Unit description

This unit provides students with the opportunity to integrate and advance their knowledge of banking and finance, with an international and future-focused emphasis. Contemporary topics in banking and finance will be covered, such as bank regulations, Fintech, hedge fund management, risk management, etc.; and students will examine the major challenges and impact brought about by these changes/topics. The unit's research and case-based topics approach will equip students to apply their analytical, critical and interpersonal skills to complex and contemporary real world problems, which in turn will help develop and finesse their communication skills and professional judgment. The unit will showcase several lectures presented by senior industry specialists, giving students the opportunity to connect with their topics in a meaningful way.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Critically analyse the latest banking regulations and tools necessary for managing bank liquidity.

ULO4: Work as a team in applying financial modelling and spreadsheet techniques in the finance industry.

ULO2: Demonstrate knowledge of the new era of Fintech and assess its impact on various financial and banking services.

ULO3: Apply and evaluate current tools and techniques used in the finance industry.

Assessment Tasks

Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

[Find out more about the Coronavirus \(COVID-19\) and potential impacts on staff and students](#)

General Assessment Information

Questions: Subject-related questions whose answer is useful to everyone should be posted to the iLearn discussion board. Please do not send individual emails to the unit convener. Your questions relating to the content delivered by industry professionals will be collated and a response from the industry speakers will be posted in the appropriate thread for everyone to see.

Late submission for tasks 10% or less – No extensions will be granted. Students who have not submitted the task prior to the deadline will be awarded a mark of 0 for the task, except for cases in which an application for special consideration is made and approved.

Late submission for tasks above 10% - No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved. No submission will be accepted after solutions have been posted.

Marks in gradebook: It is the responsibility of students to view their marks for each within-session-assessment on iLearn within 20 days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment tasks (not including the final exam mark) will not be addressed.

Assessment criteria for all assessment tasks will be provided on the unit iLearn site.

Delivery and Resources

Coronavirus (COVID-19) Update

Any references to on-campus delivery below may no longer be relevant due to COVID-19.

Please check here for updated delivery information: https://ask.mq.edu.au/account/pub/display/unit_status

Classes

Lecture timings: See timetable <https://timetables.mq.edu.au/2020/>

The campus map is downloadable from <https://www.mq.edu.au/about/contacts-and-maps/maps>

Classes in AFIN899 are composed of a three-hour seminar. Unit materials are learnt by attending lectures, interactions with practitioners and through independent learning.

Students please note that due to confidentiality the lecture recordings will not be available to students so it is highly recommended that you attend class each week. Lecture slides will be distributed either prior or after the class and are at the discretion of the guest lecturer.

Required and Recommended Texts and Materials

There are no required or recommended texts for AFIN899. Notes for each of the topics will be made available via iLearn.

Technology Used and Required

Non-programmable calculators with no text-retrieval functionality are permitted. Calculators that have a full alphabet on the keyboard are not permitted. Graphics calculators are not permitted. Calculators need the following minimum functionality: xy or x , $1/x$ and \log or \ln functions, and a memory. Non-programmable financial calculators are permitted but it is not a requirement to use a financial calculator.

iLearn is an online program available at <https://ilearn.mq.edu.au/login/MQ/> through which students will be able to access resources such as lecture notes and lectures to assist them throughout the semester. The discussion forum environment will be extensively used to allow students to interact with each other.

Unit Web Page

Course material is available on the learning management system at <http://ilearn.mq.edu.au>

You are strongly encouraged to visit the website regularly and use it as a resource centre to assist with your learning.

If you are unable to access the internet site because you are not aware of or have forgotten your username and password, please contact the IT helpdesk. All information is available at <http://informatics.mq.edu.au/help/>
