Unit description

Being curious means constantly asking questions. Asking the right questions is a fundamental skill for problem solving. This unit integrates the knowledge developed throughout the course by applying a methodological rigour to how we assess data. There is no shortage of data - the immediacy of data availability through social and media platforms means unprecedented access to data. The increasing sophistication of automation and machine learning offers consumers a curated view which may not necessarily be accurate. How do we know what is real? Is the information credible? This unit develops problem solving skills by invoking the curious mindset. Students will demonstrate their mastery of triangulation by considering the validity and reliability of data and learn the importance of asking the right questions.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Critically evaluate qualitative and quantitative research tools and processes.

ULO2: Balance pragmatic concerns with rigour when deciding which qualitative and or quantitative methods to use relative to the problem.

ULO3: Master the science and art of asking questions.

General Assessment Information

Submission

You will submit your assessment tasks via your online unit on Coursera.

For individual submissions, please use the following naming convention for your file:

lastname-firstname-GMBAxxx-A1.*

lastname-firstname-GMBAxxx-A2.*

For group submissions, please use the following naming convention for your file:

team-number-GMBAxxx-A1.*

team-number-GMBAxxx-A2.*

Extensions

Please note that no extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission = 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved.

For any questions regarding your assignment submission or to apply for special consideration, please send an email to globalmba.support@mq.edu.au.

Formatting instructions

These instructions pertain only to written assignments. In the case of other formats (e.g., slide decks) specific formatting instructions may apply. Written assignments should be in 11 point Arial font with 1.5 line spacing. Each page of the report should be numbered and have at minimum 2.5 cm margins from the left and right edges and top and bottom of the page. The word count is strictly enforced. The actual word length of the document, not including references or appendices, should be clearly stated on the title page of the report. Written assignments should have the following structure:

1. A title page with the question, your student name and student number, word count of the text
2. The body of the report structured with paragraphs and with appropriate headings and citations, with page numbers.

3. Complete reference list of material cited in the text.

Referencing

Please use the American Psychological Association (APA) 6th edition reference style. This means that when referring to an article or book etc, you indicate the author's name followed by the year of publication (Jones, 1989). For multiple authors include all names (Jones, Smith, & Wilson, 1990). If you use a direct quote put the quoted words in "quotation marks" and include the page number with the reference (Jones, 1989, p. 76). A reference list should be presented in alphabetical order at the end of the paper. Further information on APA style is available at <http://libguides.mq.edu.au/content.php?pid=85232&sid=634282>

Commercial in Confidence

Please note that you must not disclose any information marked 'Commercial in Confidence' without permission from the party who supplied it (e.g., your current or previous employer, customers, etc.).

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Required text

There is no required textbook for this unit. Please refer to the weekly required readings in your online unit. All readings are available via the Macquarie University library and do not need to be purchased separately.

Delivery method

This unit will be delivered entirely online via the Coursera Learning Management System. Access to a personal computer is required to access the resources and learning materials on Coursera.

Unit Schedule

For this unit, Live Events (via the web conferencing software Zoom) will take place once a week starting in Week 1 and ending in Week 6. The links to the events are available via **Live Events** in the online unit. Students are strongly advised to attend the Live Events. Recordings of the live events will be made available within 24 hours of the event and can be accessed via **Resources** in the online unit.

Attending the Live Event each week is an opportunity to engage with the unit content, your Unit Convenor and classmates. Students are encouraged to complete specified Live Event preparation learning activities prior to each scheduled Live Event in order to get the most value out of these sessions.

Please note: The teaching schedule is subject to change. Please refer to your online unit for the latest schedule.
