Unit description

Using anthropological and ethnographic studies, this unit focuses mainly on the social and cultural contexts of drug use, both legal and illegal. Topics include: the international traffic in opium/heroin and cocaine in the Golden Triangle of mainland South-East Asia and in South America and the way this traffic inter-meshes with regional politics and local tribal, peasant and commercial systems of production and exchange; the social history of drugs in the USA, UK and Australia; youth culture and drugs in the West; AIDS and intravenous drug use; addiction and treatment; drugs and the law; the global political economy of pharmaceuticals, particularly contraceptives, erectile dysfunction drugs, and antiretrovirals in the age of AIDS; and the placebo effect. Students will learn to appreciate the complex ways that drug use is shaped by cultural, historical, economic, and political factors on a global scale. This unit also examines psychological theories of addiction and the neurology of drug use. All enrolment queries should be directed to Open Universities Australia (OUA): see www.open.edu.au

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

ULO2: apply and adapt anthropological knowledge to real world issues.

ULO3: gain familiarity with ethnographic approaches to the study of drug use

ULO4: understand the impact of broad social, political and economic forces on drug use and on social perceptions of drugs.
