Unit description

This unit provides an understanding of the finance industry and its integral role in the modern economy. The focus is on a high level, fully integrated overview of the major participants, their roles, interactions and the purpose they endeavour to fill for all stakeholders in the economy. The key structures of the finance system are examined, and how they usually work and sometimes do not work. Case studies of actual events and participants will be used to provide a sense of the application of finance in the real world – what actually happens as well as what should happen.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://students.mq.edu.au/important-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- Identify and assess the functions of the financial system in modern economies.
- Critically examine participants and their markets in the finance industry.
- Apply knowledge and skills to assess contemporary case studies in applied finance.

Demonstrate effective communication to diverse audiences across different industry sectors.

Reflect on own experiences and apply them to case studies from a variety of industries.

Important Notice:

- It is important that you familiarise yourself with the unit's iLearn site.
- All students should check iLearn regularly and look for updates and distribution of materials related to the unit or assessments and participate in forum discussions.

Unit Schedule

The Unit Schedule is available in iLearn, together with details of required readings and activities.

Learning and Teaching Activities

Strategy

Programs in the Applied Finance Centre adopt a deep teaching and learning strategy in which students acquire and retain knowledge and also are able to make sense of the issues and concepts and apply them in the “real world”. The program relies heavily on student engagement and participation by: (a) Continuous learning throughout the term. This is encouraged through a combination of students undertaking prescribed reading throughout the units and/or completion of practice problems, online activities, case studies, assignments, class discussions, etc and interaction via forums; and (b) Assessments, which enable the student to demonstrate his/her understanding of the learning objectives achieved through the continuous learning.

Student Participation

This is an online unit. Students participate in this unit by: (a) Actively engaging with the required readings of this unit; (b) Working systematically through and completing online activities; (c) Interacting in forums; and (d) Completing all assessment tasks.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).
