Unit description

This unit provides students with an understanding of the factors that influence how people work together, what makes a team effective in the contemporary workplace, and the role of leadership. Lectures explore work behaviour at both the individual and the team level, drawing on theories and research in the literature on groups as well as the more recent multilevel research in organisational psychology. Students are required to engage in team assessment projects to help them develop professional skills and learn how they might function more effectively in group contexts.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>
