Unit description

This unit will introduce students to the study and management of cultural heritage and the ways in which history is created, practised and consumed in public, both through instruction and practical experience. Topics to be covered include: definitions of cultural heritage and public history; the history of cultural heritage; cultural heritage management in Australia; the assessment of cultural significance; preparation of conservation plans; collections and site management; the interpretation and communication of heritage; community history; aural history; and the role of the museum sector. Students will also be required to undertake an internship either in the cultural heritage or public history sectors (e.g., museums, galleries, archives, libraries, heritage consultancies, etc), in order to learn directly from professional practitioners and to practice their skills in a real-world environment.
