Unit description

This unit offers a flexible program of postgraduate study for education students. The unit will generally be developed as a guided reading unit in which students will work with an academic supervisor to produce a number of assessable tasks relevant to a field of practice. The unit expands on broader topics covered at undergraduate level by offering students an opportunity to develop advanced knowledge, critical thinking and research skills.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- identify an issue critical to some aspect of educational theory, policy or practice
- explore the academic and professional literatures relating the selected issue
- organise, analyse and synthesise the available research and scholarship so as to describe what is known about the issue
- develop an evidence based solution for the selected issue
- effectively communicate the issue and the proposed solution to the intended audience

General Assessment Information

Assessment Presentation and Submission Guidelines

Please follow these guidelines when you submit each assignment:

- Please type all assignments using 12-point font and 1.5 spacing.
- All assessments must be submitted through Turnitin in .doc format
- It is the responsibility of the student to ensure that all assessments are successfully submitted through Turnitin.
- Faculty assignment cover sheets are NOT required.

Draft Submissions & Turnitin Originality Reports

- Students may use Turnitin's Originality Report as a learning tool to improve their academic writing if this option is made available in the unit.
- Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
- The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- Generally, one Originality Report is generated every 24 hours up to the due date.
- Students should regularly save a copy of all assignments before submission,
- Students are responsible for checking that their submission has been successful and has been submitted by the due date and time.

Assignment extensions and late penalties

- In general, there should be no need for extensions except through illness or misadventure that would be categorised as serious and unavoidable disruption according to the University definition of same, see: <https://students.mq.edu.au/study/my-study-program/special-consideration>
- Applications for extensions must be made via AskMQ according to the Special Consideration policy. Extensions can only be granted if they meet the Special Considerations policy and are submitted via <https://ask.mq.edu.au/>. This will ensure consistency in the consideration of such requests is maintained.
- Late submissions without extension will receive a penalty of 5% reduction of the total

possible mark for each day late (including weekends and public holidays). You are reminded that submitting even just 1 day late could be the difference between passing and failing a unit. Late penalties are applied by unit convenors or their delegates after tasks are assessed.

- No assessable work will be accepted after the return/release of marked work on the same topic. If a student is still permitted to submit on the basis of unavoidable disruption, an alternative topic may be set.
- Students should keep an electronic file of all assessments. Claims regarding "lost" assessments cannot be made if the file cannot be produced. It is also advisable to keep an electronic file of all drafts and the final submission on a USB untouched/unopened after submission. This can be used to demonstrate easily that the assessment has not been amended after the submission date.

Requesting a re-assessment of an assignment

If you have **evidence** that your task has been incorrectly assessed against the grade descriptors you can request a re-mark. To request a re-mark you need to contact the unit convenor within **7 days** of the date of return of the assignment and provide **a detailed assessment of your script against the task criteria**. Evidence from your assignment must be provided to support your judgements. Please note: The outcome of a re-mark may be a **higher/lower or unchanged grade**. Grades are *standards referenced* and effort is NOT a criterion.

University policy on grading

Criteria for awarding grades for assessment tasks

Assignments will be awarded grades ranging from HD to F according to guidelines set out in the University's Grading Policy. The following descriptive criteria are included for your information.

Descriptive Criteria for awarding grades in the unit

In order to meet the unit outcomes and successfully pass this unit, students must make a genuine attempt at all assessment tasks. Where any submitted assessment task is considered to be unsatisfactory in this regard, the highest possible final grade that can be awarded for the unit will be 45.

Students will be awarded grades ranging from HD to F according to guidelines set out in the policy: <https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/assessment-in-effect-from-session-2-2016>

The following generic grade descriptors provide university-wide standards for awarding final grades.

Grade	Descriptor
HD (High Distinction)	Provides consistent evidence of deep and critical understanding in relation to the learning outcomes. There is substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem solving approaches; critical evaluation of problems, their solutions and their implications; creativity in application as appropriate to the discipline.
D (Distinction)	Provides evidence of integration and evaluation of critical ideas, principles and theories, distinctive insight and ability in applying relevant skills and concepts in relation to learning outcomes. There is demonstration of frequent originality in defining and analysing issues or problems and providing solutions; and the use of means of communication appropriate to the discipline and the audience.
Cr (Credit)	Provides evidence of learning that goes beyond replication of content knowledge or skills relevant to the learning outcomes. There is demonstration of substantial understanding of fundamental concepts in the field of study and the ability to apply these concepts in a variety of contexts; convincing argumentation with appropriate coherent justification; communication of ideas fluently and clearly in terms of the conventions of the discipline.
P (Pass).	Provides sufficient evidence of the achievement of learning outcomes. There is demonstration of understanding and application of fundamental concepts of the field of study; routine argumentation with acceptable justification; communication of information and ideas adequately in terms of the conventions of the discipline. The learning attainment is considered satisfactory or adequate or competent or capable in relation to the specified outcomes
F (Fail)	Does not provide evidence of attainment of learning outcomes. There is missing or partial or superficial or faulty understanding and application of the fundamental concepts in the field of study; missing, undeveloped, inappropriate or confusing argumentation; incomplete, confusing or lacking communication of ideas in ways that give little attention to the conventions of the discipline.

Results

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Learning Contract

Due: **10 November**

Weighting: **100%**

Each student, in consultation with their academic supervisor and the unit convener, will devise an individualised program of study which meets their individual learning objectives as well as satisfying the learning outcomes of the unit. This program is described in a learning contract which is;

“a document used to assist in the planning of a learning project. It is a written agreement negotiated between a learner and a teacher, lecturer or staff adviser that a particular activity will be undertaken in order to achieve a specific learning goal or goals” (Anderson, Boud and Sampson (1996) ,p2)

Developing a learning contract is an eight step process;

1. Establishing learning needs
2. Refining learning needs into specific learning objectives
3. Identifying useful resources and strategies for learning
4. Determining what is to be produced (ie assessment tasks/due dates)
5. Determining the criteria for assessment
6. Reviewing the learning contract
7. Carrying out the learning contract
8. Self assessment and submission of completed work

The learning contract pro forma must be used, and it can be found on the unit's ilearn site.

It is important to note that the process is an iterative one and it is understood that the initial learning contract may be reviewed and rewritten over the course of the semester as the student's understanding of their project develops.

The student will not be permitted to commence work for the unit until the unit convenor warrants that the tasks outlined in their learning contract meets, and when revised continues to meet, the requirements of the University's Assessment Policy.

There is an expectation that milestone tasks, which may represent unique assessment items, will be submitted at regular intervals throughout the session for detailed formative assessment. The learning contract will contain submission dates for all tasks, and all tasks must be submitted by 9 November.

Anderson, G., Boud, D., and Sampson, J. (1996) Learning contracts: a practical guide. London. Kogan Page.

On successful completion you will be able to:

- identify an issue critical to some aspect of educational theory, policy or practice
- explore the academic and professional literatures relating the selected issue
- organise, analyse and synthesise the available research and scholarship so as to describe what is known about the issue
- develop an evidence based solution for the selected issue
- effectively communicate the issue and the proposed solution to the intended audience

Delivery and Resources

Attendance

There are no scheduled classes for the unit, and students are not required to participate in activities other than those specified in their approved learning contract.

Unit expectations

Students are expected to maintain regular contact with their supervisor and to follow the formative feedback they provide.

In order to satisfactorily complete this unit students are required to submit a learning contract (0%) and all approved assessment tasks described therein (100%) by the negotiated due dates.

Required and recommended texts

There is no prescribed textbook for the unit.

Electronic Communication

It is the student's responsibility to check all electronic communication on a regular weekly basis. Communication may occur via:

- Official *MQ Student Email* Address
- The *Dialogue* function on iLearn
- Other iLearn communication functions

Information about the unit iLearn site

- Students are required to submit their assessable tasks via the relevant link on the ilearn site.

Access and technical assistance

- Information for students about access to the online component of this unit is available at [i learn.mq.edu.au/login/MQ/](https://learn.mq.edu.au/login/MQ/). You will need to enter your student username and password.
- Please do **NOT** contact the Unit Convenor regarding *iLearn* technical help.
- No extensions will be given for any technical issues. Allow enough time for your submissions.
- Assistance is available from IT Helpdesk ph: 1800 67 4357, or log a request at help.mq.edu.au. OneHelp is the online IT support service for both students and staff.

This unit requires students to use several ICT and software skills

- **Internet access:** The iLearn site contains materials for this unit; it is also required for the online submission of all Assessment Tasks, and for the use of Turnitin submission for ALL tasks.
- **Word processing, visual representations, and document formatting:** You are required to use an appropriate form of software to present your assignments.
- **Uploading** of assessment tasks to iLearn.

Policies and Procedures

Graduate Capabilities

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcome

- identify an issue critical to some aspect of educational theory, policy or practice

Assessment task

- Learning Contract

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcome

- explore the academic and professional literatures relating the selected issue

Assessment task

- Learning Contract

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcome

- organise, analyse and synthesise the available research and scholarship so as to describe what is known about the issue

Assessment task

- Learning Contract

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcome

- develop an evidence based solution for the selected issue

Assessment task

- Learning Contract

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcome

- effectively communicate the issue and the proposed solution to the intended audience

Assessment task

- Learning Contract

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues

This graduate capability is supported by:

Learning outcome

- identify an issue critical to some aspect of educational theory, policy or practice

Assessment task

- Learning Contract
