Unit description This unit focuses on the fundamentals of good assessment principles, the mathematics of educational measurement, the interpretation of various forms of educational data, and evaluation strategies of learning programs. Central to these fundamentals is the role of various forms of educational data to support learning. Students will learn to analyse, interpret, apply and critically evaluate data from classroom assessments, state and national tests and large-scale standardised assessment programs (ie., NAPLAN). They will also develop problem-solving skills as they draw upon a range of assessment, measurement, and evaluation strategies in order to analyse educational data for a research report.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates
