Unit description The fundamentals of financial management are introduced from the perspective of the finance manager in a firm, namely those making investment, financing and dividend decisions. Finance theory is applied with the aim of providing a coherent framework and insights to assist in forming reasoned judgements. Case studies and financial planning models are used to provide context. The unit covers methods used in evaluating investment projects, assessing risk for competing projects, valuation and capital structure.

Mid-Semester Exam

Due: **1 August 2019**

Weighting: **25%**

60-minute in class exam

format: closed book (one double-sided A4 sheet of study notes is permitted)

On successful completion you will be able to:

- Apply finance theory, frameworks and methods to form reasoned, responsible, evidence-based and strategic investment, financing and capital budgeting decisions.
- Critically consider the implications of a firm's finance and investment decisions/strategies for the full spectrum of stakeholders, in view of the firm's social, ethical and environmental responsibilities.
- Evaluate appropriate models of business finance performance to measure and track the firm's value creation across the firm's operations.

Syndicate Assignment

Due: **29 August 2019**

Weighting: **25%**

submission: electronic copy into iLearn

In a syndicate of 4-5 people you are required to undertake a financial valuation of a company listed on the Australian Stock Exchange. You are required to value the equity of the company and provide a buy, sell or hold recommendation based on your analysis. You will be advised of the company in class.

The objective of the assignment is not to achieve the current share price. Rather it presents an opportunity for you to apply your valuation skills and knowledge of financial management issues to an actual company. This assignment brings together most aspects of the course, including cash flow analysis, capital structure issues, estimating the cost of capital and valuation techniques.

Your report should include the following components:

1. A one-page executive summary that outlines your main findings and recommendations.
2. A summary of the company and its markets:
 - Products
 - Markets, market share and growth
 - Competition
 - Management and other resources
3. A summary of key financial ratios and examination of factors that have driven the performance of the company over recent years.
4. A summary of future prospects for the company and an outline of the key assumptions that you will use for your financial valuation. Please ensure that you articulate the basis for your assumptions.
5. A description of the risk and financial valuation methodologies that you will use in your project.
6. A summary of your valuation results and your recommendations.
7. Appendices: valuation spreadsheets, ratios and calculations.

The main objective of the assignment is to demonstrate your understanding of the valuation of the equity of companies. Parts 2 to 4 are used to build your financial model. Part 5 demonstrates your understanding of the theoretical and practical aspects of the various valuation methods. In Part 6 you will need to draw together the information from Parts 2 to 5 to obtain the valuation required which will support your recommendation.

HOW TO PRESENT YOUR REPORT AND THE NUMBER OF WORDS REQUIRED:

The report for the group assignment should include an executive summary. All appendices, etc should be clearly referenced in the main body of your reports. Do not include an appendix that you do not refer to in the main body of your report. Ensure that you footnote your work clearly and show the sources of material used. Also, you should include a bibliography. Be clear and succinct, ensuring that you state your arguments clearly and justify any assumptions made in your analysis.

Word limit: 3,000 (excluding appendices)

Marking criteria will be made available in class.

50% of the marks for the assignment (i.e. 12.5 marks) will be assessed based on individual contribution. Students will be required to complete a Self and Peer Assessment form so that the contribution of individual members in a group can be identified and assessed. Further instructions will be provided on iLearn.

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved.

On successful completion you will be able to:

- Apply finance theory, frameworks and methods to form reasoned, responsible, evidence-based and strategic investment, financing and capital budgeting decisions.
- Critically consider the implications of a firm's finance and investment decisions/strategies for the full spectrum of stakeholders, in view of the firm's social, ethical and environmental responsibilities.
- Evaluate appropriate models of business finance performance to measure and track the firm's value creation across the firm's operations.

Final Examination

Due: **Exam week: 2- 8 September 2019**

Weighting: **50%**

The final examination is of two and a half (2.5) hours and ten (10) minutes reading time.

The exam format will be closed book. More details on the exam will be provided in class.

You are expected to present yourself for examination at the time and place designated in the MGSM Examination Timetable. The timetable will be available at <https://students.mgsm.edu.au/sydney-students/units/exams/>

On successful completion you will be able to:

- Apply finance theory, frameworks and methods to form reasoned, responsible, evidence-based and strategic investment, financing and capital budgeting decisions.
- Critically consider the implications of a firm's finance and investment decisions/strategies for the full spectrum of stakeholders, in view of the firm's social, ethical and environmental responsibilities.

Changes from Previous Offering

No changes from previous offering.

Alignment with MGSM's mission-driven attributes

Leadership: The unit develops skills required of leaders with respect to the synthesis of a wide array of financial information in order to make well-informed and financially robust strategic decision.

Global mindset: The unit enables learners to assess the implications of strategic decisions from a whole of entity perspective, across a wide spectrum of stakeholders

Citizenship: The unit supports learners to conduct decisions taking into account the implications for all stakeholders and without abusing power or privilege

Creating sustainable value: The unit encourages adoption of a forward-looking perspective on the impact of decisions on the financial position and performance of the entity

Attendance Policy (MGSM)

The interactive environment of the classroom is central to the MGSM experience. Students are required to attend the full duration of all classes for the units in which they are enrolled. We recognise that exceptional circumstances may occur, such as unavoidable travel on behalf of your organization or the serious illness or injury of you or a close family member. Special consideration may be given for a maximum of 20% non-attendance for such circumstances as long as lecturers are contacted in advance, and supporting documentation provided, to request exemption from attendance. Failure to abide by these conditions may result in automatic withdrawal, with academic and/or financial penalty. The full Student Attendance Policy is published in the MGSM Student Handbook at <https://students.mgsm.edu.au/handbook>
