Unit description

This unit builds on the IS-LM model by incorporating expectations into goods and financial markets, by introducing openness and by integrating the labour market. The aggregate supply and demand framework is used to examine the short- and medium-run effects of monetary and fiscal policy. Other topics may include: growth; inflation; unemployment; and financial crises. This unit should enable students to evaluate the recurrent debates on macroeconomic policy and to analyse important real-world problems.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Analyse and apply theoretical models in contemporary macroeconomics.

ULO2: Critically analyse models and theories to solve contemporary macroeconomic problems.

ULO3: Apply macroeconomic models and theories to understand macroeconomic phenomena, and critique macroeconomic phenomena both individually and as a member of a team.

General Assessment Information

No extensions on within-session assessments will be granted for all assessments. Students who have not submitted the task prior to the deadline will be awarded a mark of 0 for the task, except for cases in which a formal application for Special Consideration is made (via <http://www.ask.mq.edu.au/>) and approved. If the application is successful, the missed assessment will be replaced by a supplementary test, which could involve an oral test.

Assessment Tasks

Name	Weighting	Hurdle	Due
Group presentation	20%	No	Week 12
Mid session test	20%	No	Week 7
Final examination	50%	No	Final exam period - November
Online quizz	10%	No	TBA

Group presentation

Assessment Type ¹: Presentation

Indicative Time on Task ²: 20 hours

Due: **Week 12**

Weighting: **20%**

Part 1: Tutorial solution presentations (10%) Part 2: Central Bank Simulation (10%)

On successful completion you will be able to:

- Analyse and apply theoretical models in contemporary macroeconomics.
- Critically analyse models and theories to solve contemporary macroeconomic problems.

Mid session test

Assessment Type ¹: Quiz/Test

Indicative Time on Task ²: 10 hours

Due: **Week 7**

Weighting: **20%**

Mid session test

On successful completion you will be able to:

- Analyse and apply theoretical models in contemporary macroeconomics.
- Apply macroeconomic models and theories to understand macroeconomic phenomena, and critique macroeconomic phenomena both individually and as a member of a team.

Final examination

Assessment Type ¹: Examination

Indicative Time on Task ²: 35 hours

Due: **Final exam period - November**

Weighting: **50%**

A two-hour closed book examination, consisting of descriptive short and long answer questions, will be held during the University Examination Period.

On successful completion you will be able to:

- Analyse and apply theoretical models in contemporary macroeconomics.
- Apply macroeconomic models and theories to understand macroeconomic phenomena, and critique macroeconomic phenomena both individually and as a member of a team.

Online quizz

Assessment Type ¹: Quiz/Test

Indicative Time on Task ²: 10 hours

Due: **TBA**

Weighting: **10%**

Several online quizzes will be held during the session. Details will be available in iLearn.

On successful completion you will be able to:

- Analyse and apply theoretical models in contemporary macroeconomics.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Lectures TUESDAYS 4-6PM, ONLINE

Lecture slides will be available on the unit web page at <http://ilearn.mq.edu.au>, and (barring technical hitches, the possibility of which should be allowed for) videos of the lectures will be available on Echo. During the semester, unforeseen circumstances may require the cancellation of a lecture and/or tutorial. Any changes will be announced as far as possible in advance both in lectures and on the unit website. Students are strongly advised that their learning is significantly enhanced by watching the lecture presentations online at the appointed time. It is assumed that students will attend all online lectures and tutorials at the prescribed times. Students who miss watching lectures put themselves at a significant disadvantage for several reasons, including:

(i) Not all the material in the text is covered in the unit, and not all the material in the unit is covered in the text. In some places the text deals with issues in greater depth than is necessary for the unit, and in other places it doesn't go far enough. The lectures contain all the unit material taught at the level required for the assessment tasks, and are your guide to the unit content. The tutorials will demonstrate the way questions in macroeconomics are approached.

(ii) The lectures and tutorials will include significant guidance about the style and content of the final exam and recommendations about study technique.

(iii) It is difficult (and often impossible) for staff to provide meaningful assistance to students outside class times on topics for which they did not attend the relevant lectures and tutorials.

Required Text

Available from your Local Co-op Bookshop is the **physical** text with eBook: "Macroeconomics" Blanchard and Sheen, 4th edition, 2013 ISBN: 9781486041220

This 4th edition is significantly different to the 3rd edition, and students are strongly advised to get access to the 4th edition. DO NOT get the 3rd (or earlier) edition. (Please do not email to ask if it's OK to get the earlier editions.)

Technology Used and Required Lecture and tutorial material as well as up to date information concerning any aspect of the unit, including any changes to the schedule, will be available to students by logging on to the unit web page at <http://ilearn.mq.edu.au>. Teaching and Learning Strategy This unit is taught as a mix of lectures and tutorials. The lectures are designed to

provide the tools which can then be applied in tutorials. The tutorials comprise numerical problems and analytical questions and will be detailed in a separate document on iLearn at the end of week 2. There should be the opportunity to explore issues raised in lectures and to ask questions. The tutorials aim to improve understanding of macroeconomic theory and policy.
