Unit description

Project Finance typically involves an independent legal entity operating as a vehicle for owning and funding large scale projects. Capital sources for the entity will be a combination of equity from sponsors and debt from the bank or capital markets. The application of this financing approach is most commonly seen in the fields of infrastructure (both social and economic) and natural resource financing. Examples include the financing of toll roads, power stations, mines, pipelines, telecommunications networks, hospitals and public buildings such as courts and prisons. This course considers the financial techniques applied to solving such funding requirements in both the domestic and international context, and the business rationale for project finance. A comprehensive risk system is introduced for the identification and systematic allocation of risk in the various approaches to structuring a project financing. Funding, political-risk structuring, and recent capital-market developments are highlighted in class and through practical case studies. A heavy emphasis is placed on the international character of the project finance industry. The skills gained in this course will be relevant for corporate executives, bankers, lawyers, consultants and government officials who may be involved in large scale infrastructure and resource developments.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Develop a thorough grounding in the characteristics that make a large scale

investment a candidate for Project Finance.

ULO2: Review and assess sources of finance and the requirements to obtain funding from different providers.

ULO3: Develop skills to (i) identify and evaluate risks in large scale investments and (ii) structure transactions in mitigation of those risks.

ULO4: Gain exposure to notable contemporary transactions that inform developments in the policy and practice of project and infrastructure funding.

ULO5: Make an analytical assessment (including valuations and cash flow modelling) of a proposed investment from the perspective of different stakeholders, including lenders, sponsors and investors and other involved parties such as governments.

General Assessment Information

Information - Extension Requests / Penalties

Pre-course Assignment

No extensions will be granted.

There will be a deduction of 10% of the total available marks for each 24 hour period or part thereof. This penalty does not apply for cases in which an application for Special Consideration has been made and approved.

No submission will be accepted after solutions have been discussed or posted by the lecturer. As this normally occurs on day 2 of classes, students need to be aware that submissions are rarely accepted beyond the first 24 hour late period.

Further information on submitting an Application for Special Consideration can be found at <http://students.mq.edu.au/study/my-study-program/special-consideration>.

Participation

Students who do not attend receive a mark of zero. This penalty does not apply in cases where an application for Special Consideration has been made and approved.

Further information on submitting an Application for Special Consideration can be found at <http://students.mq.edu.au/study/my-study-program/special-consideration>.

Assignment

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission incurs a 20% penalty). This penalty does not apply for cases in which an application for Special Consideration is made and approved.

Late submissions will be accepted up to 96 hours after the due date and time.

Further information on submitting an Application for Special Consideration can be found at <http://students.mq.edu.au/study/my-study-program/special-consideration>.

Final Exam

Refer to the relevant MAFC timetable for information on your online final exam <https://www.mq.edu.au/about/about-the-university/faculties-and-departments/business/study-with-us/macquarie-applied-finance-centre/timetables>.

Deferral of an examination is not permitted unless an application for Special Consideration is made and approved.

Students who do not attend receive a mark of zero. This penalty does not apply in cases where an application for Special Consideration has been made and approved.

Further information on submitting an Application for Special Consideration can be found at <http://students.mq.edu.au/study/my-study-program/special-consideration>.
