Unit description The objective of this unit is to explore the theory and application of corporate finance issues at an advanced level, and to equip students with the required depth of knowledge and skill expected of a professional. Following a brief revision of basic financial concepts covered in earlier finance courses, the unit investigates the more complicated theoretical issues and analytical techniques in corporate finance. In particular, a critical approach is adopted which involves identifying the assumptions and limitations of these techniques when applied to the real world. Students are encouraged to understand that often the best method is a matter of debate, and that they must choose a method from a group of methods all of which have various limitations. This critical approach is reinforced by examining a number of real life corporate finance projects.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- To apply investment and financing concepts to take decisions in business
- To evaluate cost of capital, project risks and the financial viability of projects
- To evaluate the effect of capital structure on value of firms and projects

To develop research skills in current topics in corporate finance

To apply options methodology to value business opportunities and firms.

General Assessment Information

Feedback Prior Census Date: A self-assessment online quiz will be released in Week 3 for feedback prior to the census date. The quiz is not part of the course marks but results provide an indication of whether you are progressing satisfactorily in the unit. If you are having difficulties, please see the Unit Convenor and consider withdrawing before the census date.

Assessment Criteria: the *Essay* will be assessed against criterion and performance standards set out in a marking *Rubric*, which will be provided to students by the Unit Convenor. Assessment criteria for all other assessment tasks will be provided on the unit iLearn site.

Viewing Within Session Assessment Task Marks: it is the responsibility of students to view their marks for each within session assessment on iLearn within 20 working days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after release of final results regarding assessment marks (not including the final exam) will not be addressed.

Assessment Tasks

Delivery Format and Other Details:	<p>CLASSES</p> <p>The Unit involves 3 hours face-to-face teaching per week consisting of a 3 hour seminar. The timetable for classes can be found on the University website at: http://www.timetables.mq.edu.au/</p> <p>Attendance at seminars is a compulsory component of the Unit, and students are expected to attend all classes.</p> <p>LEARNING AND TEACHING ACTIVITIES</p> <p>This is meant to be a 2nd unit in corporate finance. Most students will have completed an introductory financial management / corporate finance unit. As a more advanced unit, some of the topics covered will be familiar to students but we will be covering them at a more in - depth level. Some other topics will be completely new. As in the introductory unit, students need to work through the quantitative and other problems which are selected each week from the text. However, an important objective of this unit is to make the student aware of the limitations of financial theory and of the assumptions made in making finance and investment decisions.</p>
