguistic theories in their historical context, and in relation to the motivations of the communities of scholars responsible for their development
- demonstrate an understanding of the use of evidence in different kinds of theory
- demonstrate a capacity to adopt a coherent position with respect to the claims and assumptions of different theories
- demonstrate a capacity to explain in clear and logical terms the ramifications of linguistic theory for other forms of intellectual enquiry, in particular how linguistics plays a role in the direction of the human sciences
- demonstrate a capacity to present clear and cogent arguments about how linguistics may develop in the particular sub-discipline most relevant to his/her domain of future research

Assessment tasks

- Major essay
- Seminar participation

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- demonstrate an understanding of selected key linguistic theories in their historical context, and in relation to the motivations of the communities of scholars responsible for their development
- demonstrate an understanding of the distinguishing concepts of major theories and theorists
- demonstrate an understanding of the use of evidence in different kinds of theory
- demonstrate a capacity to adopt a coherent position with respect to the claims and assumptions of different theories
- demonstrate a capacity to explain in clear and logical terms the ramifications of linguistic theory for other forms of intellectual enquiry, in particular how linguistics plays a role in the direction of the human sciences

Assessment tasks

- Seminar presentation
- Short profile
- Major essay
- Seminar participation

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- demonstrate an understanding of selected key linguistic theories in their historical context, and in relation to the motivations of the communities of scholars responsible for their development
- demonstrate an understanding of the distinguishing concepts of major theories and

theorists

- demonstrate an understanding of the use of evidence in different kinds of theory
- demonstrate a capacity to adopt a coherent position with respect to the claims and assumptions of different theories
- demonstrate a capacity to explain in clear and logical terms the ramifications of linguistic theory for other forms of intellectual enquiry, in particular how linguistics plays a role in the direction of the human sciences

Assessment tasks

- Short profile
- Major essay
- Seminar participation

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

- demonstrate an understanding of selected key linguistic theories in their historical context, and in relation to the motivations of the communities of scholars responsible for their development
- demonstrate an understanding of the distinguishing concepts of major theories and theorists
- demonstrate an understanding of the use of evidence in different kinds of theory
- demonstrate a capacity to adopt a coherent position with respect to the claims and assumptions of different theories
- demonstrate a capacity to explain in clear and logical terms the ramifications of linguistic theory for other forms of intellectual enquiry, in particular how linguistics plays a role in the direction of the human sciences
- demonstrate a capacity to present clear and cogent arguments about how linguistics may develop in the particular sub-discipline most relevant to his/her domain of future research

Assessment tasks

- Short profile

- Major essay
- Seminar participation

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcomes

- demonstrate an understanding of the distinguishing concepts of major theories and theorists
- demonstrate an understanding of the use of evidence in different kinds of theory
- demonstrate a capacity to adopt a coherent position with respect to the claims and assumptions of different theories
- demonstrate a capacity to explain in clear and logical terms the ramifications of linguistic theory for other forms of intellectual enquiry, in particular how linguistics plays a role in the direction of the human sciences
- demonstrate a capacity to present clear and cogent arguments about how linguistics may develop in the particular sub-discipline most relevant to his/her domain of future research

Assessment tasks

- Seminar presentation
- Short profile
- Major essay
- Seminar participation

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues

This graduate capability is supported by:

Learning outcomes

- demonstrate an understanding of the use of evidence in different kinds of theory

- demonstrate a capacity to adopt a coherent position with respect to the claims and assumptions of different theories
- demonstrate a capacity to present clear and cogent arguments about how linguistics may develop in the particular sub-discipline most relevant to his/her domain of future research
