### Unit description

This unit enables students to gain an understanding of the implications and impacts of information and communication technology (ICT) in business. The aim of the unit is for students to understand the concept of the digital economy, the impact business pressures play on the organisation, and their responses and adaptations to these pressures, and the role ICT plays both inside and outside the organisation in the context of globalisation and future trends. The focus is on understanding the creation of business value by enabling business processes using information and communications technologies. Students will analyse contemporary case studies and examples to critically evaluate and recommend specific ICT solutions for each topic. Students develop report writing skills by researching a current topic, such as cybersecurity or digital ethics, analyse the issues and provide recommendations to management.

The unit is offered in two delivery modes. Students can choose between a face-to-face, on campus offering, over the full session, or an external offering comprising six modules, each of one week's duration, with a workshop on campus prior to the start of session.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO2:** Evaluate the significance of information to organisational success by explaining the business benefits of a reliable IS infrastructure, and how to successfully leverage information with an appropriate level of security.

**ULO3:** Explain how enterprise-wide systems support information and how business decisions are made by the users of that information.

**ULO1:** Critically evaluate the correlation between business and technology, including how business strategies and processes determine technology decisions.

**ULO4:** Research and evaluate the issues relating to information ethics and privacy, including the implications for social media use.

## Assessment Tasks

### Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

## General Assessment Information

**Late Submission(s):** *“Late assessment must also be submitted through Turnitin. No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission incurs a 20% penalty). Late submissions will not be accepted after solutions have been discussed and/or made available. This penalty does not apply for cases in which an application for **Special Consideration** is made and approved. Note: applications for **Special Consideration Policy** must be made within 5 (five) business days of the due date and time.”*

## Delivery and Resources

### Coronavirus (COVID-19) Update

Any references to on-campus delivery below may no longer be relevant due to COVID-19.

Please check here for updated delivery information: [https://ask.mq.edu.au/account/pub/display/unit\\_status](https://ask.mq.edu.au/account/pub/display/unit_status)

### Classes

This unit uses a flipped classroom learning approach. Students will be expected to read the textbook chapter, read lecture notes and complete activities prior to attending class. The class will involve interactive activities involving case studies, working in groups and other activities.

There is one class per week that will consist of three (3) hours. The timetables portal is available here: <http://timetables.mq.edu.au>

### Textbook

Baltzan, P, Lynch, K, Fisher, J 2015, *Business Driven Information Systems*, 3e McGraw-Hill North Ryde Australia (ISBN 9781743762097)

<https://www.vitalsource.com/en-au/products/business-driven-information-systems-paige-baltzan-v9781743762110>

### Technology Used

Course Material is available on the unit website (<http://ilearn.mq.edu.au>) - please note this includes the use of Turnitin. Other technology includes access to the internet to utilise the library website, complete Connect activities and the use of applications such as word processing software for assessment tasks.

### Expectations and Workload

Students are expected to spend 150 hours working on this unit. Students must make a serious attempt at each assessment task to successfully meet the unit outcomes. As a guide a student should spend these approximate amounts of time on each of the following activities:

	Activities	Hours
1	Weekly Seminars	39
2	Weekly preparation including reading the textbook and lecture notes as well as assigned activities prior to class (approximately 5 hours per week)	65
3	Report	26
4	Revision/preparation for exam	20
	TOTAL	150
