Unit description

This unit provides extended formal academic support to students concurrently enrolled in the Global Strategy and Leadership unit of the CPA program. Specifically, this unit provides students with a framework and the necessary analytical tools in order to develop and implement strategy. The unit covers a number of modules which predominantly follow a rational, or traditional analytical approach to the strategic management cycle – analysis, choice, and implementation. A number of approaches available to leaders will be examined.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply understanding of strategy and leadership concepts to business case scenarios

ULO2: Apply concepts of a) remote environment, b) industry analysis, c) competitor and key customer analysis, d) capability analysis, e) stakeholder analysis and performance measurement to implement strategies for leadership functions

ULO3: Analyse the role of leaders in developing and implementing strategy and be able to apply the strategy and leadership concepts learned to case scenarios

ULO4: Develop professional skills and capabilities in strategic thinking

ULO5: Develop communication and presentation skills relating to strategy and strategic leadership

Students are encouraged to utilise this material.</p> <p>There is generally a large amount of published literature available concerning strategic management. Students are therefore also encouraged to perform their own research (eg library, internet) during the semester to further explore the content covered within the prescribed and suggested reference texts, and, in class discussion.</p>
Other Course Materials:	

Teaching and Learning Activities

The unit is structured around a 3 hour session.

Lectures will provide students with the main concepts and techniques and these will cover the most significant parts of the content from the CPA Material. Students are expected to work through the material independently and to read the relevant module prior to lecture attendance. Some class discussion/activity will also be undertaken to consolidate the student's knowledge of the material covered within each week's lecture.

For each module, PowerPoint lecture notes will be placed on *iLearn* before the class. They are NOT intended to, nor do they stand alone nor do they in any way replace compulsory lecture attendance and FULL READING OF THE CPA Modules. They are provided for your convenience.

Students are required to ensure that they meet the requirements of Assessment 3 to receive class participation marks. Activities will be undertaken that will require students to complete tasks prior to, during and post class attendance.

You are not entitled to rely on notes provided by the lecturer for full study purposes nor most importantly can they be taken as being a defined indicator of CPA exam content.

Active participation in class is expected of every student. This helps clarify ideas, understanding and problem areas with the material, as well as enhancing your communication skills.

Ways to enhance your chance of success in this unit:

During 2007 the Master of Accounting program engaged in a significant research project that was designed to investigate and find ways to enhance student participation in the classroom.

Students who were interviewed during the research project stated that participating in classroom discussions, answering lecturer's questions and engaging in meaningful discussion with colleagues when directed by the lecturer:

1. assists them in retaining information and maintaining interest and concentration
2. allows them to clarify or check their understanding
3. provides opportunities to enhance and reinforce knowledge and learn from other students
4. improves their English proficiency
5. supports their development of communication skills develops skills needed in professional practice.

Lecturers expect students to participate in class as it:

1. provides opportunities for students to review or clarify lecture content and benefit from the experience of other students
2. assists students to think about concepts and test whether their understanding is correct
3. develops confidence in speaking
4. provides opportunities to think in a different way

The research concluded that the benefits of participation include:

- enhancing the learning process
- meeting lecturers' expectations of students
- helping to increase communication skills.
