Unit description

This unit covers established methods for the valuation and appraisal of investment projects and related financial decisions. It also covers the new 'real options approach' to investment appraisal, including the application of exotic options pricing formulae to real options using Microsoft Excel to build financial models, and introducing students to Visual Basic/Excel macros for financial modelling.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Understand current established methods for the valuation and appraisal of investment projects, their advantages and disadvantages and the development of financial models for this purpose.

**ULO2:** Build the financial models and perform the calculations to implement these methods using microsoft excel.

**ULO3:** Demonstrate an introductory understanding of the “real options approach” to investment appraisal.

**ULO4:** Document a financial decision making problem and its solution using spreadsheet software and communicate the results to interested stakeholders.

## Assessment Tasks
