Unit description

The objective of this unit is to explore the theory and application of corporate finance issues at an advanced level, and to equip students with the required depth of knowledge and skill expected of a professional. Following a brief revision of basic financial concepts covered in earlier finance courses, the unit investigates the more complicated theoretical issues and analytical techniques in corporate finance. In particular, a critical approach is adopted which involves identifying the assumptions and limitations of these techniques when applied to the real world. Students are encouraged to understand that often the best method is a matter of debate, and that they must choose a method from a group of methods all of which have various limitations. This critical approach is reinforced by examining a number of real life corporate finance projects.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply investment and financing concepts to business decisions.

ULO3: Assess the effect of capital structure on value of firms and projects.

ULO2: Evaluate cost of capital, project risks and the financial viability of projects.

ULO4: Use options methodology to value business opportunities and firms.

Assessment Tasks

Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult iLearn for revised unit information.

General Assessment Information

It is the responsibility of students to view their marks for each within session assessment on iLearn within 20 working days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment marks (not including the final exam mark) will not be addressed.

Assessment criteria for all assessment tasks will be provided on the unit iLearn site.

CLASSES

The Unit involves 3 hours face-to-face teaching per week consisting of a 3 hour seminar. The timetable for classes can be found on the University website at: http://www.timetables.mq.edu.au/

Attendance at seminars is a compulsory component of the Unit, and students are expected to attend all classes.

LEARNING AND TEACHING ACTIVITIES

This is meant to be a 2nd unit in corporate finance. Most students will have completed an introductory financial management / corporate finance unit. As a more advanced unit, some of the topics covered will be familiar to students but we will be covering them at a more in - depth level. Some other topics will be completely new. As in the introductory unit, students need to work through the quantitative and other problems which are selected each week from the text. However, an important objective of this unit is to make the student aware of the limitations of financial theory and of the assumptions made in making finance and investment decisions.
