Unit description

The 800-level components of the Master of Research are not designed around units. The thesis together with four core research activities form a single coherent research unit based on individual research plans and will consist of the following:

1. Research Frontiers 2: you will attend a number of department or faculty-run sessions and engage in a program of activities developing your knowledge of the sub-disciplinary field in which you want to situate your own research
2. Literature Review: you will attend sessions explaining how researchers in your field engage with previous research literature, and produce a draft of your own literature review for your thesis
3. Research Methods: with other students and led by academic staff, you will develop the research methods you will use in your research project
4. Research Planning: through a combination of group sessions and individual work with your supervision team, you will develop a plan for a large scale research project, part of which will be completed in the MRes
5. Thesis: you will complete a small research project, and write it up in a short thesis of about 20,000 words.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Formulate a research question that has the potential to make original contributions within their research field

ULO2: Research and compose a comprehensive and critical literature review in a specific research area centered around a research question.

ULO3: Conduct independent scholarly research in your field or discipline following well-established research methodology within their research field.

ULO4: Use well-developed judgement to undertake research ethically and responsibly at the highest professional standards

ULO5: Undertake a qualitative or quantitative analysis of the data collected, identify and apply appropriate research methods for the research question at hand, inclusive of critical reasoning, argumentation and justification.

ULO6: Write a significant research thesis of 20,000 words with a professional presentation
