Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at [https://students.mq.edu.au/important-dates](https://students.mq.edu.au/important-dates)

Learning Outcomes

ULO1: Communicate software requirements and designs, clearly and effectively.

ULO2: Practice the key phases of the software development life cycle (SDLC) including requirements engineering, analysis, design, basic development and testing.

ULO3: Demonstrate an understanding of alternative SDLC models

ULO4: Apply the concepts and tools needed to successfully design and build an application

ULO5: Integrate an application with a database or other form of persistent storage

General Assessment Information

If you receive special consideration for the final exam, a supplementary exam will be scheduled in the interval between the regular exam period and the start of the next session. By making a special consideration application for the final exam you are declaring yourself available for a resit during the supplementary examination period and will not be eligible for a second special consideration approval based on pre-existing commitments. Please ensure you are familiar with the policy prior to submitting an application. You can check the supplementary exam information page on FSE101 in iLearn ([bit.ly/FSESupp](https://bit.ly/FSESupp)) for dates, and approved applicants will receive an individual notification one week prior to the exam with the exact date and time of their supplementary examination.
Late Submission
No extensions will be granted without an approved application for Special Consideration. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late. For example, 25 hours late in submission for an assignment worth 10 marks – 20% penalty or 2 marks deducted from the total. No submission will be accepted after solutions have been posted.

Assessment Tasks

Workshop Participation

Assessment Type ¹: Participatory task
Indicative Time on Task ²: 0 hours
Due: Weekly (Week 2 to Week-12)
Weighting: 10%

Workshops are combined practicals and tutorials. Workshops will involve a range of activities, some individual, some in pairs, some in groups. Be prepared to present your ideas.

Workshops are the key learning activity in this unit and your weekly attendance and active participation is expected. Each week your attendance will be recorded in your scheduled workshop and you will receive 1 mark for attendance and active participation. There are 12 weeks of workshops, however, the total attendance mark is limited to 10 throughout the semester.

On successful completion you will be able to:

- Communicate software requirements and designs, clearly and effectively.
- Practice the key phases of the software development life cycle (SDLC) including requirements engineering, analysis, design, basic development and testing.
On successful completion you will be able to:

- Communicate software requirements and designs, clearly and effectively.
- Practice the key phases of the software development life cycle (SDLC) including requirements engineering, analysis, design, basic development and testing.
- Demonstrate an understanding of alternative SDLC models
- Apply the concepts and tools needed to successfully design and build an application

Requirements Gathering, Modelling and Specification

Assessment Type 1: Case study/analysis
Indicative Time on Task 2: 25 hours
Due: **Week 7 (Thursday 9th April, 11.59 pm)**
Weighting: **15%**

This assignment will develop and test your skills in requirements gathering, specification, analysis and modelling.

On successful completion you will be able to:

- Communicate software requirements and designs, clearly and effectively.
- Practice the key phases of the software development life cycle (SDLC) including requirements engineering, analysis, design, basic development and testing.
- Demonstrate an understanding of alternative SDLC models

Application Design

Assessment Type 1: Design Task
Indicative Time on Task 2: 16 hours
Due: **Week 9 (Friday 8th May 11.59pm)**
Weighting: **10%**

You will design an application to the level of a complete specification.
On successful completion you will be able to:

- Practice the key phases of the software development life cycle (SDLC) including requirements engineering, analysis, design, basic development and testing.
- Apply the concepts and tools needed to successfully design and build an application
- Integrate an application with a database or other form of persistent storage

**Application Development**

**Assessment Type**: Design Implementation

Indicative Time on Task: 16 hours

**Due**: Week 12,13 (Submit online by Friday 29th May 2020 11.59pm)

Weighting: 15%

Assignment Two Part II will assess your development skills in implementing your application specification.

On successful completion you will be able to:

- Practice the key phases of the software development life cycle (SDLC) including requirements engineering, analysis, design, basic development and testing.
- Apply the concepts and tools needed to successfully design and build an application
- Integrate an application with a database or other form of persistent storage

**Final Exam**

**Assessment Type**: Examination

Indicative Time on Task: 25 hours

**Due**: TBA

Weighting: 45%

This closed book exam will test your knowledge of the concepts and ability to apply the learning material for Weeks 1-12.

On successful completion you will be able to:

- Communicate software requirements and designs, clearly and effectively.
- Demonstrate an understanding of alternative SDLC models
- Apply the concepts and tools needed to successfully design and build an application

---

1 If you need guidance or support to understand or complete this type of assessment, please contact the Learning Skills Team

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation
Delivery and Resources

CLASSES
ISYS254 is taught via lectures and workshops.

Lectures:
• Lectures are used to introduce new material, provide motivation and context for your study, guide you in what is important to learn and explain more difficult concepts.
• There are 2 hours of lectures per week.

Workshops:
• **Note:** Workshops commence in Week-2
• Workshops are small group classes which allow you to interact with your peers and with a tutor who has a sound knowledge of the subject. This also gives you a chance to practice your technology skills.
• You will need to enrol and attend the workshop to obtain marks for your attendance and participation.
• Workshops will be providing you with practical experience of design and development processes. The content of the workshop may overlap or sometimes be ahead of the lecture content.
• If your workshop falls on a public holiday, you are expected to attend & participate in another workshop as a makeup class to obtain your participation marks for that week.
• For details of days, times and rooms consult the [timetables webpage](https://unitguides.mq.edu.au/unit_offerings/122755/unit_guide/print).

RECOMMENDED TEXTS AND/OR MATERIALS

**Textbook**
There are no required textbooks for this unit. However, every week you will be provided with lecture notes and references for further reading.

UNIT WEBPAGE AND TECHNOLOGY USED AND REQUIRED

**Websites**
The web page for this unit can be found at: [here](https://unitguides.mq.edu.au/unit_offerings/122755/unit_guide/print).

**iLecture**
Digital recordings of lectures are available. Read instructions [here](https://unitguides.mq.edu.au/unit_offerings/122755/unit_guide/print).

**Discussion Boards**
The unit makes use of discussion boards hosted within [ilearn](https://unitguides.mq.edu.au/unit_offerings/122755/unit_guide/print). Please post questions of general
interest there (for example, about assessment tasks), they are monitored by the unit staff but students may also provide answers.

**FEEDBACK**

You have many opportunities to seek and to receive feedback. The feedback that you receive also plays an important role in your learning. Make sure you read the feedback you are given, attend lectures which provide assignment feedback and compare your solution with sample solutions provided. During lectures, you are encouraged to ask the lecturer questions to clarify anything you might not be sure of. You may also arrange to meet with your tutor or the lecturer. Consultation hours will be provided in some of the weeks. Each week, you will be given activities and problems to solve in the workshops. This will at times involve contributing to a group of students and presenting solutions to the class. The solutions provided will help you to understand the material in the unit, prepare you for the work in assignments as well as for the final exam. You must keep up with these problems every week. Assignments have been specially designed to deliver continuous feedback on your work.

Each week you should:

- Attend lectures, take notes, ask questions
- Attend your tutorial/practical and seek feedback from your tutor on your work
- Read assigned reading material (ideally before the lecture), add to your notes and prepare questions for your lecturer or tutor
- Start working on any assignments immediately after they have been released.

Lecture notes are made available each week but these notes are intended as an outline of the lecture only and are not a substitute for your notes or reading of the other additional material.

**Unit Schedule**

**Tentative teaching schedule, subject to change:**

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Grade Appeal Policy
- Complaint Management Procedure for Students and Members of the Public
- Special Consideration Policy (Note: The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.)

Students seeking more policy resources can visit the Student Policy Gateway (https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).
Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/study/getting-started/student-conduct](https://students.mq.edu.au/study/getting-started/student-conduct)

Results

Results published on platform other than [eStudent](https://eStudent), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](https://eStudent). For more information visit [ask.mq.edu.au](https://ask.mq.edu.au) or if you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

Student Support

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

Learning Skills

Learning Skills ([mq.edu.au/learningskills](https://mq.edu.au/learningskills)) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](https://mq.edu.au/learningskills)
- [StudyWise](https://mq.edu.au/learningskills)
- [Academic Integrity Module for Students](https://mq.edu.au/learningskills)
- [Ask a Learning Adviser](https://mq.edu.au/learningskills)

Student Enquiry Service

For all student enquiries, visit Student Connect at [ask.mq.edu.au](https://ask.mq.edu.au)

If you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

Equity Support

Students with a disability are encouraged to contact the [Disability Service](https://www.mq.edu.au/about_us/offices_and_units/student_access/disability_service) who can provide appropriate help with any issues that arise during their studies.

IT Help

For help with University computer systems and technology, visit [http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).

When using the University’s IT, you must adhere to the [Acceptable Use of IT Resources Policy](https://www.mq.edu.au/about_us/offices_and_units/information_technology/help/). The policy applies to all who connect to the MQ network including students.
