Unit description

This unit adopts a technical and practical emphasis, and incorporates theory, published research on management accounting technologies, and ethical dimensions of management accounting to inform how management accounting operates within an organisation's strategic control system. Using case studies students learn how to critically analyse, evaluate, and solve problems using management accounting technologies. Students learn how management accounting enables and hinders strategic control processes thus positioning students to enhance its role in accomplishing effective strategic control.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Integrate and apply strategic control concepts and management accounting technologies to explain and evaluate the role of management accounting in strategic control in organisations.

ULO2: Employ management accounting technologies, to identify, analyse and solve strategic control problems in real-world organisations.

ULO3: Propose and justify changes to the use of management accounting to enhance its role in the strategic control of an organisation.

ULO4: Critically examine, discuss and reflect on ethical issues and challenges relating to strategic control in organisations.

Assessment Tasks

Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

[Find out more about the Coronavirus \(COVID-19\) and potential impacts on staff and students](#)

General Assessment Information

Turnitin

All text based assessments must be submitted through Turnitin as per instructions provided in the unit guide. It is the student's responsibility to ensure that work is submitted correctly prior to the due date. No hard copies of assessments will be accepted and only Turnitin records will be taken as records of submission.

Multiple submissions may be possible in some units via Turnitin prior to the final due date and time of an assessment task and originality reports may be made available to students to view and check their work. All identified matching text will be reconsidered carefully. Students should note that the system will not immediately produce the similarity score on a second or subsequent submission - it takes approximately 24 hours for the report to be generated. This may be after the due date so students should plan any re-submissions carefully. Please refer to these instructions on how to submit your assignment through Turnitin and access similarity reports and feedback provided by teaching staff. Should you have questions about Turnitin or experience issues submitting through the system, you must inform your unit convener immediately. If the issue is technical in nature you may also lodge a OneHelp Ticket; please refer to the IT help page.

It is the responsibility of the student to retain a copy of any work submitted. Students must produce these documents upon request. Copies should be retained until the end of the grade appeal period each term. In the event that a student is asked to produce another copy of work

submitted and is unable to do so, they may be awarded zero (0) for that particular assessment.

Late Submission(s): *"Late assessment must also be submitted through Turnitin. No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission incurs a 20% penalty). Late submissions will not be accepted after solutions have been discussed and/or made available.*

This penalty does not apply for cases in which an application for Special Consideration is made and approved. Note: applications for Special Consideration Policy must be made within 5 (five) business days of the due date and time."

Delivery and Resources

Coronavirus (COVID-19) Update

Any references to on-campus delivery below may no longer be relevant due to COVID-19.
