Unit description

The aim of this unit is to provide a postgraduate-level foundation in modern economic analysis, with applications to decision making in business, for postgraduate actuarial students. The unit provides students with the knowledge and tools to use microeconomic and macroeconomic theory and concepts in analysing business decision making and an understanding of the broader social, economic and regulatory environment in which businesses operate. Students gaining a Credit or higher in this unit will satisfy the requirements for exemption from professional subject CB2 of the Actuaries Institute.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO2:** Apply a range of techniques including calculations and manipulation of diagrammatic representations to solve problems related to economic concepts and models.

**ULO1:** Critically appraise key economic concepts, models and theories of microeconomics and macroeconomics.

**ULO3:** Evaluate the role of the government and the central bank and the instruments

available to them to manage the economy.

**ULO4:** Recognise and relate the relevance of economic theory to the wider business environment and describe the link between these theories to the practical application of individual businesses.

**ULO5:** Apply key microeconomic and macroeconomic theory and suggest solutions to real business problems.

## Assessment Tasks

### Coronavirus (COVID-19) Update
