### Unit description

This unit addresses current issues in electronic publishing, examining the many dimensions of communication in which the electronic and print mediums differ, and how to reversion content from print to screen delivery. It analyses their different document structures and page layouts, and issues of navigation and usability for web documents. Methods for indexing print and electronic materials are compared, and the use of metadata to optimise the searchability of website content is also examined. The editor's responsibilities for content in both mediums are discussed, as well as legal and ethical issues, as part of editorial project management.

## Important Academic Dates
