Unit description

This unit adopts a technical and behavioural emphasis, and integrates research, best practice and theory to inform the design and operational aspects of MCS that effectively and efficiently serves an organisation's best interests. This unit develops student theoretical and practical understanding of key MCS concepts, principles and frameworks, underpinned by research findings, to design, implement and use MCS in organisations. Students learn how to critically analyse, evaluate, and solve MCS problems using case studies. Students develop investigative, critical and analytical skills that are required to undertake more advanced research. In this unit, students develop qualitative research capabilities by conducting qualitative research on a real-world organisation's MCS.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO2: Critically analyse and solve management control problems in real-world organisations.

ULO1: Explain and evaluate the design and operational aspects of Management Control Systems (MCS) in organisations.

ULO3: Review and critically analyse research papers in management accounting discipline.

ULO4: Apply the principles of qualitative research in management accounting to conduct secondary qualitative research.

ULO5: Critically examine an organisation's strategic and operational activities using qualitative research findings to design an effective management control system in a real-world organisation.

Assessment Tasks

Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

[Find out more about the Coronavirus \(COVID-19\) and potential impacts on staff and students](#)

General Assessment Information

Turnitin

All text based assessments must be submitted through Turnitin as per instructions provided in the unit guide. It is the student's responsibility to ensure that work is submitted correctly prior to the due date. No hard copies of assessments will be accepted and only Turnitin records will be taken as records of submission.

Multiple submissions may be possible in some units via Turnitin prior to the final due date and time of an assessment task and originality reports may be made available to students to view and check their work. All identified matching text will be reconsidered carefully. Students should note that the system will not immediately produce the similarity score on a second or subsequent submission - it approximately takes 24 hours for the report to be generated. This may be after the due date so students should plan any re-submissions carefully. Please refer to these instructions on how to submit your assignment through Turnitin and access similarity reports and feedback provided by teaching staff. Should you have questions about Turnitin or experience

issues submitting through the system, you must inform your unit coordinator immediately. If the issue is technical in nature you may also lodge a OneHelp Ticket - please refer to the IT help page.

It is the responsibility of the student to retain a copy of any work submitted. Students must produce these documents upon request. Copies should be retained until the end of the grade appeal period each term. In the event that a student is asked to produce another copy of work submitted and is unable to do so, they may be awarded zero (0) for that particular assessment.

Late Submission(s): “Late assessment must also be submitted through Turnitin. No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission incurs a 20% penalty). Late submissions will not be accepted after solutions have been discussed and/or made available.

This penalty does not apply for cases in which an application for Special Consideration is made and approved. Note: applications for Special Consideration Policy must be made within 5 (five) business days of the due date and time.”

Delivery and Resources

Coronavirus (COVID-19) Update

Any references to on-campus delivery below may no longer be relevant due to COVID-19.
